Telephone 181. Connolly's Whar

Chicago's Grand Boulevard.  
Chicago, which never lacks something to brag of, will presently have a considerable basis for self congratulation in the magnificent boulevard along the shore of Lake Michigan which is to connect it with Milwaukee. This beautiful road will be 80 miles long and promises to be the most notable stretch of roadway along a water front in the country. Eighty miles is over long for a drive, but it is just a comfortable morning stretch for a contemporary bicyclist. New York's Riverside drive will seem microscopic compared with this Chicago road, though it will be long enough for most practical purposes, and almost unmatched in beauty.—Harper's Weekly.

New Zealand Streets.  
Richard John Seddon, the premier of New Zealand, who arrived in Chicago the other day, on his way to England, said to a reporter in that city: "You are ahead of New Zealand in the matter of railroad travel perhaps. We do not have your sleeping car arrangements, but otherwise our coaches are on the American instead of the English plan. We are far ahead of you in the matter of roads and streets. We wouldn't tolerate such rough pavements as you have for your business streets. Our streets are paved with tarred plank on a foundation of concrete, the whole being surfaced with asphalt."

A Multikeel Vessel.  
One of the recent marine inventions is a multikeel vessel, a form of ship with a flat bottom, provided with five or seven keels. The inventor claims greater carrying capacity and increased floating power, with higher speed, than any other form of ship. The bow and stern are spoon shaped, the vessel has two sternposts and two rudders, linked together so as to move simultaneously, and two propellers. It is also claimed for this model that it can be turned in its own length and will in smooth water steer equally as well whether running ahead or astern.—New York Tribune.

MANY MEN OF MANY MINDS.  
Many a man knows what is what, but doesn't know which is which.  
Many a writer knows how to write, but doesn't know when to go to press.  
Many a preacher knows how to preach, but doesn't know how to practice.  
Many a teacher knows how to teach, but doesn't know how to be taught.  
Many a lawyer knows how to go to law, but doesn't know how to get back again.  
Many a tradesman knows how to trade, but doesn't know how to make "both ends meet."  
Many an M. D. knows how to be a doctor, but doesn't always know when to kill or when to cure.  
Many a wise man knows what the dictionary definition of wisdom is, but doesn't know what the word means.—James Johnson in Good Housekeeping.

FIGS AND THISTLES.  
A little sin has as much death in it as a big one.  
Some would rather face a cannon than their own evils.  
Our prayers for guidance will not be heard unless we are willing to be led.  
The man who knows how to live well will not have to learn how to die well.  
God never made the world for an apothecary shop or a chemical laboratory, but for a temple. The final word of nature is spiritual.—Ran's Horn.

WAVES OF WATER.  
The gulf of Mexico has risen one foot since 1850.  
At the point where the Mississippi river flows out of Lake Itasca it is only 10 feet wide and 18 inches deep.  
The famous rivers of ancient Greece, which are mentioned so often by the poets and historians of the peninsula, were more creeks, some of them scarcely larger than brooks and not deserving the name of rivers

MESSAGE TO MEN.  
Proving that True Honesty and True Philanthropy Still Exist.  
If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthfully, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, loss of Vigor and Organic Weakness.  
I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. G. Strong, North Rockwood, Mich. 135 p&w.

**AULD BROS.**

**EYES**  
There are which cannot be benefited with glasses; but how many continue to suffer with eye troubles, who, if they would use spectacles properly fitted, would be entirely cured? Try us for satisfactory results.  
G F HUTCHESON, Jeweler & Optician  
QUEEN STREET.

**Paris Green, Paris Green, Paris Green.**  
Machine Oil, Haying Tools, Hardware. Everything cheap for cash at CITY HARDWARE STORE. Call and see. Don't ask for credit.

**R. B. NORTON & CO.,**  
J. F. NORTON, PROPRIETOR  
**SPECTACLES.**  
Over twenty-five years I have been in the Spectacle business and during that time have fitted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see a large 4 inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put on getting glasses much longer. Others have been fitted rather misfitted, with wrong glasses by travellers, and changed a great deal more than they ought to have been. This year our traveller, Mr. C. H. White, intends calling on parties at their homes in the country, to test eyes and show samples of our goods. Should he call on you I bespeak for him your favorable consideration, and any order you may give him will be filled as soon as possible and guaranteed by me. Glasses can also be exchanged at the store, CAMERON BLOCK, City, if after a trial they do not prove as satisfactory as you wish.
