Remedy for the Horn Fly.

O B WADMAN, of Crapaud, writes: "After trying many experiments this summer on my own cow, I have at last discovered a cheap and substantial remedy. Cod oil, petroleum, coal oil, etc, should not be used, as they are injurious to the cattle, and I am persuaded that farmers who have used those remedies will, after examination, find a great many sores." He will supply the remedy for 40 cts per gallon which will be sufficient quantity for twenty cows. One application will last for ten or twelve days. Will mail receipt free by enclosing three-cent stamp for reply.

DRESS AND THE WHEEL.

The Bicycle and Fashion Together Have Brought in a New Era.

What the press and the pulpit, good sense and hygenic enthusiasts, have failed to do, the bicycle is in a fair way to accomplish. The dress of men and women is to be revolutionized by the wheels, and for this reason, if for no other, the present generation and those who come after, should rise up and call it blessed. Five years ago a woman who should have appeared on the streets in a cutaway, skirts to her knees, overgaiters, and a natty hat would have been hooted with the utmost ridicule. Bloomers would have been the signal for something little short of a riot, and knickerbockers and a reefer might have subjected her to insult, and more than likely to arrest and fine, if not to imprisonment on the charge of disorderly conduct. But now the bloomers, the knickerbockers and the short skirt are so common as to excite little more than a passing remark. Of course, it is taken for granted that the wheel is somewhere in the vicinity, and that my lady may have just dismounted therefrom.

The change in men's attire is not so radical, nor is it attracting so much attention, but it is there all the same. For a great many years young men have felt the irksomeness of the dress suit and the inconvenience and monotonk of their present style of dress. It is safe to predict that within the next five years full trousers of satin, cut somewhat after the fashion of those now used for wheeling, will be part of the regulation costume for dressy occasions. Just at present the most suitable and convenient garments for the purpose are among the most important subjects for ordinary discussion.

Leaders of fashion, designers, and people who make and supply clothing are crowding upon the market all sorts of shapes recommended for such use. The bicycle suit is a fad of the moment, and every person who rides seems to eb possessed with the idea that a complete outfit is necessary. In the item of convenience the dress of the woman is much more easily managed than that of the man. Nine-tenths of the women wear overgaiters, and these, with any skirt of serge made a trifle shorter than usual, and suitably adjusted at the belt, with a short waist and blazer make a costume quite good enough for regular use. Of course, if one has unlimited means and chooses to launch out into all sorts of novelties, one may try whatever one chooses; but the rank and file of women, young women especially, and those to whom the wheel is most of a necessity, are in no condition, after purchasing a wheel, to buy costumes and rigging to go with it. Nor is this at all necessary.

Probably every woman in the land has a skirt of suiting serge or homespun that is too narrow for street use. To turn this skirt up at the bottom until it just clears the front of the ankle, to sew it down neatly on the wrong side, so that there may be no seam to catch, or face it down smoothly with a suitable material, is to provide at almost no expense a skirt that is in every way suitable and quite as becoming as most of the things one can buy at the stores.

Every woman has shirt waists and a narrow-brimmed hat for sunny ride and a Tam O'Shanter or cap for after-sundown occasions.

For once in a way the man fares not as well in the item of clothes as the woman. His trousers will catch on the pedals if they are allowed to hang in their natural shape; and if they are folded in and held by a rubber strap or band, they are anything but presentable at the end of a trip. Long stockings and knickerbockers are therefore imperative necessities for the man who rides a bicycle.

As a large number of men are in the habit of going to business on their wheels, it follows as a natural consequence that the knickerbockers and stockings must be adopted for the regulation business wear. This costume will be eagerly accepted, not only because of its convenience, but because it is infinitely less expensive than that now worn.

The long stockings are an item of expense, but will become less so as soon as the demand for them is more extensive. There is not just now in the market a really suitable and appropriate bicycle stocking for a man. Those in stock are too short, and many of them are so cheaply made that they spoil the effects of a good suit. The regulation golf hose are porous and open meshed, and seem to reach out after all dust particles that fly in the air. After a ten-mile spin over an ordinary dusty road one may shake out from these stockings a sufficient amount of mother earth to start a small plantation.

What are needed are elastic, firm, closely woven, fast color cotton stockings, long enough to draw well up above the knees. With proper fastenings these, with the short trousers, in any of the regulation patterns, make the most acceptable attire for his purpose.

There are many minor details yet to be worked out, and, in the working, modern costume for almost all occasions in life is likely to be completely revolutionized.—New York Ledger.

To Be Good-Looking.

Never forget that those impolite organs, the lungs, liver, kidneys and alimentary canal, must be kept in free working order daily, not by medicines but by compliance with natural laws.

Wrinkles are caused by the loss of the natural moisture of the skin which feeds the tissues over night, as dew feed flower petals; by the loss of the thin, tissue-like layer of fat beneath the skin; by loss of nerve force and lack of nutrition.

Bread eaten before it is twenty-four hours old is responsible—on account of the fermentation it keeps up—for anaemia, consumption, pneumonia, influenza, gastric ulcer, tumor and cancer. A fine-grained complexion may be kept by avoiding fresh yeast bread and white bread.

Holding the head up and keeping the shoulder-blades flat prevent ugly folds in the throat.

When you feel bilious drink hot lemonade three times a day. If you cannot sleep put three teaspoonsfuls of whisky in hot lemonade before retiring.

Costing Down Mount Washington.

"We rode pneumatic safeties of the best make, but they were poorly provided with brakes. The result was that, when the grade became, as it did at times, steep, our wheels attained an absolutely uncontrolable momentum. At such times the only thing we could do was to steer for the first heap of sand or clump of huckleberry bushes that hove in sight, and sail into it with our eyes shut tight and head down.

"Thus we proceeded on our extraordinary way, and I doubt not that the old man is the mountains grinned sardonically as he took note of the professor's apparel, which after every charge became more and more 'promiscuous,' until it dwindled into shreds. When within a mile of our destination our wheels again began to get beyond our control, but we were so near the foot that we decided not to try to stop them. So down we flew at a fearful rate, when at the end of a long curve we saw ahead in the dim light two four-horse mountain wagons passing each other. Neither of us said a word, but we slid off our wheels, and were hurled through the bushes down the twenty-foot gravel embankment, and through the trees down the steep mountain sloop. Meanwhile the bicycles were running riot. The professor's went over the embankment, and flew along with increasing momentum, until with a hop, skip and jump, and a farewell somersault, it disappeared over the ledge, and we saw it no more. The professor himself was badly stunned, but we brought him to going down in the wagon, and beyond a couple of tender ankles, a lame shoulder and various cuts and bruises, he arrived at the base in, as he expressed it, 'pretty fair form.'"—Outing for August.

THAT ACHING HEAD.

What Causes It and How Overcome.

How often the remark, "Oh, my head aches," and there are so many varieties of aches and pains the head is subject to all along the line from the dull and heavy and oppressed feeling over the eyes to the persistent, racking and torturing misery of Sick Headache. The cause is in most cases the same, the overflow of poisonous uric acid is not extracted from the blood by the Kidneys, and accumulating in the blood, causes high and irregular pulse, headaches, mental depression and nausea. Chase's K. & L. Pills tone and restore the Kidneys, excrete poisonous matter from the blood, sending it on its way pure and health-giving, curing Headache, and removing all the attending symptoms from its wake. Mrs. G. Bird, Harriston, Ont., while attending the 1894 Fall Exhibition at Toronto, was taken very ill with Sick Headache and dizziness. She was subject to these attacks for years, compelling her to take to her bed. In this case by using Chase's Pills relief was immediately obtained, and the usual days of misery and prostration avoided. Thousands of such cases can be referred to where Chase's Pills have cured Sick Headache and its attendant symptoms. 25 cents a box, of all dealers, or by addressing Edmanson, Bates & Co, 45 Lombard St., Toronto

A PARALLEL CASE

People in Detroit are Interested in a Great Resemblance in Two Cases

DETROIT, Mich., Aug. 26.—Much interest has been manifested here over the recovery of Mr. G. H. Kent, of Ottawa, from Bright's disease by using Dodd's Kidney Pills, a remedy which is now in universal use, and many people have a clear recollection of the similar case which occurred in London, Ontario, not long ago, namely, that of Mr. Wm. Langley, who for sometime was an inmate of Harper's Hospital here and was operated upon without effect by several Detroit physicians. It was owing to this connection with Detroit and the long accounts published in the press that so much interest was taken in the case, and led to such an enormously increased sale of the medicine.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word **"Castoria"** and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.
