The Practical Plumbers

Are prepared to do all kinds of jobbing and will be pleased to furnish estimates on all branches of the trade. If you are building it would be well to get their prices They are the practical plumbers.

JORDAN BAY WONDER.

Mr. Samuel Locke's Case of Kidney Disease Cured.

Dodd's Kidney Pills Cured Him Although Every Other Means had Failed— But Dodd's Kidney Pills Never Fail.

JORDAN BAY, N. S., Nov. 4—Everybody in Jordan Bay knows Mr. Samuel Locke, and for some time past the story of a thrilling escape of which he is the hero has been the subject of conversation throughout the district.

Mr. Locke was the victim of Kidney Disease, and was attended by several of the best physicians in the district. But his case defied their greatest skill. To give him relief or to cure him was beyond their power.

Daily his condition grew worse. His case was the subject of comment in the newspapers throughout Canada.

When hope seemed dead, and there appeared to be nothing but suffering and death in store, Mr. Locke determined to try what Dodd's Kidney Pills would do for him. They had cured other cases of kidney disease in the neighborhood, they might perhaps give him relief, he thought.

No sooner had he commenced to use Dodd's Kidney Pills than his condition began to improve. Day by day, as he continued the use of the wonderful medicine he grew better. Today he has neither ache nor pain. He is healthy and strong and vigorous.

So much for Dodd's Kidney Pills. There are thousands who are suffering just as Mr. Locke did.

For every one of these thousands there is a positive, thorough and permanent cure in Dodd's Kidney Pills. They need not suffer longer. Dodd's Kidney Pills are a positive cure. They have never failed yet. They cannot fail. Try them and be convinced by being cured.

We presume everyone would like to know where they can get the best value for their money. Call to the new blue store, Sunnyside.—W. P. Colwill—211 dy&wky 2wks.

SICK HEADACHE

Positively cured by these Little Pills.

Great George Street.

STERN DISCIPLINE

One of Detroit's retired officers, who fought in two wars and helped for years to restrain the savage outbreaks of our Indians, thus delivered himself to the writer:

"The very hardest lesson a young American has to learn when he enters the army is that of obedience. For the first time, his individual authority is dethroned. He is as fractious as a thoroughbred colt that long rebels against the whip and spur. It is hard for him to understand that his freedom of action must be subordinated to military necessity. He chafes, if he does not openly rebel, but when once whipped into line he makes the best soldier on earth."

"My first drillmaster had been my friend and the friend of my family from my boyhood up. We had hunted and fished and courted together and exchanged secrets with a freedom that does not obtain among brothers. One day, early in my experience as a soldier, and while everything was being hurried with a view to getting us into Mexico, we had been drilling till I felt ready to drop. The repeated orders struck pain to my ears and I would have conscientiously sworn that my musket weighed a ton. At length, when within easy gunshot of him, I shouted, 'For heaven's sake, Bob, stop this tomfoolery and let's go over to the tavern.'"

"He never looked at me but roared, 'Corporal, take that man and drill him like the devil.'"

"The corporal did, and I thought I'd die of exhaustion. I fully meant to challenge the drillmaster and whip him if he declined, but he succeeded in making me understand the imperative necessity of unquestioning obedience in the soldier. It's tough with the raw recruit, but the quicker he learns his part the better it is for all concerned."—Detroit Free Press.

WAYS OF THE BLUE CRAB.

Some of Its Peculiarities as Observed at New York's Aquarium.

While the blue crab is not commonly thought of as a swimmer and does in fact spend the greater part of its time on the bottom, yet it can very easily sustain itself in the water and swim at a very fair rate of speed. It swims endwise, and when swimming it carries one big claw thrown forward and bent back at the middle joint, making a point projecting at that end of the body, while the other big claw trails straight out astern. If it changes direction, it crooks the claw it had been carrying straight and lets the other go free. If it sustains itself in the water without progressing, it carries its big claws in front of itself as it would naturally do under ordinary circumstances on the bottom, but it has to keep its little claws in motion to sustain itself, and in swimming the little claws are kept actively at work. Besides making a good degree of progress through the water in swimming the blue crab can change its course or swim to a higher or lower level with facility. When frightened, the blue crab moves off sideways, but when moving about at home and undisturbed it may move straight forward. Its body may be inclined at any angle to the line of progress, but its motion still be forward, the big claws carried crooked around in front. It may be seen moving thus in one of the larger tanks at the aquarium, in which there are blue crabs, lobsters and other things. The temperature of the water now just suits the crustaceans, and they are very lively. Blue crabs may be seen swimming here, and also walking about, stepping down from stones that are as high as they themselves are wide with perfect dignity, if not grace of manner, and walking or carrying their claws before them.—New York Sun.

WOOD'S PHOSPHODINE.

The Great English Remedy.

Six Packages Guaranteed to promptly and permanently cure all forms of Nervous Weakness, Emissions, Spermatorrhea, Impotency and all effects of Abuse or Excesses, Mental Worry, excessive use of Tobacco, Opium or Stimulants, which soon lead to Infertility, Insanity, Consumption and an early grave. A LONG-LIVED RACE.

Some Remarkable Facts About the Hebrews—Their Longevity.

Probably few persons outside statistical circles are aware of the fact that the Jews are considerable longer lived than any other civilized race.

Of 100,000 Hebrews born on the same day, there will be 50,084 males and 49,316 females. At the end of the first year the 100,000 Jewish infants will have established in a most remarkable way their superiority in point of vitality, for only 8092 will have died, as compared with 24,192 in the English experience, and 16,706 Americans.

Striking as this difference is, it will be found to be practically maintained through out the latter stages of life. At the end of five years only 13,844 Jewish children out of the 100,000 will have died, while out of a similar number of English children 24,679 will have joined the great majority, and America will still keep her bad pre-eminence with 26,912 angels.

Making a leap to middle age, the deaths at fifty years will have been 26,519 Jews as compared with 40,079 English, and at the age of sixty-five the mortality returns will stand at 37,442 and 66,110 respectively.

But the full force of the comparison is hardly seen until the point of extreme old age is reached. At eighty-five years no fewer than 25,135 of our 100,000 Jews will be still living, while the survivors of the English band will be a meagre 5566.

Besides the curious reversal of the usual proportion of males and females, there is another unique feature in the Jewish statistics. The general experience is that the average duration of life is higher with the male than with the female. The opposite is the case with the Jews. Of the 25,135 Jewish survivors at the age of eighty-five there will be 16,222 men and only 8910 women—a percentage of 64.60 males and 35.40 females. The English experience shows that at the age of 59.60 per cent of the survivors will be males and 40.10 females.

If you are ill you need a doctor in whom you have confidence.

If you need a remedy you want one that has been tested for years; not an obscure, untried thing that is urged upon you, or on which you save a few cents—that is no consideration as against health.

For wasting in children or adults, Scott's Emulsion of Cod-liver Oil with Hypophosphites has been the recognized remedy for twenty-five years.

50c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.

MONEY TO LOAN.

On Farm Property also on Real Estate within the limits of the city in sums of from two to five hundred dollars at a reduction on current rates of interest.

J. H. Reddin, Solicitor Cameron Block.

TENDERS.

Tenders will be received by the undersigned, at Souris, until the 15th day of October, at 12 o'clock noon, for the whole or any portion, of the estate of the late firm of McDonald & McEachern of Souris.

An inventory of the estate may be seen at the office lately occupied by the said firm, at Souris, aforesaid.

A certified cheque, payable to the order of the undersigned, equal to 20 per cent. of the amount of the tender, must accompany the tender, which cheque will be forfeited, if the tender be accepted, and the person tendering fails to complete the purchase of the property tendered for.

In case tender be not accepted, the cheque will be returned.

The estate consists, amongst other things of safe and shop furniture, a house and lot at Souris East, 50 acres of land at New Harmony, a lot of land at Souris, a farm, known as the Flannigan Farm, book debts, promissory notes, judgements in the Supreme and County Courts.

The highest or any tender not necessarily accepted.

Dated at Souris this 1st day of October, A. D., 1898.
