

In Five Minutes Its Cooked
Ralston Breakfast Food
 SAVES TIME, TROUBLE AND DIGESTION

Most cereals require a double boiler, and at least 30 minutes cooking, while Ralston Breakfast Food is prepared with ease and dispatch in a single boiler in five minutes.

The vigor and strength imparting properties of Ralston come from Gluteric acid. Wheat, the whole berry of which is milled into Ralston Breakfast Food.

There's not another dish so delicious for breakfast that contains as much nutrition as Ralston Breakfast Food.

THE DAILY EXAMINER
 JULY 5, 1907.
THE CAMPAIGN.

At the end of a little notice about the Wheatley River meeting, the Patriot says, "From all points come cheering news for the Liberals!" If there is no greater "cheer" for the Liberals than that which is given by Wheatley River and Rustico, they will certainly be "out in the cold" after the 11th of July. The Patriot is, in point of fact, whistling to keep its courage up and to make a cover for the wholesale jobbery by which the Pineau-Farquharson combination hope to carry the election of their doctor-candidate, against the public opinion of the province.

According to the advices we have received, and the observations we have been able to make, the course of the campaign has been, from the beginning, continuously favorable to the farmer-candidate who carries the Opposition standard in the Second District of Queen's, and to those by whom he is surrounded and supported. At Wheatley River, at New Glasgow Hall, at Cavendish Hall, at Rustico Bank, and at Milton Hall last evening, the Opposition scored heavily against the Pineau-Farquharson Government. It is evident that the farmers are determined to get the Government of this farming province, for the most part, into their own hands; and they have been delighted by the able addresses of their fellow farmers in the Legislature. Mr. Shaw's ringing denunciations of the deception and dishonesty and misgovernment of the gentlemen now in office, and the telling comparisons instituted by Hon. William Campbell, have shown our farmers that farmers may become intimately acquainted with public affairs, and fit themselves, to control Provincial business, as in Denmark. A few able lawyers on either side are, of course, essential. But in this province the controlling interest lies with the farmers; and the farmers feel more and more strongly that they ought to so shape the course of the public business here that the farming interests shall be promoted. This feeling, which is strengthening day by day, is distinctly favorable to the canvass of the farmer-candidate, Mr. Wise, and is correspondingly unfavorable to the doctor-candidate come to the rescue of the dying Government that has lately been kept alive by Pineau. It is possible, of course, that this feeling may be overcome by the petty bribes which are being distributed to a certain class of electors in the various sections of the country,—but we think not; and therefore we look with confidence to the success of the Opposition in the present campaign.

The Summerside Journal remarks that the electors of West River district, before casting their votes on the 11th inst., should calmly and dispassionately think over the serious state of affairs. A vote for Dr. Douglass is an approval of rapidly increasing and almost hopeless debt and burdensome taxation; a vote for Mr. Wise is a protest against such conditions, and a demand for economy and retrenchment, and for a stop to the mad pace at which the government are heading for the precipice of provincial bankruptcy.

Mr. H. A. Calvin has been nominated as the Conservative candidate for Frontenac, with more than a fair prospect of success. The Montreal Gazette remarks that Mr. Rogers, the present Patron-Liberal member, is handicapped. He has not only to carry a trunk of stationery in the race, but his support of Laurierism as well.

REVOTES!

The Guardian and the Patriot are making a great potter about the "supplementary estimates" for this Province. It will have been noticed that a large proportion of these "supplementary estimates" are "revotes," by which the people have been humbugged in the past and will, doubtless, be humbugged again in the future. The "Liberals" have a way, when an election is pending, of voting a large amount for local public works and raising the hopes and expectations of the people. Then they hold the elections; and, then, in many instances the money is not spent and the public work—whatever it may be—is not done. Summerside harbor furnishes one case in point and Tignish breakwater another. In view of the approaching general election the Liberals are at the same old trick on a large scale. Of the amounts of the supplementary estimates, about which the Patriot, in particular, boasts continuously, we notice that not less than \$31,500 are made up by these old "revotes,"—by which some people have been fooled already.

NOTES AND COMMENTS

—The vertical handwriting hobby has been condemned in the United States.

—The Farmer Candidate ought to receive the farmers' votes,—not the doctor candidate!

—Yes! It is probable that some electors will take the Government bribe and vote against the Government candidate.

—Mr. Dunsmair, the new Premier of British Columbia is described as a silent man. But his government may, nevertheless, be a good one for the country.

—It is noted that Mr. Arthur Peters is not taking any part (openly) in this bye-election. Perhaps he thinks it not worth while to waste his breath about a Premier who is "very unpopular."

—It is stated that the road jobbery now prevalent throughout the second district of Queen's has had the effect of so disgusting a number of Liberal voters that they will vote for Mr. Wise, the Opposition and farmer candidate.

—The tide of public opinion against the Pineau-Farquharson government is setting so strongly, that both Farquharson and his doctor candidate are in very bad humor. But then, they have "human devices" to depend upon; and these will be used freely.

—A New York newspaper has sent a special correspondent to Cuba to study the government of that Island by United States officials. His first discovery is a military hospital equipped with 2,500 beds at a cost of \$200,000, which has never had more than eighty patients at one time.

—A Montreal trade paper states that it is the opinion of English and American experts who have been looking over the ground in both Nova Scotia and the west that gold, silver and lead mining in Canada are only in their infancy, and the mineral wealth of the dominion is destined to have a great development.

—For next year Finance Minister Fielding proposes to spend \$56,312,527. In 1899 we exported as follows:

Animals	\$11,040,326
Breadstuffs	17,525,915
Cheese	16,776,760
Bacon and ham	10,416,478
Total	\$55,759,488

Thus our entire receipts from the sale of wheat, rye, peas, corn, cattle, cheese, bacon, and ham are swallowed up by expenditures. The outlays will be at the rate of \$1,082,000 per week. We shall, as the Mail and Empire says, all have to work hard to find the money.

—Bradstreets, Toronto, in its review on June 30th says of the Manitoba wheat crop: Showers through the wheat belt in Manitoba have improved the crop outlook, but Winnipeg business firms are satisfied that the damage already done

will greatly impair the general outlook for trade. The opinion that the wheat crop will be reduced about 50 per cent appears to be pretty unanimous. Many farmers have ploughed up the crop fields. The implement and machinery men report that their business will suffer considerably. Interest rates are firmer. The southwestern and western parts of Manitoba, in the Dauphin and Swan river districts, and in the Territories there has been enough rain to insure better crops than can be hoped for in other sections of Manitoba.

—The Rev'd. Mr. Pringle, missionary to the Yukon, related his experience in the country, in both St. James' and Zion Churches last Sunday. It was most interesting to listen to the Rev'd. gentleman, who is a native of Charlottetown, and about thirty years ago worshipped in Zion Church. He missed old faces and mentioned the names of Simon D Fraser and Hon. David Laird. From his description of the country, which Sifton, Tarte, Davies & Co., was willing, and did barter away, turns out to be a magnificent country. It appears also that Grit rule is not palatable to the inhabitants of the Yukon territory. Is it not a pity that the party which boasts, or did boast in days gone by, that it was the party of purity should today be the only corrupt party in Canada? Witness the humiliating spectacle of the Government of this province hanging together by a traitor's vote, and witness the wholesale corruption in the Second District of Queen's at the present time. The people, we believe, have a little honor left, and they are becoming so disgusted with Farquharson that they will on the 11th inst. bury him deep.

HONOUR THE FLAG.

SIR,—Will you through your paper start a subscription list for the purchase of a new Union Jack to replace the disgraceful "string of tatters" that now flies from Government House flagstaff? The local Government should attend to this, I know; but the Premier is very busy at present, and the ships are coming in next week.

EMYVALE.

In the old Chapel Hall, on Tuesday, the tenth day of July, instant, at 7.30 p. m. Mr. Wise will address the electors of this part, whom Dr. Douglas did not honor with a meeting. Hon. Mr. Campbell and others will address the meeting. Dr. Douglas and Mr. Farquharson are requested to attend. This will be the largest and last meeting of the campaign.
