

THE DAILY EXAMINER.

JULY 31, 1896.

Up to date the Patriot has not given a satisfactory explanation of its contradictory statements regarding the organization of the two Governments.

Mr. Blair, according to our despatches, is still without a constituency. Apparently the buy-election campaign in New Brunswick has not made any one rich.

The wedding presents received by the Princess Maud include an umbrella, the handle of which is richly encrusted with jewels. This is something nice for a rainy day.

Some of the papers complain that Quebec is flooded with fifty one and two dollar bank notes. It would seem that a good deal of unclean money changed hands during the recent election.

It is authoritatively stated that upwards of two hundred Democratic papers in the eastern, middle and northern states have refused to support the candidate and platform of their party. And the end is not yet.

The grit newspapers, as we pointed out a few days ago, are not now saying much regarding the subsidized press. All the same the subject of Government printing is receiving considerable attention at their hands.

In his speech at St. John's the other day Mr. Laurier gave the country to understand that he would try to secure preferential trade with Great Britain and a renewal of the old reciprocity treaty with the United States. The Sun thinks it will puzzle him to work the two together.

It is understood that Hon. Mr. Davies will leave for Ottawa early next week. He has been having a warm time with office seekers since the election. There is no public announcement as to who will continue this business during Mr. Davies' absence, but no doubt some convenient arrangement will be made.

The number of applications for office received by Mr. Davies may not be so large as the number with which Mr. Laurier has been favored, but it cannot be far behind. Mr. Davies will be able to treat applicants with better advantage to himself at long range, and he will, therefore, leave for Ottawa early next week.

The St. John's Sun asks how it came to pass that Mr. Davies is acting Minister of Railways and Canals, and points out that Mr. Blair was appointed Minister of Railways on the same day that Mr. Davies was made Minister of Marine. The Sun is anxious to know what is the matter with the real Minister of Railways.

It is announced that the bitter exports from Montreal to Great Britain this season amount to over 9,500 packages, which is within a few hundred packages of double the amount shipped last year up to the same date. This large increase is the outcome of the encouragement given to the butter industry by the late Government.

The battle of election protests has begun. It was started by the Grits, as usual. But it is a game that more than one party can play at, and a game at which, in the past, the Grits have invariably been worsted. On Wednesday petitions were filed against the return of Hugh John Macdonald, Nat. Boyd, member for McDonald, and Dr. Roche, member for Marquette.

There seems to be a good many queer people among the men who make the Grit newspapers. As the Halifax Herald points out, they have for years been declaring that Sir John Macdonald's policy was never to allow any man of first-class ability in the Cabinet with him; and now they turn round and declare that a good part of his life was spent in a struggle to get Grit leaders to join him!

In the course of a recent interview Sir Charles Tupper was asked regarding the probable duration of the coming session of Parliament. Sir Charles said that he was strongly opposed to anything like factions opposition and he did not, at present, see any reason why this session should be either than a short one. "But," he added, with a twinkle in his eye, "although it may be short the Opposition will try to make it interesting."

Mr. Laurier is showing his great versatility. When fault is found with him for calling Tarte to the portfolio of Public Works his reply is that "nothing is too good for Tarte," meaning thereby that his services called for special recognition. But when fault is found with the passing over of men like Mills, Fraser, Dumville, Ellis, et al, to make room for such people as Blair and Fielding, Mr. Pacaud (Mr. Laurier's alter ego) makes reply in L'Electeur that cabinet positions are not rewards, but must be given only to those who can help to keep the party in power!

The Montreal Gazette remarks that compared with the violent denunciations of the protective tariff that used to be heard from the Liberal leaders in and out of Parliament, the recent utterances of Mr. Laurier verge on the astonishing. He and his colleagues are to hold what will practically be a six months' inquiry to study the tariff in its bearings on business, and learn wherein and how far it may be changed without injury to the country. The inference drawn by the Gazette is that the Liberals' past denunciation of the National Policy has been due to the fact that it was the work of a Conservative Government, and not from any knowledge they had of its operations. Their present attitude, however, practically declares that they do not know enough of the latter even to change one schedule.

LIBERAL TRADE POLICY.

Its Indefiniteness and Uncertainty a Cause of Business Loss.

The following letter, which we clip from the Montreal Gazette, explains itself:— To the Editor of the Gazette:

Sir,—One does not require to be either very wise or deeply thoughtful to see and know that the industries of Canada are most directly affected by the trade policy of the Government.

The average man of ordinary intelligence who reads the newspapers must know that the publicly announced and positively enforced policy of the Conservative party was protection to the Canadian industries, or the so-called "National Policy."

I defy anyone to delude from the public utterances of the leaders of the party now in power what is now or what is to be their real policy. By their promises they undertake to improve the condition of the farmer, to protect the capitalist, to delay for the wreck of the manufacturer, to look kindly after the interests of the people of the United States, and at the same time to draw us nearer to the Motherland.

The platforms which some Liberal leaders have been laying down betwixt for several years past, namely, commercial union, unrestricted reciprocity, independence, Zollverein, revenue tariff, etc., present such a beautiful variety of possible results from whatever course they may choose to adopt, that trade of every kind, from one end of the country to the other, is more than anxious, it is afraid to move. There is no general movement of merchandise from one province to the other, the storekeeper, or into the consumption of the public.

Premier Laurier may think what he may about the consequences of his public utterances, but there is no business man in the Dominion who does not know that these uncalculated and unjustifiable delays mean simply another season of ceaseless inactivity, accompanied by an extra large amount of enforced idleness, with the other party, suffering and discontent among the working classes—a certain portion of which might possibly be avoided if capitalists and manufacturers were plainly told what was going to be done, so that they might, if possible, adjust themselves to meet the new state of affairs. Most Canadians know that under our present fiscal system Canada prospered and wealth increased, but that under the present Liberal system Canada prospered and wealth decreased with the length of tenancy, enabling every purchaser to buy in less than 20 years purchase. At the start there will be 20 per cent. more in now paid, and the tenants will also be relieved of 10 per cent. during the first 30 years.

The new bill also extends the powers of the congested district board, and enables it to borrow to the extent of \$1,500,000 (\$7,500,000). In regard to evicted tenants the government could not consent to the use of public money for them, believing it should come from private sources, but it announced its willingness to relax the clause of the land act for a year, and so act as a mediator.

CONSTANTINOPLE, July 28.—As a result of a cabinet council just held the Turkish government to-day made a formal complaint to the government of Greece regarding the alleged shipment of arms and ammunition from Salonica to the island of Crete for the use of the insurgents there, and relative to the appearance of armed bands in Macedonia, pointing out the danger therefrom to the peace of Europe, and adding that Greece would be held responsible for it. The Turkish government also announced that it had been decided to grant limited concession to the Cretans, and that they will be allowed representation. The powers, it is stated, have decided to despatch a force of Albanians against the Greek filibusters, a step which will undoubtedly add to the gravity of the situation.

A strange verification of a premonition of it is reported from Elkhart County, Ind. Miss Katherine Ott, twenty-eight years of age, retired last night with the remark that she would not be living next morning. Her faith in the reality of what she believed was a revelation so strong that she made arrangements for her obsequies. On Sunday morning she was found dead. Lightning had struck the house during a storm, and she was instantly killed.

Captain General Weyer has published a decree to the effect that in view of the difficulty of communication with foreigners residing in Cuba, they may deliver their papers to the nearest civil authorities, who will forward them to the office of the general government. The registered papers will later be returned to those who belong to it, and a certificate of registration will accompany them if required. All foreigners from this date will be compelled to register upon landing in Havana.

Make it a point to see that your blood is purified, enriched and vitalized at this season with Hood's Sarsaparilla.

BORN At Georgetown, on the 27th July, the wife of A. D. McPhee, Esq., postmaster, of a daughter.

DIED. On the 31st inst., George Henry, dearly beloved child of Harry and Ethel Conley, aged 7 months.

CITIES AND TOWNS FLOODED. The Rushing Waters Swept Away All Before Them.

ANDERSON, Ind., July 29.—The situation in the Indiana gas belt is serious. Successive cloud-bursts, which have kept up with frightful regularity since Tuesday night, have swollen streams out of their banks and are flooding the cities and towns. In this city three men were struck by lightning and killed. Dams and dykes along the White and other rivers gave way this evening and the water swept everything before it. People were rescued from second story windows. The big dyke at Yorktown broke, letting the lake out. It caused the White and other rivers to take a terrific spurt, taking everything in its path, including bridges and buildings. Johnston, a suburb, was almost washed away. The river is still rising at the rate of a foot an hour. Crops are destroyed. Despatches state that the cities of Frankton, Elwood and Alexandria are partly under water. Damage cannot be estimated.

England having turned out King Prench, is building an expensive fort at Kanasee, every forty pound load of cement used being brought from the coast at a cost of \$6.25 per carriage.

THE HERBERT FULLER

Has Been Ordered to Boston Instead of Sailing for Rosario.

WASHINGTON, July 29.—Although the owners of the barkentine Herbert Fuller, now lying at Halifax, are desirous of having the ship resume the voyage interrupted by the murder of Captain Nash, his wife and his second mate, and have shipped another captain and men to fill the vacancies in the ship's company, it is by no means certain that she can be permitted to proceed on her way to Rosario.

The district attorney at Boston, who is now in charge of the prosecution of the case, to-day requested that the Fuller be ordered to come to Boston so that he might supplement the evidence obtained by Consul Ingraham at Halifax. The Consul accordingly was directed to detain the vessel, which was just about to sail for Rosario. Meanwhile the representative of the owners at Halifax appealed to the Government to allow the ship to proceed, asserting that as she had been thoroughly overhauled and all visible evidences of the crime had been washed away no useful purpose could be served by bringing her to Boston. This statement was forwarded to the district attorney at Boston, and it will be for him to say finally whether the Fuller may sail away or must come to Boston.

HALIFAX, N. S., July 29.—The barkentine Herbert Fuller has been ordered to Boston by the Government of the United States as a material part of the crown's case at the approaching trial.

IRISH LAND BILL. Provisions of the New Measure Before the British Parliament.

LONDON, July 29.—The new Irish Land Bill, which was introduced in the House of Commons on April 13th, provides for facilitating the purchase of the holdings and prevents the lessee from having resented on his improvements. It also embodies the most non-contentious proposals of the Irish Land Bill of 1895 and modifies other proposals. The new measure provides that the tenant on the payment of two years arrears shall be deemed to be in just possession of his holdings, leaving the landlord to recover the remainder of the arrears in the ordinary way. There is no alteration in the statutory term of fifteen years for fixing a fair rent. Purchase will not be compulsory, the terms for the repayment will be extended from 49 years to over 70 years, and relief will be given to tenants towards the end of their tenancy, payments decreasing with the length of tenancy, enabling every purchaser to buy in less than 20 years purchase. At the start there will be 20 per cent. more in now paid, and the tenants will also be relieved of 10 per cent. during the first 30 years.

The new bill also extends the powers of the congested district board, and enables it to borrow to the extent of \$1,500,000 (\$7,500,000). In regard to evicted tenants the government could not consent to the use of public money for them, believing it should come from private sources, but it announced its willingness to relax the clause of the land act for a year, and so act as a mediator.

CONSTANTINOPLE, July 28.—As a result of a cabinet council just held the Turkish government to-day made a formal complaint to the government of Greece regarding the alleged shipment of arms and ammunition from Salonica to the island of Crete for the use of the insurgents there, and relative to the appearance of armed bands in Macedonia, pointing out the danger therefrom to the peace of Europe, and adding that Greece would be held responsible for it. The Turkish government also announced that it had been decided to grant limited concession to the Cretans, and that they will be allowed representation. The powers, it is stated, have decided to despatch a force of Albanians against the Greek filibusters, a step which will undoubtedly add to the gravity of the situation.

TELEGRAPHIC.

SPECIAL DISPATCHES TO THE EXAMINER.

ELECTED BY ACCLAMATION. Eight Ministers are Returned Without Opposition. Blair Will Likely Go Into the Senate Until There's a Common Vacancy.

KENTVILLE, N. S., July 31. Hon. Dr. Borden, Minister of Militia, was yesterday declared elected by acclamation for King's county.

ST. JOHN, July 31. Hon. Mr. Blair has not yet succeeded in finding a constituency.

QUEBEC, July 31. Hon. Sydney Fisher, Minister of Agriculture, was yesterday declared elected by acclamation for Brome.

TORONTO, July 31. The Conservatives put no opponent in the field to Sir Richard Cartwright, the Minister of Trade and Commerce, in South Oxford, or to W. M. Mulock, Postmaster General, in North York. Both members, therefore, were returned by acclamation.

QUEBEC, July 31. Mr. Laurier, President of the Council, was yesterday elected by acclamation in Quebec East.

QUEBEC, July 31. The election of eight members by acclamation leaves four besides two in the Senate and the vacant portfolio of the Interior to be provided for.

QUEBEC, July 31. The nomination has been postponed until August 3rd, and Fielding's in Queens and Shelburne until the 15th.

QUEBEC, July 31. Blair will likely go into the Senate until a Common Vacancy occurs in New Brunswick, and Patterson will probably run for North Grey. The writ for the bye-election in North Grey will not be issued until the Minister's arrival in the capital.

LATE NEWS FROM HALIFAX. Review, Horse Races and Harbor Illumination. Speculation Regarding the Four-Oared Race To-day.

HALIFAX, July 31. The weather was fine throughout yesterday. The military and naval review in the morning was witnessed by fully 20,000 people, and was one of the finest demonstrations of the kind ever seen here.

The harbor illumination at night was a magnificent spectacle. There was a grand pyrotechnic display from the boats moored in the centre of the harbor, followed by a procession of boats of all descriptions, all illuminated in different designs.

The great feature of the display was the electrical illumination of the warship, her hull, spars and smokestacks being outlined in different designs.

HALIFAX, July 31. Regarding to-day's professional four-oared race all is uncertainty so far as the winter is concerned. The English crew is the favorite in the betting. The St. John crew is in the pink of condition and making good time. Nothing positive can be learned about the Halifax crew, and they may give the sporting public a big surprise.

TOURISTS VISITING. The "Gem of the Gulf" Are invited to visit

Carters' Bookstore. Photos for sale of leading buildings and Island scenery. Souvenir Chinaware, with Island views, choice Stationery, Fancy Goods and Toys, Books, Novels, Magazines and Papers.
