THE DAILY EXAMINER

THE LEADING DAILY NEWSPAPER OF P. E. ISLAND,

ssued every afternoon, from the office of E EXAMINER PUBLISHING COMPANY, in the ndon House Building, Queen Street.

RATES OF SUBSCRIPTION.
(IN ADVANCE)

ONE YEAR.....$4.00
SIX MONTHS.....2.00
THREE MONTHS.....1.00
ONE MONTH.....0.35

Sent post paid to any part of Canada or the United States

ADVERTISING RATES

For small advertisements which are ordered for only one or two weeks the charge is 50 cents per inch for the first insertion, and 25 cents for each continuation. Rate cards are furnished on application at the office. Special contract prices at a reduced rate are quoted for advertisements four inches in size or larger, which are to run for three months or longer.

No special notices inserted unless paid for at the rate of 15 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars, cnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per line is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents:—

R. H. Mason, Post Office, Charlottetown
J. Meintyre, Malpeque Road, "
C. Paul, Lower Spring Park Road, "
W. M. Coffin, Grafton Street, "
S. Grey, cor. Water and Prince St. "
D. Chappell, Prince Street, "
Bazaar Store, Queen Street, "
Geo. Carter & Co., Queen Street. "
S. Gray, News Stall, P. E. I. Railway and on the trains.
M. & T. J. Walsh, Eclectic Bookstore, Summerside.
Harry McFarlane, Souris.
Hon. D. Gordon, Georgetown.
D. A. Egan, Mt. Stewart.
G. M. Clarke, Alberton.
A. J. Mowell Stanley Bridge.

The Weekly Examiner

s issued every Friday morning from the publishers' office. It is made up of matter which has appeared in the Daily editions, and is a first-class weekly newspaper—interesting and full of the latest news.

The subscription for THE WEEKLY EXAMINER, post paid to any part of Canada or the United States, is one dollar per year.

Advertising rates on the same scale as given bove for THE DAILY EXAMINER.

D. POTTINGER
Gen. Mgr. Can. Govt. Railways.
J. UNSWORTH, Superintendent.
Charlottetown, Dec. 14, 1893.

HAVE A GUESS.

Oh, wheelmen, all take my advice,
And don't forget, be sure
To take a look at the famous "Bike"
In PROWSE'S well-known Store.

The handsome Brantford Bicycle
That in their window's shown
Is as good as any in Charlottetown,
And it may be your own.

A jar in which are cents galore
Is placed where all can see;
Guess how many cents the jar contains
And the "Bike" your own will be.

Be wise, make all your purchases
At PROWSE'S Clothing Store;
Each purchase, on that Bicycle,
Will give you one chance more.

Their Carpets, Hats and Furnishings,
And all, in fact, they keep,
Compared with others in the town
Are more than quite as cheap.

A Watch or Clock

that does not keep correct time is worse than none at all. We have Watches and Clocks regulated right up to time, and our prices are regulated by the hard times. We also have the latest styles in Jewelry. In our Repairing Department we are giving excellent satisfaction, as we are paying special attention to it. We also repair Land Surveyors' and Ships' Compasses. Bring your Watches and Clocks to be repaired.

G. G. JURY,

North Side Queen Square, Opposite Post Office.

Charlottetown, April 17, 1894—dy & wky

The prize winners in the Bazaar Co's. Roo m Paper (Problem) competition are: 1st, H. E. Sterns, Hillsborough St. 2nd, Geo. W. McLeod, Fitzroy Street; 3rd, R. E. Smith, Great George Street.

They show that a 16 yard roll contains 74 square feet.
" " 12 " " 63 "
Difference in favor of the 16 yard roll, 11 "
or 1584 square inches.
That the number of 16 yard rolls required, $8\frac{84}{37}$
" " 12 " " $10\frac{19}{21}$
Difference in cost at 60c. per roll, $93\frac{113}{259}$c.

or that if they had to buy whole rolls, the difference would be still greater, it taking, of 16 yard rolls, 9; of 12 yard rolls, 11. The difference then would be $1.20 in favor of 16 yard paper.

☞ Note that the difference, 93c., is correct, as we do sell a portion of a roll.

It is not hard to see from the above that the difference in the two rolls is considerable. Therefore we repeat: "Do not imagine you are getting a DOUBLE roll of English Paper"; it has only 12 yards., 1584 square inches less than a double.

We justly claim to lead in the Wall Paper business—sell 16 yards for a double roll—have the very latest American and Canadian Paper. We will sell any portion of a roll or take back any that is left. Prices away down.

BAZAAR CO., Genuine Paper Men.

Charlottetown, April 11, 1894—m w f

N.B. TRADE MARK THE VARNISHED BOARD ON WHICH THE GOODS ARE WRAPPED.

Ladies Costumes

Ladies have a great deal of trouble in selecting dress goods. The variety is great. The quality is various and the merit claimed is sometimes more than the possession. When ladies are desirous of obtaining the finest grade of Black Dress Goods, they should ask to see Priestley's dress fabrics. These, as is well known, are the *ne plus ultra* of durability, beauty and delicacy of texture. They have long been the favorite dress goods of well dressed English women. The Americans prefer them to French goods. Canadian ladies can obtain them from reliable dealers. Ladies should always ask for Priestley's Dress Goods.

THE ROBERTSON MIXTURE FOR ENSILAGE.

THE following is taken from the advance sheets of the Report of Prof. Robertson as Agriculturalist, at the Central Experimental Farm.

The mixture was grown by farmers in all parts of the Dominion last year, and is now recognized as one of the best and cheapest combinations of feed for cattle which can be produced on farms in Canada.

"For a few years I have been seeking to find and put into the silo with Indian corn, some other fodder plant or plants, which would furnish the quantity of albuminoids necessary to make a well-balanced ration in a form which would cost much less than ripened cereals or concentrated by-products, such as oil-meal, cotton-seed meal or bran. Clovers and meals were tried with indifferent success, and the climbing or pole beans have been grown with cornstalks for trellis without appreciable advantage. It is desirable that ensilage should contain, besides the albuminoids and carbo-hydrates such as may be found in Indian corn and horse beans, a larger quantity of fat than these plants contain. In a country with such a climate as prevails in Canada during the winter, it seems advisable to provide a winter ration for cattle containing a fairly large proportion of fat, as a bland, heat-producing part of a ration in a cheap palatable form. I venture to believe that we have now secured that in the heads of sunflowers.

The horse bean or small field bean (Faba vulgaris, variety equina) seems to meet the case, so far as the albuminoids are concerned. This plant grows with a stiff, erect stem of a quadrangular shape. It attains in Canada a height of from 3 feet to 6 feet. It bears pods from within 6 or 8 inches from the base of the stalk to near its top. The beans when ripened are of a grayish-brown colour, and of oblong round shape, about ½-inch in long diameter and from ⅜ to a ½-inch in short diameters. Plants have carried ripened beans in the lower pods, while the topmost ones on the same stalks were hardly out of bloom.

The sunflower (Helianthus annuus) grows luxuriantly over the whole of the temperate zone on this continent, and the seeds contain a large percentage of fat. The variety known as Mammoth Russian has been grown in rows 3 feet apart, and it appears to do best when the plants are from 12 to 18 inches apart in the rows.

Very much valuable information on several aspects of the growing and cultivating of corn, horse beans and sunflowers, has been gained from the full reports which were sent in by the different farmers who gave the mixture a trial. From that source and the results of our own experience, I offer the following recommendations for the growing of this mixture for the coming year:

The horse beans and sunflowers can be obtained from almost any of the dealers in seeds. It is not considered necessary or desirable that seeds should be furnished by the Experimental Farm, after information is available on the desirable methods of cultivation, and when they can be obtained from the seed merchants.

Soil.—If a field with a drained, warm, loamy soil be convenient to the silo, and can be used, it should be selected in preference to a heavy clay or wet soil for Indian corn. The horse beans do well in clay soils. In all cases the land will be the better for receiving a liberal dressing of manure. It should be ploughed in the spring, and be harrowed to a state of fine tilth before the seeds are planted.

Time to Plant.—The time at which Indian corn for fodder may be planted with the best results, in most districts, is during the last ten days of May, or late enough in the season to escape frosts at night, and early enough to give the plants the advantage of as long a season for growing as is practicable. The horse beans and sunflowers are less liable to injury from the frost than the Indian corn.

Throughout the province of Ontario and the western portion of the province of Quebec, the horse beans may be planted with advantage from one to three weeks later than the Indian corn.

The sun flowers should be planted as early in the spring as is practicable,—otherwise the heads may not ripen in time to be put into the silo.

Proportion.—The mixture should contain about ten tons of Indian fodder corn, to about 2½ or 3 tons of horse beans and about 1 or 1½ tons of sunflower heads. To obtain it in these proportions, it should be grown at the rate of one quarter of an acre of sunflowers and half an acre of horse beans to every acre of Indian corn.

How to plant.—Throughout the Maritime Provinces and in the eastern part of the province of Quebec, the Indian corn and horse beans may be mixed together and planted in rows 3 feet apart, with from 2 to 4 grains per lineal foot in every row. This takes about ½ of a bushel of corn and and ½ a bushel of peas per acre. Elsewhere a larger crop of bean plants, not too ripe and dry for the silo, may be ensured by planting them separate from the Indian corn.

The Indian corn may be planted in rows three feet apart, with from 2 to 3 grains per lineal foot in every row. A horse power corn planter, or seed-drill, may be used for that purpose. Or it may be planted in hills 3 feet apart both ways, with from 4 to 6 grains in every hill. A horse-power or hand corn-planter may be used. If neither of these implements and no other suitable planter be available, furrows 3 inches deep may be ploughed three feet apart. The seeds may be put in them and covered, after which the field should be rolled.

The horse beans may be planted in rows 3 feet apart, with from 3 to 6 grains per lineal foot in every row. This takes from ¾ of a bushel to 1 bushel per acre. The same machinery or method may be used as for the sowing or planting of the Indian corn.

The sunflower seeds are to be planted by themselves, in rows 3 feet apart. Not more than one plant per lineal foot in the rows should be left to grow. If they come up thicker, they should be thinned out to one plant for every 12 or 18 inches in the rows. Not more than 4 lbs. of seed per acre is required.

CULTIVATION.

Only in cases where a crust forms on the land, before or immediately after the plants come up, a light harrowing will prove helpful to the crop. The cultivation between the rows, when the plants are small, should be close to them; when the plants have grown to a height of 2 feet, it should be more distant and shallow, in order not to injure the side roots.

CUTTING IN THE FIELD.

The crop is to be cut when the Indian corn reaches the "glazing" stage of growth, that is when the ears are just past the best condition for table use.

The corn and beans may be cut by hand or by any of the devices in use for cutting fodder corn in the field.

The heads only of the sunflowers are to be used. They may be cut by a common reaping hook or other knife. They may be put directly into a waggon or cart, or into a basket or into heaps, from which they may be loaded afterwards.

PUTTING INTO THE SILO.

When the Indian corn has reached the "glazing" stage of growth, the crop is to be put into the silo without wilting or drying; but if and when it has not reached the "glazing" stage before frost comes, it is to be cut and left to wilt or dry in the field for about one day.

The corn and beans are to be cut in lengths of from ½ inch to 1 inch and put into the silo; and the heads only of sunflowers are to be cut with them. They may be fed through the cutting box on and with the corn and beans.

A fairly even distribution of the mixture should be made in the silo, while it is being filled. If the leaves and lighter parts are permitted to flutter into one place, and the stalks, ears and heavier portions are allowed to settle by themselves, the ensilage will not keep well.

The mixture is to be tramped thoroughly around the sides and in the corners of the silo.

A thin layer of uncut cornstalks should be put between the "Robertson Mixture" and the other contents (if any) of the silo, in order to mark the exact place in the ensilage.

After the silo is filled, the surface should be levevlled and thoroughly trampedj and after the lapse of not more than one day, it should be covered to a depth of 6 inches with cut straw or cheap fodder. If this be tramped occasionally, and a foot of cut straw be put on top of that a few days later, probably no waste ensilage will be found on the opening of the silo for feeding.

FEEDING THE ENSILAGE.

The "Robertson Mixture" is to be fed with 4 lbs. less meal or grain per 50 lbs. of ensilage, than has been required with ordinary Indian corn ensilage, to make an economical ration for feeding milking cows and fattening cattle."

In the Spring

Nearly everybody needs a good medicine. The impurities which have accumulated in the blood during the cold months must be expelled, or when the mild days come, and the effect of bracing air is lost, the body is liable to be overcome by debility or some serious disease. The remarkable success achieved by Hood's Sarsaparilla, and the many words of praise it has received, make it worthy your confidence. We ask you to give this medicine a trial. We are sure it will do you good. Read the testimonials published in behalf of Hood's Sarsaparilla, all from reliable, grateful people. They tell the story. .....

Priestley's Cravenettes may be had in all the newest fabrics. Absolutely rain-repelling they are not to be distinguished from the same goods not waterproofed. This is their great merit. Cravenette includes serges and all dress fabrics. They are perfectly porous, non-odorous, and they never change in appearance. These are merits which no other waterproofing process has been able to demonstrate. They are rolled on "The Varnished Board" like all Priestley's dress goods. .....

A Perfect Cure for Cold in the Head.

"It cured me of a severe cold in the head," is what Mr. A. D. McDonald of Framboise, C, B., says of Hawker's Catarrh Cure. Sold everewhere, only 25 cents. .....

Puttner's Emulsion has a delightful flavor, and agrees with the most delicate stomach—is free from dangerous mineral and narcotics—and works wonders in restoring the sick to health. .....

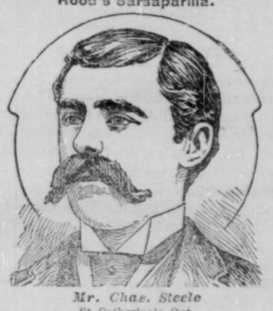
Broken in Health

That Tired Feeling, Constipation and Pain in the Back

Appetite and Health Restored by Hood's Sarsaparilla.



Mr. Chas. Steele
St. Catherine's, Ont.

"C. I. Hood & Co., Lowell, Mass.:

"For a number of years I have been troubled with a general tired feeling, shortness of breath, pain in the back, and constipation. I could get only little rest at night on account of the pain and had no appetite whatever. I was that tired in my limbs that I gave out before half the day was gone. I tried a great number of medicines but did not get any permanent relief from any

Hood's Sarsaparilla Cures

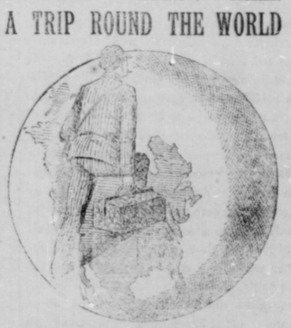
source until, upon recommendation of a friend, I purchased a bottle of Hood's Sarsaparilla, which made me feel better at once. I have continued its use, having taken three bottles, and

I Feel Like a New Man.

I have a good appetite, feel as strong as ever I did, and enjoy perfect rest at night. I have much pleasure in recommending Hood's Sarsaparilla." CHARLES STEELE, with Erie Preserving Co., St. Catherine's, Ontario.

Hood's Pills are prompt and efficient, yet easy to operate. Sold by all druggists. 25c.

A TRIP ROUND THE WORLD



STODDARD'S PICTURES.

No more beautiful Photo Engravings are issued than Stoddard's Portfolio of Views of Famous Places and Scenes. The pictures equal the finest photographs in detail.

Charmingly written explanations and descriptions accompany each photograph

The pictures are 8x10 in size. Single photographs of the same subjects would cost $1.00 each. They are bound up in covers, and are exactly the same size as our famous World's Fair Portfolios.

Sample copy may be seen at this office.

This series of pictures is issued in 16 parts. Each part will contain 16 photographs at the least. The price for each part is 10 cents, and an EXAMINER coupons must be sent with the money.

SKODA.

This beautiful ship was built by Mr. C. R. Burgess, a prominent shipowner, of Wolfville, N. S., and named for the popular remedies that are doing so much good in the U. S. and Canada. It will carry

Skoda's Discovery,

Skoda's Little Tablets, Skoda's German Soap, Skoda's Ointment and Skoda's Pile Cure, not only to keep her own crew in health, but to introduce them into foreign ports. In proof of their high standing read the following.

Nervous Prostration & Chronic Diarrhœa CAN BE CURED.

I have used several bottles of Skoda's Discovery in my family, and regard it an excellent remedy, especially for nervous prostration and chronic diarrhœa. In my extensive travels, I hear frequent and favorable reference to these remedies.

REV. ISAIAH WALLACE, M. A.
General Home Missionary for the Baptist Home Mission Board of the Maritime Provinces.
