

# ADMIRAL TV FOR '58 MAKES THE OTHERS OUT OF DATE

## NEW SIGHT THAT'S BRIGHT

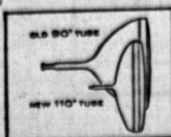

## NEW SOUND THAT'S ROUND

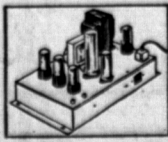

## NEW STYLE THAT'S SLIM

One look at these slimline Admiral beauties and immediately every other TV set you've ever seen becomes old-fashioned. Admiral TV for '58 is a revolution in styling and performance. In one giant stride forward Admiral brings TV to perfection . . . perfection in styling . . . perfection in sight . . . perfection in sound. See those slim cabinets . . . only a fraction over 16" from front to back . . . lovely to look at! Here's TV styled for the first time to harmonize with your furnishings, instead of clashing with them. You'll be amazed at the clear, sharp picture . . . a window onto a real world, set in Admiral's exclusive Golden Picture Frame. You'll thrill to the "talking picture" effect of Admiral's new

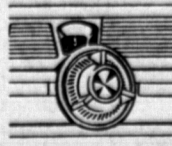

"round sound"—round because of multi-speakers . . . beaming sound at you from side and front. The greatest technical discoveries in TV are behind this spectacular advance—from the new, shorter 110" deflection picture tube that makes the new, "slim-as-a-dime" cabinets possible, to a completely redesigned Power-House cascade chassis that incorporates the results of years of Admiral research. See them . . . listen to them—and you'll agree that Admiral TV for '58 makes all the others out of date, with the smartest, most beautifully styled, most technically-advanced TV sets that have ever come your way.

**NEW 110" TUBE**—See how new 110" deflection picture tubes are shorter than old 90" tubes—permits up to 9" reduction of cabinet depth and flush-to-the-wall cabinets. Aluminized with optic filter.

**HIGH FIDELITY AUDIO POWER PACK**—8-watt high fidelity amplifier is mounted in the speaker enclosure in back. Up to speakers with crossover network. Response: 40 to 40,000 cycles. Look in the back for the High Fidelity Power Pack!

**NEW ALL-CONTROL TOP FRONT TUNING**—All controls up top . . . out front. No hard-to-get-at knobs, lighted channel window. Push button on-off. Separate base and treble controls.
