THEATRE PEI'S 1995-96 SEASON OPENS WITH *THE GLASS MENAGERIE*

Theatre PEI is pleased to announce its new winter subscription season. The opening production of this Three-Play Package, *The Glass Menagerie* by Tennessee Williams, will be presented Wednesday through Sunday, October 4-8, 19895, at Carrefour Theatre, off Riverside Drive, Charlottetown. Rob MacLean, Theatre PEI's new associate artistic director, will direct this production. Curtain time is 8 pm for the evening performances, and 2 pm for the Sunday matinee.

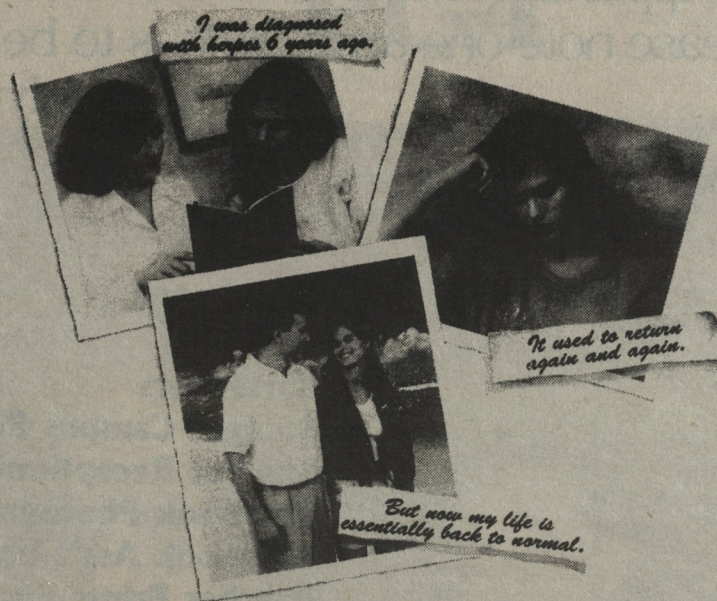

The Glass Menagerie, a Tennessee Williams classic set in the Depression years, burns with the low fires of desperation. This is the story of the Wingfields: Laura, more crippled in spirit than body; Amanda, who clings to faded fantasies of Southern nobility; and Tom, who must choose between his family and his freedom.

The strong cast features Carol Sinclair, Melissa Mullen, Rob MacDonald and Crair Blair. Carol Sinclair, acclaimed actress and playwright, now makes her home in Halifax. She and Ms. Mullen were featured in last season's Neptune Theatre production of *Dancing in Lagnasa*. Rob MacDonald is well known to Island audiences, having just completed his fifth season with *Neckenstein*. Craig Blair was lauded this past summer for his performance in the provocative *Drinking in America* at the Arts Guild.

The next two productions in the season are *The Island Remembers* (November 10-12, 19095) featuring The Venerables, Wade Lynch and a strong supporting cast, and *La Saguine* (in English) featuring veteran actress Viola Leger (January 31 - February 4, 1996). All productions will take place at Le Carrefour Theatre.

For a copy of the Three-Play Package subscription brochure, call theatre P.E.I at 566-0321. Adults \$34, Seniors \$26 and students \$19.

You can take control of genital herpes

...and your life

Coping with recurrent symptoms such as itching or burning pain, tingling, sores, or even localized redness in or near the genital area has never been easy. Add to this the emotional impact of guilt, resentment, depression... a disruption of daily life.

Advances in medical research now enable you to do something about genital herpes outbreaks. A greater understanding of genital herpes — plus the

availability of affordable treatments, and counselling — can help you get your life essentially back to normal and potentially keep outbreaks out of the picture for years.

To confidentially learn more about reducing the severity and frequency of genital herpes outbreaks, and minimizing the risk of transmission through safe sex guidelines, contact the National Herpes Hotline.
