

The World.

This world is a sad, sad place I know— And what soul living can doubt it? But it will not lessen the want and woe To be always singing about.

A few sweet notions of bliss I've quaffed, And many a cup of sorrow; But, in thinking over the flavored draught, The oldtime joy I borrow.

The world at its saddest is not all sad— There are days of sunny weather; And the people in it are not all bad, Cut saits 'n sinners together.

Because we meet in the walks of life Many a selfish creature, It does not prove that this world of strife Has no redeeming feature.

For, though the world is a sad, sad place, (And who that is living can doubt it?) It will not lessen the want and woe To be always sighing about.

Confederation in Australia.

The proposal for a union of the Australian Provinces into a Confederation similar to the Dominion of Canada has again been revived. It will be remembered that some years ago the Australians were talking about a Confederation, but the agitation on the subject, after a time, died away.

Table with 3 columns: Area in Square miles, Population, and a third column with values like 88,198, 853,562, etc.

It would seem that the main difficulty of bringing about a confederation of the Provinces is the tariff. The Customs tariff of Victoria is high, while that of New South Wales, the next in point of population, is low.

Horsford's Acid Phosphate is beneficial in indigestion and in many diseases where the nervous system is unstrung.

NOTICE.

THE Charlottetown Gas Light Company have imported a fresh supply of Bray's Patent Burners, especially made to consume only three feet of Gas per hour with the tap turned full on. These Burners are intended for use in Halls, Bedrooms, Kitchens, and other places where a light from a small consumption of Gas only is required.

By regulating the tap, the Gas consumed can be reduced to any desired quantity less than three feet per hour.

These Burners are so scientifically made that they will give a light equal to about ten candles at a cost of three quarters of one cent per hour.

The price of these Burners to consumers of Gas will be ten cents each. (In 10 cent post)
