EXAMINATION AT ST. DUNSTAN'S COLLEGE.

The annual examination of the students of St. Dunstan's College took place on Thursday, the 26th inst. In consequence of the College undergoing extensive repairs, the public were not invited to attend as in former years. There were, however, present on the occasion, nearly all the Catholic clergy of the diocese, the Rev. John Quinnan, of the diocese of Arichat, the parents of the students and several other friends of the Institution from the City. The students acquitted themselves very creditably in the various English, French, Latin and Mathematical classes in which they were examined, and were highly complimented by the Rev. Mr. Quinnan, who, after the examination, addressed them at considerable length on the great advantages of a good education and the numerous facilities for mental improvement placed within their reach. The classes were interspersed with numerous pieces of vocal and instrumental music, which reflected much credit on the youthful performers and their professor, and added much to the pleasure enjoyed by the respectable audience in attendance. The proceedings of the day were terminated by the national anthem, which was played in excellent style by the band. The following is a list of the places held by the students in their respective classes at the close of the scholastic year :—

Good Conduct.—James McDonald, Chas. McCarthy, Roderick McDonald, Henry McCullough.

Religious Instructions.—*1st Class.*—1st, Daniel Gillis, James Broydrick, D. J. McDonald ; 2nd, A. Babineault, James McKenna, John Blake. 2nd Class.—1st, C. McCarthy, A. Callaghan ; 2nd, Jos. McGilvray, Jas. Gillis. 3rd Class.—1st, R. McDonald, J. O'Connor, J. Morrison ; 2nd, H. McCullough, J. Kelly, J. S. McLean. 4th Class.—1st, J. Mitchell, J. Conroy ; 2nd, Richard Dinn.

Chemistry and Natural Philosophy.—1st, D. J. McDonald, J. Broydrick, J. McKenna ; 2nd, J. McDonald.

Trigonometry and Land Surveying.—1st, J. Broyderick ; 2nd, D. J. McDonald.

Geometry.—1st Class.—1st, D. Gillis, J. Blake ; 2nd, James Roche. 2nd Class—1st, C. McCarthy, J. Donovan ; 2nd, J. Livingston, A. Babineault, B. McKeany.

Algebra.—1st, J. Blake ; 2nd, A. Babineault, D. Gillis, C. McCarthy.

Arithmetic.—1st Class.—1st, J Morrissey, P. McKenna ; 2nd, J. Arsineaux, J. Hone, R. McDonald. 2nd Class—1st, W. Burns, E. Doucet ; 2nd, E. Kickham, Daniel Kelly.

Geography.—1st Class.—1st, J. O'Connor, W. Proctor, R. McDonald ; 2nd, J. Morrissey, J. McLellan, J. Morrison. 2nd Class—1st, H. McCullough, H. McWade, E. Kickham ; 2nd, D. Kelly, R. Grant. 3rd Class—1st, J. Mitchell ; 2nd, J. Gleeson, C. Keenan.

Greek—Translation.—1st, J. Broydrick, D. J. McDonald ; 2nd, Jas. McDonald.

Grammar—1st, J. Broydrick ; 2nd, D. J. McDonald, J. McDonald.

Latin.—Horace.—1st, J. Broydrick, D. J. McDonald ; 2nd, J. McDonald.

Virgil.—1st, B. McKeany, H. Hamill, A. Babineault ; 2nd, J. Roche, J. Donovan.

Cicero.—1st, J. Broyderick ; 2nd, D. J. McDonald, Jas. McDonald.

Sallust.—1st, J. McKenna ; 2nd, B. McKeany, J. Blake.

Epitome Historiæ Sacræ.—1st, J. O'Shea, R. Gleeson ; 2nd, J Livingston, Jos. McDonald, H. O'Mara.

Grammar.—1st Class.—1st, B. McKeany ; 2nd, A. Babineault. 2nd Class—1st, J O'Shea, R. Gleeson ; 2nd, H. O'Mara, M. Richard.

Composition.—1st Class.—1st, D. J. McDonald, J. Broyderick ; 2nd, J. McDonald. 2nd Class—1st, J. Blake, J. Roche ; 2nd, B. McKeany, A. Babineault.

French.—1st Class —1st, A. Babineault ; 2nd, J. Broydrick, J. McDonald. 2nd Class —1st, R. Grant ; 2nd, J. Arsneaux, J. Livingston. 3rd Class—1st, C. McCarthy ; 2nd, F. Arsineaux, R. McDonald.

History.—1st Class.—1st, J. Broydrick, D. J. McDonald ; 2nd, J. McDonald. 2nd Class—1st, J Roche, J. Blake, D. Gillis ; 2nd, J. McKenna, H. Hamill. 3rd Class—1st, Jos. McDonald, J. Livingston ; 2nd, J. O'Shea, J. McGilvray, R. Gleeson. 4th Class—1st, C. McCarthy, P. McKenna, J. Morrissey ; 2nd, A. Callaghan, R. McDonald, J. O'Connor.

English.—Composition.—1st Class.—1st, D. J. McDonald ; 2nd, J. Broyderick. 2nd Class—1st, D. Gillis, J. McKenna ; 2nd, J. Roche, J. Blake. 3rd Class—1st, J. O'Shea, H. O'Mara ; 2nd, Jos. McDonald, J. Livingston.

Grammar.—1st Class —1st, C. McCarthy, R. McDonald, J. Morrissey ; 2nd, J. Hone, J. O'Connor, J. McLellan. 2nd Class—1st, H. McCullough, D. Kelly, E. Doucet ; 2nd, F. Fisher, E. Kickham.

Reading.—1st Class —1st, J. Morrissey, R. McDonald ; 2nd, J. Hone, J. Morrison. 2nd Class—1st, E. Doucet, W. Conroy ; 2d, H. McWade, W. Burns. 3rd Class—1st, C. Keenan, J. Conroy ; 2nd, J. Gleeson, J. Mitchell.

Dictation—1st, R. McDonald, J. Morrissey, J. Hone ; 2nd, J. Morrisson, J. Gillis, J. McGilvray.

Spelling with meaning of words—1st Class.—1st, C. McCarthy, A. Callaghan, P. McKenna ; 2nd, J. Hone, J McGilvray, J. O'Connor. 2nd Class—1st, W. Conroy, H. McWade ; 2nd, H. McCullough, J. S. McLean. 3rd Class—1st, J. Gleeson, C. Keenan ; 2nd, R. Dinn.

Music.—Instrumental.—1st, H. Gaffney, R. McDonald, J. O'Shea ; 2nd, D. J. McDonald, Jas. McDonald.

Vocal.—1st, R. McDonald ; 2nd, F. Arsineaux, J. McGilvray.

THE PHILOSOPHER'S STONE.

The imaginary "Philosopher's Stone" which was supposed to turn all things into gold, and consequently to be the source of untold wealth to its possessor, was eagerly sought after by the ancients, as the grand desideratum of all their earthly aspirations. As an unlimited producer of gold, it was considered of far greater value than gold itself, and any or all other limited amounts of wealth of whatsoever kind. It was the theme of their thoughts and words by day, and the director of their fairy visions by night, and its fancied possession the "ultima thule" of all their earthly aspirations.

But there is a better and a greater earthly good than the "Philosopher's Stone," or all the wealth it has been supposed to bestow! Gold, riches, position, or even the highest honours are of very little use without health, which alone gives them any real value, or makes life itself a blessing to its possessor. Whatever, therefore, produces health is better than gold, or any other kind of earthly riches. The history of the world presents a sad picture of mortality. Premature death seems to be the rule rather than the exception. Of the children born, our reliable statistical tables inform us that, not more than one-third reach the age of eight years, and less than one-fourth of the whole ever arrive at the juvenile age of twenty years, while among the brute creation a much greater proportion reach full maturity. From these and other reasons many uninformed minds have been led to believe that nature has not done her work well in the formation of man. But such is not the case. She has been, equally, as lavish of her favours to man as to any other of her creatures; but man has not been, and is not equally true to himself. Improper treatment, want of care in the weaning of children, irregular habits, and an abuse of the means of preserving life and health, are the fruitful sources of disease and premature decay. Against ultimate death (as we all know) there is no remedy. The fiat has gone forth, "Dust thou art, and to dust shalt thou return." But the evils of disease can be averted and dismayed, and the relentless hour of death often put far away by careful attention, and the timely and proper use of such emollients and remedies as the science and skill of eminent men have produced for the purpose, among whom none have become more justly celebrated, or conferred greater benefits on mankind, by conducing to their health, and consequently wealth, long life and happiness, than Professor Holloway, of London. The beneficial effects produced by his Pills have given them a world-wide popularity which is only equalled by the immense demand for them, thereby created. Aside from their general utility they are said to be extremely beneficial in the treatment of young children, in purifying the blood, through which life and health mainly flow. They act on the liver and regulate the stomachs of little children, in a mysterious manner; and when the child is too young to take them in a solid form, they may be powdered and given in that manner. As an outward application for all diseases that affect the surface, the celebrated Ointment has no rival, and should always be kept for immediate use.—WASHINGTONIAN ADVERTISER.

A claim to a most remarkable invention has been made by a M. Girard, who professes to have discovered a plan by which rail cars can be propelled without wheels and without locomotives. Experiments have already been made near Malmaison upon a track about a hundred yards in length, and the Emperor has witnessed some of them—his Majesty deigning to undertake to move a large car by pushing it gently with his walking stick, which he succeeded in doing, very much to his own surprise and that of his suite.

☞ Two or three original articles intended for our present No. are unavoidably omitted for want of space.

☞ The Bark "Gazelle," Cameron Master, owned by Messrs. W. W. Lord & Co., arrived in Liverpool on the 6th instant, after a passage of 19 days. This vessel has made her round voyage from Liverpool and back in two months and two days, and would leave for Charlottetown on the 20th inst.

MASONIC PROCESSION AT GEORGETOWN.—Tuesday last was a day long to be remembered in Georgetown, when, as previously announced, the ceremony of laying the foundation stone of the new Academy to be erected in that town, took place.

A number of the Brethren of the Mystic-tie from the City and various parts of King's County, were on hand and assisted. Brother P. M. Charles Bell, of St. John's Lodge, acted as Deputy Grand Master of the ceremonies. At high 12 the procession proceeded from the Lodge Room of St. George's Lodge, accompanied by Bro. Lobban's Band, to Trinity Church, where Divine Service was conducted by Bro. R. T. Roach, after which the procession reformed and proceeded to the site of the New Academy—accompanied by a large number of the inhabitants of Georgetown and vicinity—when the corner stone (a massive block) was laid in due and ancient form. It is unnecessary here to allude to the masterly manner in which every part of the proceedings were conducted, further than to say that it was a perfect success.

In the afternoon the Brethren sat down to a sumptuous dinner prepared for the occasion, where they enjoyed themselves until half past nine in the evening, when the Brethren and guests separated, and departed in peace and harmony. Education and Masonry were the principal topics alluded to by the several speakers.—*Com.*

PRESENTATION.—The students in Mr. Wm. Monk's department, in the Prince of Wales' College, a few days since presented him with two beautiful morocco-bound octavo volumes of Burns' and Mrs. Hemans' Poems, as a birth-day gift, and as a token of the high appreciation in which he is held by them. Mr. Monk is deservedly popular among those under his tuition. We have often heard warm expressions of regard for him expressed privately by his pupils; and judging from this, and the progress made in their studies, together with the deep anxiety manifested by them to become thoroughly conversant with the different branches in hand, Mr. Monk must possess, to a great extent, the faculty of making study and the acquisition of knowledge, pleasing and enticing to his pupils. Too many teachers are wanting in this necessary quality, and study becomes a hardship, and eventually disgusting to those under them. —*Ross's Weekly.*

We learn that on Thursday last a severe frost visited the vicinity of West River, and did considerable damage to the young plants.—Is.

SUCCESSOR TO ADMIRAL MILNE.—It is rumoured in Naval circles, since the arrival of the steamer from England, that Rear Admiral of the White, John Elphinstone Erskine, is to succeed to the command of the North Station, *vice* Sir Alex. Milne, whose period of service terminates in January next. Admiral Erskine served on this station from 1841 to 1845, as flag captain to Vice Admiral Sir Chas. Adam, and was one of the Commission who presided at the trial of the Saladin Pirates in July 1844. He was here again in the summer of 1856 in command of the line of battle ship *Orion*. —[Halifax Recorder.

The Empress Eugenie has decreed a new petticoat, the devices of which are said to indicate great scope of invention. So far as the public is allowed to know, it consists of cambric muslin, and is six yards in circumference at the widest point, being moreover covered with nine flounces of still greater circumference. The majesty of the Empress's demeanor when decorated with all these yards is acknowledged to be indescribable.

HOLLOWAY'S PILLS.—How many thousands irrecovably lose their health through neglect of early derangements and carelessness of the first symptoms of disordered action? Had Holloway's Pills been taken, all would have been rectified, all morbid humours would have been expelled and everything obnoxious to the system removed. For cleansing the entire body, and preserving the health, no drug or combination of drugs, equals in potency Holloway's Pills. All who have tried them have united in bestowing unqualified praises upon them for the ease, cheerfulness, and vigour they beget. The excellence of these Pills has been asserted and confirmed by people in all parts of the globe; their wonderful efficacy in preventing or curing diseases is universally admitted.

Died,

At Cable Head, Lot 41, of Consumption, on the 24th instant, Mr. Joseph Reville, aged 24 years. Requiescat in pace.

MOWING MACHINES.

Still Later Discovery than any at the Great Exhibition.

Manny's Patent Hay and Grain Cutting Machines.

Steel Lined Guard Finger Plate,
(Being an entirely New Improvement.)

Tempered the same as the Knives, and is attached to the Finger by a Patent Process, thus making an entire New Cutting Face.

THE FARMERS OF PRINCE EDWARD ISLAND will be gratified to learn that some of the above labour and money saving Machines have just arrived at Charlottetown, Georgetown, Summerside and Orwell, from the Manufacturers, to PATRICK STEPHENS, of Orwell, who will supply the several AGENTS throughout the Island. Those machines have received some very late and important improvements, by which their value is greatly enhanced; and as only a very few of them have been received, it will be for the interest of FARMERS to send in their orders immediately. As the growing CROPS promise to be more abundant than any by which this Colony has been favoured for many years, it will be very desirable for farmers to have them harvested in good TIME, and at the least possible expense, which can only be DONE by the help of MANNY'S PATENT MOWING AND REAPING MACHINES.

The Proprietor of those Machines, ASHOL BOOTH, Esqr., is at present on the Island, and encouraged by the very liberal support which he has received here, he has been induced to invest a large capital in the Machines, so as to apply to them all the latest improvements, which make them more valuable to farmers than the gold mines of Australia, Columbia, Vancouver's Island, or Nova Scotia. As one thousand eight hundred of those wonderful Machines have been sent to Europe this Spring, few remain for the Provinces. This fact alone bears strong testimony to their importance and desirability. Certificates of their working order in this Island have been received from various parties, and will be published in a subsequent advertisement, showing that they have given general satisfaction.

Agents for the sale of the above Machines :—

Where the cheapest goods are sold, of every variety, from a Needle to an Anchor.
Orwell, June 23, 1862.
Circulars containing instructions will be forwarded to Agents by next Mail.

W. W. Irving, Esq.;

SIR,—Having purchased one of MANNY'S PATENT MOWER AND REAPER from you, we beg to state that we are perfectly satisfied with them in every respect, and believe them to be the best Machine yet introduced for doing the rough and smooth work in a new country. They are simple in construction, strong and not apt to get out of order; and of light draught, and do their work in a first rate style, and we would strongly recommend them to our brother farmers.

J. R. Bourke, J.P., Georgetown Road; John W. Crosby, West River; Alex. Robertson, J.P., Bonshaw; Isaac Thompson, George Deacon, Lot 31; Joseph Tweedy, Pownal Point, Lot 50; James Proudfoot, Lot 23; Alexander Laird, M.E.C., Lot 23; William H. Hyde, junr., West River; Joseph H. Dingwell, Bay Fortune; John Hudson, Rustico Road; Richard Crabb, Malpeque Road.

Whitcomb's Late Improved
PATENT HAY RAKE,
Brown's Patent Pitch Fork,
AND TWO OF THE ONE-HORSE
Mowing & Reaping Machines,
Now for sale at the Agricultural Implement Warehouse of
W. W. IRVING, Charlottetown.

These late improvements added to the present Mowing and Reaping Machines make them much more valuable, and has caused a great demand for them this season.

The Greatest of all Wonders FOR 1862.

LYON'S PATENT
STONE AND STUMP
EXTRACTOR.

I have the above Machine, which now ranks among the greatest labor-saving improvements of the age, and meets with the unqualified approbation of all who have seen it in operation. It will take rocks out of the ground, weighing from One Hundred Pounds to Six Tons, without digging; it will work on hill-sides or wet ground, level meadows, or any place where rocks and stumps are required to be pulled. Two men can work it with ease; and any farmer having rocky land can well afford to clear it with this Machine, as it can be done at one quarter the cost of the ordinary way.

The machines are built of good stock, and well constructed, and with proper care are not liable to breakage or injury.

I give below a few of the many certificates which have been freely offered by those who have used them :

For the past few months I have had one of Lyon's Stone and Stump Machines in operation on my farm. I can safely say it has exceeded my most sanguine expectations, never having failed in a single instance of giving entire satisfaction. I have found it as useful in pulling stumps as rocks, and consider it one of the greatest labor-saving machines that a farmer can possess.
HARVEY STONE, New Milford, Ct.
August 27th, 1860.

I have been using one of Lyon's Stone and Stump Extractors, and believe it to be more practicable and useful for the purpose it was designed for, than any other invention of the kind now in use. Myself and a boy ten years old have raised rocks from five to six tons, and that without digging.
TRUMAN GUILD.
Warren, Aug. 20, 1860.

Winsted, Oct. 22, 1860.

Mr. A. G. Beach: Of the Rock Machine we wish to express our entire confidence in its utility and worth, and we unqualifiedly endorse the circular issued by its proprietor, to wit: "this Machine is one of the greatest labor-saving improvements of the age," &c.
H. PERKINS.
Secretary Greenwoods Ag'l Society.

We have used one of Lyon's Stone and Stump Machines this summer, and find it to be all it was recommended. We have lifted a number of rocks with it that are estimated to weigh over ten tons, and any quantity of smaller ones. It is a great saving of labor to lift rock out of the ground that require blasting, as it takes only half the drilling and half the quantity of powder to blast one after it is laid upon the surface of the ground.

We advise every man who owns a rock farm to buy one of Lyon's Rock Lifters, as we can assure them it will prove to be a good investment of capital.
ORESTUS BUCKORY,

House and Land for Sale.

THE TWO-STOREY HOUSE AND LAND IN Dorchester-street, at present occupied by Francis Stanley. There is a Shop, Office, Sitting-room and Dining-room on the first, and three Bed-rooms and large Sitting-room on the second floor, all thoroughly painted and papered throughout. A frost-proof Cellar, walled with stone, besides a Cellar Kitchen and Pantry. The House is well finished, and only two years old, has large yard accommodation, and is a desirable stand for either a Store or Boarding House.

TERMS—£300 of the purchase money may lay for 10 years at 6 per cent; the balance, one-third down, and the remainder in one year, free of interest. For further particulars apply to J. S. CARVELL, Esqr., Charlottetown, or to the owner,
GEO. W. HOWLAN.
Cascumpec, March 10, 1862.

Valuable Property at Auction

FOR SALE AT PUBLIC AUCTION, and immediate possession given, that valuable and eligible premises in possession of JOHN HOBBS, Cabinet Maker, situate on Great George-street, Charlottetown, the ground comprising 83 feet front, on the street, by 84 feet back. The buildings consist of a good substantial DWELLING HOUSE, 37 by 33 feet, all finished throughout, with a Brick Kitchen, and a Stable in the rear.

Also, a substantial and commodious SHOP, with a fronting of 26 feet on the street by 55 feet, with an out-house attached in the rear, and a good stoned Cellar under the Shop.

The premises will be sold in one lot, or divided, as may be most advantageous.

Part of the purchase money may remain secured on the premises for a term.

SALE to take place on the premises, on TUESDAY, the FIRST JULY next, at the hour of 12 o'clock.

For further particulars apply to the subscriber, or Mr. HOBBS on the premises.
CHARLES PALMER.
