8th Calf Born To Abegweit Milady At Bunbury Farm

Abegweit Milady, outstanding Holstein of Premier J. Walter Jones' Bunbury Farms herd, gave birth to a bull calf on Monday. It is the eighth calf born to this noted animal, and was sired by the five-year-old Brown's Master Darcy. The ten-year-old Milady has been Grand Champion twice in Charlottetown and once in Amherst. She has had two world butterfat records for 305 days milking, over all breeds of all ages, regardless of the number of times milked per day. It is interesting to note that this is the fifth bull calf by Abegweit Milady. Of the four previous calves, one is in the Argentine, another in New York State, another at Brampton, Ont., and the fourth, now deceased, was in Ontario. The bull which went to the Argentine sired the junior champion at the Royal Winter Fair this year, and another sired the winning junior get of sire at the Royal Winter Fair, Toronto, the past year. One of the three heifers by Abegweit Milady is at Thamesford, Ont., another is in Quebec and the third is at home. The herd at Bunbury Farms now totals between 60 and 70. Herdsman at the farm is George Whitehead. Dr. Nordland was the veterinarian in attendance.

St. Peter's Senior W. A. Display Of Season's Work - A very nice closing and display of season's work by the Senior Branch of the Women's Auxiliary of St. Peter's Cathedral took place yesterday afternoon. In the absence of the President, Miss Cotton, through illness, Mrs. H. Pickard called upon Canon Malone. He expressed his regret at the absence of Miss Cotton and said how much she was missed. Canon Malone congratulated the ladies on the lovely display of work and called them "a group of devoted people doing good." Mrs. Cosh also spoke very encouraging words and hoped the Branch would continue in the good work. A large bale will be shipped shortly to All Saints Residential School and another to St. Faith's Swan River. Layettes were also made for the Red Cross and the Orphanage. Mrs. H. Pickard thanked the speakers for their encouraging words and said she thought everyone had tried to do more, to help make up for Miss Cotton's absence. The Branch was glad to welcome some members from St. Paul's W. A.'s. Tea was then served bringing a very pleasant afternoon to a close.

quick appeal for Red Cross and Army assistance and by nightfall, Red Cross disaster crews were on the scene and men of the Royal 22nd Regiment were on their way from Rimouski, 65 miles away, where they did relief work after the \$20,000,000 week-end fire.

Delightful Concert By Miss Farnell And Choir

The large audience in attendance at Prince of Wales College auditorium last evening experienced a thrill as they listened to Miss Audrey Farnell, assisted by the Notre Dame Chorus. Accompanied by Mr. Allison Patterson, Miss Farnell proved herself the possessor of a lyric soprano voice of remarkable beauty. Her scintillating personality and charming smile were a great asset in her numbers. Although Miss Farnell's second and third group were in German and French, and not as familiar to the general public as other parts of her programme, her lovely voice was a special treat for music lovers. It was for the familiar "Annie Laurie" however, that most applause was received. Miss Farnell has the great talent for starting a high note so softly that it is almost impossible to tell at which point it does start, and then swelling it to tremendous volume, apparently without effort. Coupled with her amazing breath control, she is able to obtain efforts that are truly remarkable.

Thrilling Encore - The audience was delighted when Miss Farnell chose as her first encore, Walter MacNutt's "Take Me to a Green Isle", making of it a thing of such great beauty that eyes in the audience were wet, and many a throat possessed an unusual lump. A native of Amherst, Nova Scotia, Miss Farnell began her study of voice at the Mount Allison Conservatory of Music with Ethel Peake, and later went to Toronto to continue her instruction with George Lambert of the Royal Conservatory of Music. She was a second prize winner in the 1945-46 series of "Singing Stars of Tomorrow". Since that time Miss Farnell spent two seasons studying in New York under Madame Lotte Leonard, one of the greatest Lied and Oratorio singers of Europe. At present Miss Farnell is a member of the Voice Faculty of the Halifax Conservatory of Music.

Work To Begin Today On Cold Storage Wing - The foundation of the new wing at the Cold Storage plant has been laid and the erection of the building is scheduled to commence today. The wing will be used for the storage of butter and eggs. A two-storey structure with three floors, the new construction will adjoin the north end of the plant. The refrigeration will be provided from the present plant which has ample capacity for the new wing. Entrance to the wing and the plant will be separate. The ground and first floor dimensions of the wing are 75x 32 feet. The third floor will be square, 32x 32. An elevator similar to that used in the plant will provide service between the three floors. There will be two entrances and loading and unloading platforms. One will face Esther Street and the other loading and unloading platform will be adjacent to the Railway siding. The construction work is being done by the Frigid Equipment Company Limited under the supervision of Mr. P. W. Cope.

Agricultural Graduates Find Useful Employment At Experimental Station

A large number of students and recent graduates from the Agricultural Colleges have taken up work at the Experimental Station, Charlottetown. This provides useful summer employment for the students and also furnishes the Experimental Station with high class labour to carry on experimental projects. Among the recent graduates who are now employed at the Experimental Station are the following: James Tait, who will work in the Horticultural Department; Mr. Tait is a graduate in Science from Dalhousie University. Allister MacKay, Scotsburn, Nova Scotia, employed in the Animal Husbandry Department; Mr. Michael Giles, a third year student in general agriculture at Macdonald College; Mr. Gillis whose home is in St. Fenton's, Newfoundland, spent five years in the Navy. As preparatory training for a position at the newly established Experimental Station in Newfoundland, he will work with the Illustration Station and Agronomy Divisions during the summer. George Wright, Lower Montague, and Jack Cutcliffe, Fredericton, second year students at Macdonald College, are working in the Horticultural Department. Daniel Keenan, third year student in Chemistry at Macdonald College; Keith LeLacheur, second year student at Truro; and Arthur Ballem, fourth year student at Prince of Wales College, are working in the Agronomy Department. Robert Vanderstine and John Sterns, Prince of Wales College students will work in the Horticultural Department, and Fred Stewart, Prince of Wales College will work at the Upton Farm.

FRENCH AMBASSADOR - Continued from page 1 - him of France and also of a chess board. Conditions in France, he said, were improving quite rapidly. The country has been favored during the past two years with good crops and last year the revenue received for exports was equal to 70 per cent of the imports. He expressed hope that educational exchanges between the two countries would increase. Canadian students are now receiving between 30 and 40 scholarships each year and France was particularly desirous of the two countries exchanging technicians. Before being appointed Ambassador to Canada, Mr. Guerin had seen extensive service in the diplomatic services ranging over a 30 year period. He was appointed Ambassador to Canada last year. After graduating from University in Letters and Law, Mr. Guerin served in the first war as an infantry officer. He was seriously wounded in 1918 and awarded the Croix de Guerre. He was also made a Knight of the Legion of Honor in recognition of his services. He has been Commander of the Legion of Honor since 1948. After entering the diplomatic services in 1920, Mr. Guerin was successively ambassador in Washington in 1920; Secretary and Councillor in Rome from 1925 to 1940; Minister in Finland in 1941; Minister of Foreign Affairs in Algiers in 1943; Delegate of the Provisional Government to the Vatican in 1944; Ambassador of France to the Netherlands in 1945 and to Brazil in 1946. Today the Ambassador will visit His Honour Lieutenant-Governor Bernard, Premier Jones and His Worship Mayor Macdonald. He will leave at noon by plane for Halifax.
