REMEMBER the Excursion, by "Southport," to-morrow, in connection with Zion Church. A refreshment table will be provided.

THE interior of the Diamond Bookstore is handsomely painted and will, when finished, be one of the handsomest places of business in the city.

MR. JAMES BURKE, gardener, of Southport, had on sale at the market to-day, some cabbage of extraordinary large size for the present season. They sold readily.

WE are pleased to see that Mr. J. D. McLeod has taken into partnership his head salesman, Mr. Stainforth Sanderson. Mr. S. is well known in the City as one of the most genial and obliging young business men, and his admission to the firm will no doubt increase its success.

THE worst cases of weakness, exhaustion, impotency, and all diseases and weakness of the generative organs can be cured by Mack's Magnetic Medicine. Sold in Charlottetown at Apothecaries Hall. See advertisement in another column. [aug 20 1w wkly]

WE learn that a number of our young friends from the city intend having a picnic to-morrow (Wednesday) on the beautiful grounds of Ralph Carr, Esq., Covehead. They have a large dancing booth prepared for the occasion, and with music from the cornet, violin, &c., we have no doubt but they will spend a pleasant day.

R. C. McDONALD, representative of the Gates Organ and Piano Co., is in town, and any persons wishing to purchase first class Pianos and Organs at Factory prices, would do well by either calling or leaving a word at the Osborne House, where he puts up. He is also prepared to tune and repair organs. Encourage home enterprise.

ON his attention being called to the matter while in Summerside last week, Superintendent Coleman promised to have the gateway between the Railway Station widened to double its present width. From Mr. Coleman's public acts since he came among us, we infer that he is anxious to benefit and convenience the public as much as possible. Pioneer.

THE Chatham Association, "Why not organize a maritime press association, composed of journalists of New Brunswick Nova Scotia and Prince Edward Island? A convention might be held at St. John, during the coming exhibition to organize it. Will any of the St. John men form themselves into a committee and issue a call? This would be the proper thing to do." A good idea.

THE market to-day was fairly attended. Prices as follows:—Beef (small) 6 to 14 cents; do. (gr.) 6 to 9 cents; mutton, 6 to 9 cents; lamb, 3 to 7 cents; Fowls (each), 25 to 35 cents; ducks, 20 to 30 cents; chickens (pair), 35 to 60 cents; butter (fresh), 20 to 24 cents; do. LOBSTER FISHING.—In the issue of yesterday, the 20th inst.; those interested were given to understand, that the extension of time for fishing lobsters, was to 1st September prox. The instructions of the Department to Mr. Lord were as follows:—

LITTLE MERIS STATION, Aug. 18, "Notify Inspector and Overseers that Lobster Fishing may continue next week. Will advise from Ottawa if further extension granted."

A. W. McLELAN. The mistake in time was made by giving the end of month instead of week.

A PICKED TEAM of the Wanderers and Victoria Clubs of Halifax, played an eleven of the Garrison and defeated them easily. Some of the strong men of the Garrison were absent while the civilians had the best men belonging to both Clubs. The Garrison were all disposed of for seventy-four runs. The combined team had run up a score of 106 with four wickets down when play was stopped. The Victoria's play in Truro to-day, and the Wanderers will finish up their season by a match with Moncton.

THE promoters of a General Hospital in Charlottetown on a non-sectarian basis for the benefit of the whole Island, are meeting with unexpected success. The "Ladies Hospital Aid Society" in connection with the above object are prosecuting their canvass with commendable industry. At their meeting held on Saturday last, a vote of thanks was passed to the Honorable Frederick R. Starr, of Elcho Farm, Litchfield, Connecticut, for his very generous donation of \$1,200 towards the proposed hospital. Mr. Starr had kindly offered \$1,000 provided a certain sum was subscribed by a fixed time. But a late mail brought his cheque for \$1,200. The large hearted charity of this gentleman is well known both in the United States and elsewhere.

[SPECIAL DESPATCHES TO THE EXAMINER.]

An Orange Riot.

LONDON, Aug. 21.

There was serious rioting in the town of Coalbridge, Lanark County, Scotland, on Saturday, between Orangemen and Catholics. Twenty-six men who participated in the disturbance were arrested. Two police officers were dangerously wounded in quelling the disorder. The rioting was resumed this morning wherein a number of Catholics, armed with picks and hammers, paraded the Main Street of the town in search of their religious antagonists, and all efforts of the force of police sent to disperse them. The officers, unsuccessful in their attempt to break up the mob, were subsequently reinforced by a body of mounted policemen and the combined forces, after a sharp fight, charged upon and dispersed the rioters. Twenty were arrested. The town is in a state of great excitement, as fresh trouble is expected.

LATER.

LONDON, Aug. 21.

Rioting was resumed at Coalbridge last night. The police were stoned by the people. When the riot act was read the police charged and dispersed the mob. A number of Catholics severely beat two Protestants, one of whom is now lying in a dangerous condition. Fifty rioters have been arrested.

The Tamatave Difficulty.

LONDON, Aug. 21.

In the House of Commons to-night, Mr. Gladstone, replying to the question of Sir Stafford Northcote, relative to the case of Mr. Shaw, imprisoned by the French in Madagascar, stated that Mr. Shaw had been accused of having relations with Hoava and detailed acts of hostility to the French. Mr. Gladstone said that Mr. Shaw was confined on board the French man-of-war and would have full facilities for his defence and the right of appeal.

In replying to a question by Mr. Cowen he said there would be very grave cases for complaint if Mr. Shaw was not accorded a fair trial. The London Daily News intimated that Mr. Shaw, the British Missionary in Madagascar, imprisoned by the French there, charged with concealing two Hoava spies, has been released.

Sir Stafford Northcote was not content with the statement, and announced that he would repeat the question to-morrow. Mr. Gladstone declared that he would be unable to say anything further relative to the case, as the public interest might thereby be injured.

The Fall River Regatta.—Boss the Winner.

FALL RIVER, Aug. 20.

The race came off to-day. It was late when the professionals started and making a false start they were called back by the referees. About half of them went and the others came back. Then when they were ordered another heat there was a great deal of grumbling etc. A wait of ten minutes was granted those who had rowed over the course and it was 6.57 before the final start was given. The men got off well Hanlan taking the lead with Elliott, Lee, Hamm, and Plaisted close to him. Ross and Hosmer were somewhat slow getting off. Hanlan made the first turn with Ross next and Hosmer close behind. At the start of the race the steamer Canonica went up the river and as Hanlan turned the buoy steamed down again and steamed right through the rowers swamping all but Teemer, Hosmer and Ross, who won the race and money. Teemer, 1st; Hosmer, 2nd; and Ross, 3rd.

LONDON, Aug. 21.

There were 182 deaths from cholera, in Egypt, on Sunday, including four at Cairo. There have been forty-three deaths from cholera in the province of Ghezak and Atfe in the last four days.

Telegraph Notes.

A steamer has arrived at Aspinwall with 3,500 tons of machinery for work on the Panama canal.

It is stated that France has informed the Powers that any ships attempting to land arms in Annam will be liable to seizure.

At Quito, Panama, cries have been made in the streets and plazas of death to the liberals and heretics; viva God and religion.

It is probable that an Irish bishop will go to America to raise money to supplement \$50,000 set apart by the Irish Tramway bill for migration in Ireland.

The marriage of Canuto Pecci, a nephew of Pope Leo XIII., and Miss Bueno, will take place in Paris during the present month. Monsignor De Rende will bless it, and Monsignor Cataldi, the prefect of the Pontifical ceremonies, will represent the Pope.

The Paris correspondent of the London Daily Telegraph says it is affirmed that the bombardment of Huo by the French was begun Saturday. Admiral Reyron, Minister of Marine and of Colonies, has ordered six gunboats to be constructed for Tonquin.

At Garden City, L. I., on the 19th, a flock of sheep on A. T. Stewart's farm were struck by lightning under a tree where they had taken refuge, and forty of them were killed and twenty severely injured. In New York the storm was severe, but no serious damage is reported.

At Waco, Texas, on Thursday afternoon, a cyclone struck Oglesby demolishing the station and a store and scattering the goods all over the prairie. A man at Pecan Grove, Coryell county, was struck by lightning and killed. Another man was killed at Sour lake by lightning on Friday.

Lord Edmund Fitzmaurice, Under Foreign Secretary, stated in the House of Commons, on the 17th, that the Government had asked the Russian Government to give an explanation in regard to the expulsion from Russia, on the 15th instant, of a

British Jew, representing a London business firm.

The Russian Geographical Society has notified the Danish minister at St. Petersburg that a foreign vessel is reported to have wintered on the east coast of the Island of Waigatz, which lies between Nova Zembla and the Russian mainland. It is not known whether the vessel was the missing Danish Arctic exploring ship "Dimphua."

The anti-Semitic movement in Russia has become general, and Jews everywhere are filled with the deepest anxiety at the prospect of a new persecution which threatens to be more serious than they have endured in that country. The general design appears to be to deprive them of their commercial privileges under particularly odious and unjust conditions.

The British House of Commons continued in session until 2.30 o'clock on Sunday morning. The supply bill was finished and the Irish tramways bill passed its third reading. The government assured Parnell and his followers that only £50,000 would be devoted to emigration purposes. The debate was very bitter throughout. In addition to Biggar, Messrs. Call and Newdegate were also called to order by the chairman.

Harry Hill, of New York, has been chosen referee in the coming Slade-Mitchell prize fight. An investigation of the law shows that restriction upon prize fighting is very stringent both in Missouri and Kansas. It is stated the Missouri statute forbids any one to train in the State for prize fighting. Slade is now in training at Independence, and this discovery of the law may cause a change in the proposed arrangements.

The American ship Hagerstown, Captain Boyd, of Richmond, Me., which arrived at Philadelphia, on the 19th, 44 days from Antwerp, reports that she narrowly escaped colliding with an immense iceberg on the night of August 2nd, lat. 43 27, lon. 50 25. The berg was over two miles long, and 300 feet high, and passed within reach of the crew on the Hagerstown. A short time afterwards the vessel passed a considerable quantity of driftwood and kerosene barrels. The Hagerstown will load at this port for San Francisco.

An unknown schooner is reported to have sunk off Beach Haven, Long Beach, on Friday morning last, and the affair is surrounded with considerable mystery. She was of about 300 tons burden and is said to have been pursued by a steamer. A report says both vessels were putting in shore under full sail and steam, and when about five miles out the schooner suddenly sank and all on board are supposed to be lost. The steamer remained at the spot where the schooner sank about half an hour then steamed away to the Eastward out to sea. The schooner is said to have carried a black flag.

There is an active discussion going on as to whether the Duke of Sutherland, Sir E. J. Reed, Lord Dunraven and others are American or English. "In view of their large landed possessions in America, it is contended that they are American citizens, according to the laws of the United States, and that in the event of war between two countries they would have to decide to which they belonged. The whole subject of English investments in America, particularly in land, is just now receiving widespread attention. The probability is that for the next few months the English public will concern itself largely with American topics.

In the U. S. Circuit Court at Boston, on the 18th, Judges Lowell and Nelson gave their opinion in the case of Captain Douglas, of the British barque "Enu," charged with unlawfully bringing Chinese laborers to the United States, in the person of Ah Shong, who came as ship carpenter. The opinion reviews the various treaties with China and the prohibitory act passed by Congress, and says as it is not proven that Ah Shong is or has been a subject of China, although born in Hong Kong of Chinese parents, no violation of the law has been committed and the captain is entitled to discharge.

The New York Herald's Madrid despatch says: King Alfonso received a very hearty welcome, yesterday, in Valencia, the place where he landed on returning to Spain after the restoration. A ministerial paper advocates a German alliance as likely to result from a royal visit to Germany in September. El Grito, the organ of Castelar, energetically condemns a German alliance, and advocates an alliance with Latin countries. Military journals give a harrowing account of the execution of four sergeants. Three volleys were required to finish them. As the troops marched past the bodies, one wretch staggered up, begging for mercy. He was shot also. The shooting party was of fellow-mutineers who had returned to their duty at the call of their colonel, during the pursuit of the rebels. The men who were executed left young widows and children, and belonged to respectable families. The Provinces are now all quiet. The robbers of the Barcelona express train were caught in the mountains with a part of their booty.

The New York Times' London despatch says that during the past week the Irish party had it all its own way in the House of Commons and succeeded in completely wearing out and exhausting the House and raising a storm of Conservative wrath. There had been little or no effect at the active obstruction during the session, but on Monday night the Home rulers changed their tactics and showed what they could do. The Opposition collapsed in hopeless despair, and unavailing rage. The whole of the ministerial members sought patiently to weather the storm and seized upon every opportunity that offered to work through some of the votes of supply. Such language has never been heard upon the floor of the House as that used by Healy and others in their unparading denunciation of public officials in Ireland. It has aroused the deepest resentment among the Tories and older Whigs, who regard it as a most pernicious and dangerous perversion of the cherished contentions and traditions of Parliamentary life. The land commission was attacked by Conservative peers almost as savagely as it has been by Healy. It will proceed with its work, however, and the fact that tenants have had reductions made to the extent of nearly \$20,000,000 already shows what substantial rewards have attended the agitation, which, as Parnell has only informed the House, is now only well begun. A fair estimate of the redoubtable, voluntary and compulsory combined, would be nearly \$40,000,000.
