

Strange But True

By F. E. MacArthur

In creation, everything is punal; sun, moon, stars, the different seasons, morning, noon and night, etc. Astor, Lee, Vanderbilt, and many other successful men, had a habit of rising at a given hour each morning, and retiring punctually at a specified time, though a house full of company would detain them.

IN MEMORIAM

MR. RICH LORD The death occurred on March 15th, 1951, at Tryon, P.E.I. of Lathley Rich Lord in his ninetieth year.

Mr. Lord lived his entire life in Tryon and will be remembered by a wide circle of relatives and friends as a jovial man of rare integrity and kindly intent, whose pleasure was always in helping with a generous heart and hand all those in any need.

This was one of the pioneer Methodist families of Tryon, and the Methodist, later the United Church, has prospered because of the unflagging zeal and interest of such men as Mr. Lord.

The funeral was held on March 17th, from the United Church, Rev. R. L. Bacon officiated and spoke of Mr. Lord's long illness and his desire and willingness to serve in any capacity.

His hymn sung were, "Jesus Saviour, Pilot Me", and "Jesus Lover of my Soul". A solo, "Beyond the Sunset" was sung very feelingly by Norman MacDonald, Crapaud.

The pallbearers were: Sterling Lord, Austin Toombs, Austin Smith, Russell Carr, Lloyd Sturdy and C. D. Wright.

Interment was in the family plot in the Tryon Cemetery.

Official Language And Mother Tongue In Canadian Census

In the 1951 Census of Canada, to be taken this June, each person will be asked to state whether he speaks both official languages, i.e., English and French, English only, French only, or neither. In addition, there will be a question on mother tongue. For census purposes, mother tongue is defined as the language first learned in childhood and still understood by the person. Information gathered in the census on this subject is useful in indicating the relative number and location of the people of various language groups in Canada.

Sixty-seven per cent of the population of 11,807,000 in 1941 spoke English only of the two official languages, 19 per cent spoke French only, 13 per cent spoke both official languages, and one per cent spoke neither English nor French as mother tongue.

Information on mother tongue and official language spoken is used for a variety of purposes by churches, business and governments. It is an indication of how the numerous origin and language groups in the population are being assimilated and is one means of measuring the progress of the various constituents in the population which are intermingling to produce the Canadian nation of the future. It is also a valuable measure of market potentials for certain commodities.

May Limit Iron Export From B.C.

VICTORIA, B. C., March 27—(CP)—The British Columbia Government may seek to have the Federal Government curb the export of iron ore from the Province.

Mines Minister R. C. MacDonnell, long an opponent of exporting British Columbia ore, today announced he has placed a plan before the Provincial Cabinet which would limit export from any one ore source to 1,000,000 tons.

There are vital deposits of iron ore on Vancouver Island and on Texada Island in the Strait of Georgia, 50 miles north of Vancouver.

The Government favors the building up of an iron ore industry in British Columbia, and the possibility of a major mill has been discussed with Federal authorities.

Japan offers a rich market for iron ore and United States companies have been seeking B. C. ore to fill the increasing Japanese demand.

Silver Wedding Anniversary

Mr. and Mrs. Lloyd Jenkins, Winsloe were pleasantly surprised their marriage on March 17, when on the twenty-fifth anniversary of their children and relatives assembled at their home to extend congratulations and best wishes.

It was regretted that a daughter, Evelyn, a nurse-in-training at the Prince County Hospital was unable to attend, also two grandchildren and a number of near relatives owing to the condition of the roads.

To the strains of Lohengrin's Wedding March, played by a niece, Mrs. Percy Sentner, Charlottetown, the surprised couple were escorted to seats of honor; then their eldest daughter, Mrs. Erwin Jenkins read an address, expressing their love and affection for their parents, which prompted them to have this celebration.

Their close, Pauline and Preston, youngest daughter and son, presented them with several beautiful articles of silverware, including a silver tea service.

Mr. Jenkins responded with a very fine expression of thanks and appreciation followed by Mrs. Jenkins, expressing her thanks for gifts and best wishes. A lovely two-tier wedding-cake adorned the table which was cut in the traditional style by the honored couple, which was afterwards served to the guests with ice-cream. A very dainty luncheon was served by Mrs. John Jones, Mrs. Albert Phillips, Mrs. Erwin Jenkins, Mrs. Herbert Phillips, Misses Beatrice and Mae Jenkins.

An enjoyable sing-song concluded the evening after which everyone left wishing them many more years of wedded life together.

Mr. and Mrs. Jenkins were former residents of Dundas Centre.

New Air Parcel Postal Service

Effective April 2, 1951, the Post Office Department will still further extend its use of Trans-Canada Air Lines by inaugurating a Domestic Air Parcel Post Service.

The new system will be available only for parcels mailed in Canada for delivery in Canada weighing in excess of eight ounces and with a maximum weight of five pounds. These will be subject to a special rate scale.

The rate for a five pound parcel delivered in the Province of mailing will be 90c and the top rate for a five pound parcel delivered anywhere in Canada will be \$5.00, with the exception, in both cases, of those directed to post offices which are served by air stage routes on which air stage parcel post rates are in effect. Such parcels will be subject to air parcel post rates to the point where the air stage service takes over plus the existing air stage parcel post rate in effect on the route. Air stage routes are those serving more or less remote areas to which there is no other regular means of transportation.
