

THE DAILY EXAMINER.

JANUARY 25, 1895. REDUCED RATES.

Those who are engaged in trade, particularly, and the people of this Province, generally, will be glad to learn that a revised winter freight tariff applicable between all stations on the P. E. Island Railway, and mainland points, has just been published.

Under the new rates and to read from Picton and all points on this road have been materially reduced. For instance: First class rates for Carleton Place and Picton have been reduced from 31 cents per 100 lbs. to 25 cents; second class rates from 24c to 20c; and third-class from 17c to 14c.

Between Picton and Summerside the reductions are still more marked. First-class goods reduced from 37c to 28c per 100 lbs; second-class, from 30c to 23c; third-class, from 24c to 20c, and fourth-class from 20 to 16 cents. Corresponding reductions in the class rates have been made between Picton and all other points.

Some interesting news has reached the Paris correspondent of the New York Herald that very possibly has not become public in New York, and he begs leave to forward it to the public. First, as to Dr. McGlynn. He sought the archbishop and obtained a personal interview with him, at which he formally and fully apologized for all his misbehavior.

He then applied to be assigned to a parish. For the same purpose he applied to Mgr. Satali. The latter declined to interfere in his behalf, and at the same time rather advised Archbishop Corrigan against granting the request.

My last information is that this advice somewhat delayed the final appointment of McGlynn to a country parish. Father Ducey also called upon Mgr. Satali. The latter declined to see him at all, saying that he had no personal interview with a priest who had disobeyed his bishop, but sent word to him that he could see Archbishop Patai, his secretary.

The latter told McGlynn to arrange matters with the archbishop, and take the consequences. Thereupon, Ducey wrote to the archbishop a satisfactory letter of submission and apology.

It is estimated that about 3,000 persons in St. John's, Nfld., are receiving daily relief. All the colleges in Armenia have been impounded. The city of Brantford, Ont., has increased in population since 1891 from 12,753 to 15,699.

Recent despatches state that terror reigns throughout Armenia, and business is completely paralyzed. The British steamer, Boston City, lost 70 oxen and 200 sheep on her last voyage from New York to Liverpool.

The Patrons of Industry at Brandon, Manitoba, on a very close vote, recently added prohibition to their platform. Hidden treasures to the amount of \$300,000 in Spanish doubloons has been found in a cavern near San Luis Potosi, Mexico.

The engagement of Cornelius Vandenberg to Miss Taylor, a New Yorker worth \$40,000,000, is the talk of Gotham society. Lord Darnley has definitely decided to go into politics. He will be a candidate for the London county council standing for Wandsworth.

According to the report of the New Hampshire and Vermont Agricultural Societies, there are 750 abandoned farms in that state, against 135 in 1889. The wife of an old Indian, aged 80 years, died of actual starvation in British Columbia recently, because the condition of the old couple was discovered.

The presence of three British warships in the Pacific and three more on the Atlantic coast of Central America is causing considerable comment in that country. The Rev. Dr. Lunn has arrived in New York from the old country to enlighten the people on the subject of the reunion of Christianity and also to denounce Hinduism.

A Nashua, N. H. minister created a sensation last Sunday in his Church by showing his congregation two samples of a cough remedy which he alleged was the cause of the death of a citizen. The Town of Hennessey, O. T., is in a frenzy of excitement over the killing of two U. S. deputy sheriffs and a fight with which occurred recently in a field between sheriffs and the Bill Doolan gang.

The people of the New England States are having their attention called to the presence of tuberculosis among cattle and the peril to the human family in the use of products of diseased animals. John Burns, the labor leader of England, who recently visited America, says there are more slums and more degradation in New York than he ever saw in London.

The English judicial bench, he says, is theoretically perfect, compared with that of America, where the capitalist bribes the legislature, corrupts the senate, squares the magistracy, chloroforms the military, and bulldozes every civil official. It was found after the recent gale that the iron Free Church at Baltimore, Md., had been completely destroyed. The single bit was standing on the foundation, some of the material, it is believed, having been blown into the sea. The church, which is a very neat and tidy structure, and could accommodate a good number of people, was almost new, and had cost a considerable sum of money.

To those who are interested in good farming and stock-raising, the Canadian Live Stock and Farm Journal is becoming quite a boon. The cutting down of prices and bad times generally made necessary to agriculturists to exercise the greatest care in order to secure the proper return for their labor, and the Canadian Live Stock and Farm Journal contains just the kind of information necessary to assist them in the work. The subscription price is one dollar a year, and an investment of this kind is one that should prove profitable. The Journal's address is 20 Bay Street, Toronto.

DAVITT DEFENDS AMERICA.

Michael Davitt has written a long letter to the London Chronicle refuting Commissioner Benn's assertion that all the politicians in the United States are in the official corruption. He comments scathingly upon Benn's readiness to tell all about the whole United States and their public men after having passed a few days at a labor conference in Denver and a week or two in other American cities.

His assertion, says Davitt, "is supreme absurdity sea-osed with that amount of ignorance and conceit which makes the English critic impervious to ridicule when he rides on the high horse of British superiority." Toward the close of his letter Mr. Davitt says: "In America nothing is hidden from the public. Every job is mercilessly exposed by the most trenchant and remorseless press in the world. As regards labor in the United States much that is misleading has been said. The chief difficulty is that a constantly growing mass of European cheap labor is throwing on the scales against the interests of the American workmen. Yet no country can boast of abler and cleaner-headed labor leaders than Powderly, Gompers and McBride."

The Chronicle says in commenting on the letter: "While admiring the people of the United States Messrs. Stoad, Burns and Benn directed their criticisms against the sum that came to the surface in municipal and commercial life." DR. MCGLYNN AND MGR. DUCEY.

GENERAL TELEGRAPHIC NEWS.

HARTFORD, Conn., Jan. 23.—The House today tabled a resolution sympathizing with the efforts of all to free themselves from the yoke of oppression, urging members of Congress to support themselves looking to the liberation of Ireland from British Government, and sending ships of war to give aid to a movement looking to that end, supplanting it, if need be, with a suitable land force to accomplish the purpose.

LOSANO, Jan. 23.—A despatch to the Central News from Shanghai says: "The Japanese movement in West China has caused a panic in Tien Tsin and Pekin. The Chinese peace envoys have been ordered to expedite negotiations with the Japanese Government. Japanese cruisers are watching both canals, and Wei Hai Wei. An attack upon the stronghold would be delayed a week. Siege trains move slowly, the roads being covered with snow."

BERLIN, Jan. 23.—The reichstag committee today unanimously adopted a paragraph of the anti resolution bill punishing incitements to disorder, but by 14 to 12 rejected a section providing that although incitements to disorder shall not lead to breach of the peace, the inciter shall nevertheless be liable to a fine of 500 marks and imprisonment for a year.

LOSANO, Jan. 23.—A terrible rain storm has prevailed in the mid-lands. The road from Tamworth to Birmingham and Lichfield has been submerged and the traffic is entirely suspended. There was a five feet of water in the streets of Tivesham, whilst an election was taking place for members of parliament. The voters were obliged to go to the polls in boats. The roads of Eton and Birmingham were partly submerged.

LOSANO, Jan. 23.—John Redmond, M. P., leader of the Parliaments, said in a speech at Waterford last evening that he and his colleagues will go back to parliament with the determination to do their utmost to oust the government. They will insist that no British business be transacted until home rule is granted to Ireland.

VIENNA, Jan. 23.—The Tagblatt publishes today an interview with President Faure, telegraphed by its Paris correspondent. "With my election," said the president, "I ceased to be a party man. I wish to arbitrate between parties among whom there is a grand movement of concentration. In regard to her foreign policy, France strongly desires peace, and this feeling will continue, no matter what political groups may predominate."

VIENNA, Jan. 23.—Herr Treitel, retired iron merchant, aged 81, died today. He left by will one million florins to the Academy of Science to be devoted to astronomical researches.

PARIS, Jan. 23.—M. Bourgeois is making little or no progress in the formation of a cabinet. M. Cochery, therefore, refused to accept the portfolio of finance.

LOSANO, Jan. 23.—A despatch to the Central News from Cho Foo says American, British, German and French sailors have been landed at that place. The Chinese fleet is lying inside the harbor at Wai Hai Wei. A further force of Japanese soldiers has been landed at Kaitung. The British consul at Wanchow has telegraphed a request for the presence of a gunboat at that port. The trouble there is not serious, but he deems it well to be protected against possible danger.

DUBLIN, Jan. 23.—William O'Brien has written a letter to the Freeman's Journal stating that a famine is threatened in the west of Ireland. He declares the situation there is already more serious than in 1881, when Chief Secretary Foster expended \$5,000,000 from the British treasury to relieve the sufferings of the people of that region.

PARIS, Jan. 23.—The Temps in commenting on the Anglo-French West African boundary convention at Monrovia, says it gives France the whole basin of the Upper Niger. This compact, it adds, is an important fresh bond of friendship between the two countries and proves that despite natural rivalries, concord can be obtained, thus assisting civilization.

BROOKLYN, Jan. 23.—Wire cutting tonight was more extensive since the strike began. Linemen of the trolley roads are out on strike today. The only company claiming to have linemen at work tonight is Brooklyn Heights. Blood was shed in starting cars on the Hicks street line. At 444 Hicks street a man was seen on the roof and the order was given, "Stand back there." Almost simultaneously several shots were fired and the man dropped. He was a roofer named Thomas Carney.

The firing of the troops caused a reign of terror in the vicinity, which lasted until about 4 o'clock, when the troops marched to the City Hall and were transported to the Armory. The residents are very indignant over what they term the unprovoked killing of innocent men. Governor Keene took the deposition of the wounded man Carney. He said he had been working on the roof all day, but did not throw anything from the roof. He heard the order, "Stand back there," and started to run back.

LOSANO, Jan. 22.—A despatch to the Central News from Shanghai says the Chinese peace envoys today made application to the agents of the Pacific Mail Steamship company for transportation to Japan, and will sail on Jan. 26.

BERLIN, Jan. 22.—Leberecht von Kotze, who was accused last week of writing scandalous letters to members of the court, fought a pistol duel two days ago with Freiherr von Schrader, master of ceremonies. Several shots were exchanged, but nobody was injured.

BROOKLYN, N. Y., Jan. 22.—Cars on Gates Avenue line started this afternoon. When the first car was passing Gates Avenue, a militiaman noticed the windows of a house opened. He ordered them closed. The family refused to close them, whereupon the militia fired a volley at the windows. No one was hurt.

St. John's, Nfld., Jan. 23.—There is much rejoicing in government circles over the imperial government's assenting to the bill for the removal of the disabilities of William Whiteaway and colleagues. All the leading politicians disapproved last year are now qualifying to again enter the Cabinet next week, as premier, Mr. Greene, provincial leader, retaining all former responsibilities. Applications of insolvency are the order of the day. The newspapers suggest the insolvency law be amended and made more stringent. They favor the appointment of receivers for all firms, as at present everybody is trying to shirk payment of debts or make compromises. The steamer Assyrian, which arrived from Liverpool today, brought considerable specie, with many contributions of money, food and clothing forwarded by charitable people in England. All relief for the destitute is carried free of charge. Government supporters are warmly urging confederation with Canada.

Thousands of cases of rheumatism have been cured by Hood's Sarsaparilla. This is abundant reason for belief that it will cure you.
