"Like a breath of Spring" is what you'll say about the outstanding display of Spring Jewelry in Taylor's Jewellers Limited show window. This colorful array of spring jewelry is centered with photos of models in the forthcoming "Centennial Parade of Spring Fashions" sponsored by the J. Ladies Aid of P. E. I. Hospital to be held at the Queen Charlotte High School Auditorium March 28 and 29.

Vest Lands In P.E.I. Hospital

A bill to vest certain lands in the Prince Edward Island Hospital was passed just before the Legislature prorogued yesterday. It provides that the land lying east and adjacent to the Prince Edward Island Hospital fronting on Brighton Road and consisting of about two acres will be ceded to the Hospital Trustees and will remain the property of the Hospital so long as it shall continue to operate as a hospital. In such an event the land would revert to the Government which would have the privilege of accepting or refusing it at that time.

Premier Matheson who introduced the bill explained that this parcel of land is an unsightly piece of which no use is being made. He said that the Hospital Board has been anxious to acquire it for possible hospital extension. He was sure that the field would be made more attractive under the Board of Trustees.

Premier Matheson said that the amendment was being introduced for the purpose of taking care of situations similar to one which recently arose in the Supreme Court at Summerside. Without the amendment, the Act provides that a witness may refuse to give testimony on the grounds that it might incriminate him or his employer. With the amendment to the Act a witness is compelled to give evidence but such evidence cannot be held against him or his

Nfld. Fisheries Minister To Speak

Hon. W. J. Krough, (above) Minister of Fisheries and Cooperatives, St. John's Newfoundland will be guest speaker at the annual meeting and banquet of the P. E. Island Fishermen's Association at the Charlottetown Hotel at noon on Tuesday. Mr. Charles Richards, Secretary of the Association said yesterday that the Executive were very much pleased in having been able to arrange for the visit and address from Mr. Krough, who is a recognized fisheries authority on both the Atlantic and Pacific coasts.

Other interesting features of the annual meeting will be a discussion and demonstration of the new metal lobster trap with which several experiments have already been made at the Biological Station, St. Andrew's, N. B., under the direction of Dr. Wilder. It is planned to make studies and experiments with this type of trap at various places in the Island fishing areas in the future.

Other topics to be discussed include lobster regulations, inspection, advertising, and marketing. "There is a definite trend towards a more vigorous and effective approach to the whole lobster industry, which should appeal to all Island fishermen," Mr. Richards said.

ST. PETER'S CATHEDRAL, A. Y. P. A. — The regular weekly meeting of St. Peter's Cathedral A. Y. P. A. was held in the Guild Room on Thursday, the 17th of March, with ten members, and three guests present. The meeting was opened at 8:15 with hymn no. 563 and prayers led by the president, June Dickson. The minutes of the previous meeting were read and adopted. Joint meeting of the A. Y. P. A. will be held on Wednesday, the 23rd of March, in St. Peter's Parish Hall after the Confirmation Service. Guest speaker will be Miss Katherine Green, Diocesan Youth Worker. It was decided that the inspection of CFCE which was to be held on Thursday the 24th be cancelled and will be held in the near future. The business meeting was then closed. Harry Sharma showed a film, one which he took at the Pre-Lenten Social last month. An enjoyable evening was then brought to a close.

Estimates Questioned At Length By Opposition

The need for both a trade director in the Department of Industry and Natural Resources and an agricultural marketing representative was a matter of considerable controversy when the legislative committee was asked to consider the estimates for the coming year. Mr. Frank Myers (PC First Queens) said there was considerable overlapping of jobs and felt that one man could well fill the two positions, and in any event the two positions under the one portfolio. Mr. John A. MacDonald felt that the agricultural marketing representative should be a marketing representative who supply the information regarding potential markets for Island products.

In questioning the Minister of Industry and Natural Resources, Mr. Myers asked: "What were the duties of the trade director and did he have any jurisdiction over transportation?" Mr. Cullen said that in all the Provinces there is a large staff of marketing representatives who supply the information regarding potential markets for Island products.

Work of Gideons To Be Emphasized

Many of the Charlottetown churches will be emphasizing the work of "The Gideons" tomorrow, through the use of a special bulletin and making provision for those who may wish to make a contribution to the work of the society.

The Gideons is an Association for the literary, business men, inter-denominational in character. They are best known for their distribution of the Holy Scriptures of which they have placed three million copies of the complete Bible in hotels, motels, hospitals and various other institutions, and fifteen million New Testaments to members of the Armed Services and school children of North America alone.

Many unsolicited testimonies, confirming the power of the Holy Scriptures thus placed, have been received by The Gideons, and are evidence of the importance of their ministry. Last year, this Association of business men, in addition to travelling thousands of miles at their own expense and giving countless hours of their own time, contributed \$90,000 from their own pockets to help carry on the work in which they are so deeply interested. They believe that their contributions of time and money are worthwhile investments in Christian citizenship, returns for which are shown in reclaimed lives, rebuilt homes and stronger churches.

Supplementary

minister last summer, tabled his first set of estimates in January. These undoubtedly will be stepped up by supplementaries in the course of the fiscal year. The outcome won't be known for about a year.

Meanwhile, the country will get a clue to the expected total when Mr. Harris tables his first budget, expected early in April. The budget sets out the amount of expected government spending during the fiscal year, the potential surplus or deficit and tax and tariff policies that will raise the money.

His predecessor—Hon. D. C. Abbott, now a Supreme Court justice—budgeted last April for a nominal \$4,000,000 surplus on estimated spending of \$4,400,000,000. It has become evident Mr. Harris is in for a deficit on the basis of that calculation.

Ch'Town Revenue

by the municipality on the portion which has been completed. At present, assessment regulations of the City of Charlottetown or the Province of Prince Edward Island are not before the finance department officials. These regulations will no doubt be obtained by the department either from Mayor Stewart and the City Treasurer or from provincial officials. Only then will the exact amount of the grant be calculated.

When the new Federal Building is completed, the federal grant could easily reach the figure of \$30,000.

Reason why Charlottetown will be preferred on a scale proportionately greater than almost any other Canadian municipality under the Act, is that assessed value of its federal property in 1954 was above the former four per cent ceiling by only a very small amount. Cities where the concentration of federal property is heavier will benefit heavily in actual cash, but percentage-wise or in the capital is at the top of the list.

Charlottetown municipal taxpayers will hasten to point out to Mayor Stewart and to the City Council that the federal grant is by no means a clear gain. When the property on the site of the new Federal Building was expropriated by the Public Works Department, a considerable source of revenue was withdrawn from the city's coffers. In the end, however, it may prove that the new Federal Building will pay more municipal taxes than did all the expropriated property combined.

DIVORCE COSTS

LONDON (CP) — The British Law Society says taxpayers foot the bill for half the divorce cases in Britain, because of the state-sponsored legal aid scheme.

Funeral At Hartsville

The funeral of Mr. Malcolm G. Buchanan was held on Thursday afternoon. There was a short service at his late residence followed by a service in Hartsville Church. The services were conducted by Rev. Lawrence Blaikie.

Fire Damage On Malpeque Road

Fire Wednesday morning caused extensive damage to the residence of Mr. and Mrs. Joseph Curley, West Road, about three miles from Charlottetown on the Malpeque road.

Starting in the downstairs portion of the large, two-and-a-half story frame dwelling, the fire was raging out of control when the Charlottetown Fire Department arrived on the scene shortly after receiving the alarm at 9:00 a.m. The Charlottetown firemen were joined later by the Parkdale Fire Department, and the unit from Spring Park, and the three units combined to extinguish the blaze but not before considerable damage was caused by smoke, fire, and water.

The origin of the fire hasn't been determined, but it is thought to have started on the ground floor of an ell, which houses the kitchen. Damage was confined mostly to this portion of the house. A prompt offer of assistance was received from Red Cross authorities.

House Ponders Serious Question As To Whether Chairman Should Wear Hat

One of the items on the order of business just before the Legislature closed yesterday was the resolution of the Committee on Education. The motion, which was promoted by Hon. George MacKay brought unanimous expressions of opinion from both sides of the House asking that the Department of Education give further study to the re-introduction of Latin in the curriculum of the public schools.

HOUSE RULES

Another resolution dealing with the rules of the House brought forth some lively discussion on the question of whether the committee chairman should wear a hat while a bill was before the Legislature. Dr. Bonnell strongly opposed the ruling on the grounds that there was no need for it. He said that it was his understanding that the practice of wearing a hat came into vogue in the early days when the Assembly was heated by a pot belled stove and the chairman, being farthest from the stove, kept his hat on to keep his head warm.

The Premier said he was inclined to agree with his colleague. He could see no good reason for the continuance of the practice.

Mr. George Saville objected. "If we are going to do away with the rules of the House," he said, "we will soon have this Legislature relegated to the status of a country school meeting."
