## CANADA'S NATIONAL STUDENT DISCOUNT PROGRAM

STUDENTS AVER is Canada's only national student discount program. An expected 3,000 businesses across Canada will take part in the program this year. So that means that whether you travel or stay in town, you can save money on clothing, furniture, school supplies and a variety of services. Participating businesses that offer discounts on their services and products will be identifiable by a decal displaying a big red "S" (the international student discount symbol) on their windows.

In order to get these discounts, you must first show proof of full-time student status, your student card will do, and have a black and white passport type photo taken. Then just come down to the Student Union and a International Student Identity Card (ISIC) can be purchased for just \$ 5.00. Also when the ISIC card is purchased you will receive a Discount Guide that lists all the discounts available in Canada but remember retailers will be joining up throughout the year so always look for the window decal to see where you can receive your student discounts.

For more information on STUDENTS AVER contact Howard Beattie at the Student Union.
