Mortgage Sale.

To be sold by Public Auction, on FRIDAY, the Thirty-first day of May, A. D. 1889, at the hour of Twelve o'clock, noon, at the Court House in Charlottetown, in Queen's County, under a power of sale contained in an Indenture of Mortgage, dated the First day of November, A. D. 1874, and made between Patrick Henry Morrissey, and Mary Ann, his wife, of the one part, and James Colledge Pope, of the other part, which Mortgage was, by an Indenture bearing date the Third day of June, A. D. 1880, duly assigned to John Brecken and Edward J. Hodgson, Trustees of R. W. Brecken & Co., of the one part, and Patrick Henry Morrissey, of the other part, piece of land, situated at, lying and being at, Trench, in Prince County, in Prince Edward Island, and bounded and described as follows, that is to say:—Commencing at a stake fixed in the south-west corner of a plot of land lately in possession of Sydney F. Arsenault; thence southwardly along the highroad a distance of forty feet; thence eastwardly along a street called Water Street, a distance of one hundred and twenty feet; thence northwardly forty feet to land lately in possession of John Walsh; thence westwardly one hundred and twenty feet along the line of land in possession of the said Sydney F. Arsenault to the place of commencement.
Also—All that other tract, piece or parcel of land, lying and being on Lot One, in Prince County aforesaid, bounded and described as follows, that is to say:—On the east by the shore, on the north and west by land in possession of Thomas Lynch; and on the south by Sea Cow Pond, as the same was formerly possessed by William Hubbard, and now in the possession of the said Patrick Henry Morrissey, containing fifty acres, a little more or less.
For further particulars apply to Edward J. Hodgson, Solicitor, Charlottetown or Summerside.
Dated 24th April, 1889.

Mortgage Sale.

To be sold by Public Auction, on WEDNESDAY, the Eighth day of May next, A. D. 1889, at the hour of Twelve o'clock, noon, on the premises near Spring Park, under and by virtue of a line commencing at a square post on the east side of the Malpene Road, dated the First day of December, A. D. 1877, and made between James Barton McKenna, of Charlottetown, in Prince Edward Island, Yeoman, and Catherine, his wife, of the one part, and Barbara O'Halloran, of Charlottetown aforesaid, widow of the late Martin O'Halloran, of the other part:—
That tract, piece and parcel of land, lying and being in the County of Charlottetown aforesaid, described and bounded as follows:—By a line commencing at a square post on the east side of the Malpene Road, on the north side of a street or lane, and running along the said street eastward a distance of six (6) chains and fifty-eight (58) links, or until it meets a public street or lane; thence along the last-mentioned street or lane three (3) chains and five (5) links in a northwesterly direction, until it meets the south boundary line of lands possessed and occupied by James B. Davy; thence westwardly along the said line a distance of six (6) chains and fifty-eight (58) links, or until it meets the Malpene Road; thence along the said road in a southerly direction three (3) chains and five (5) links to the place of commencement, being all the land now enclosed by a post and rail fence, and also by a hedge, containing two acres of land, a little more or less.
For further particulars apply to Messrs. Palmer & McLeod, Solicitors, Charlottetown.
Dated 21st March, A. D. 1889.

LETTERS TO THE EDITOR.

Mr. Davies' Misrepresentation.

Sir,—In a late issue of the *Weekly Patriot* there is a report of Mr. L. H. Davies' speech in the House of Commons at Ottawa, on the pier of P. E. Island, and as the report is said to be taken from the House of Commons Debates, I presume it is correct. I was surprised at some of the assertions in that speech, but after all, they are very characteristic of the hon. gentleman who made them. With your permission, I will point out one or two of them. In the first place, Mr. Davies has given his friends in the local legislature a bad slip, for he says that the Government of P. E. Island would not sign a receipt in full for the amounts they received on account of the piers. His friends in the House of Assembly have asserted time and again, and in fact, Mr. Sutherland almost swore, this session, that the Government of this Province had given the receipt in full. How will they reconcile these contrary statements? They both cannot be true. Then Mr. Davies, a little further on, says: "So we stand now with \$75,000 and \$50,000 paid to the local Government for these piers." Where did Mr. Davies get his information? Can he not be correct even on a matter of this kind, that could be so easily ascertained from the blue books? No; his propensity for misrepresentation is such that he cannot tell the truth, even when his misstatement is so glaring that any school boy can detect its falsity. But these are not the mischievous part of that speech of Mr. Davies. He says, "I wish to remind the committee that some years ago the Government of the Dominion took over from the Government of Prince Edward Island a large number of wooden piers or structures—wharves we called them—and assumed them as Dominion property. I am not going into the question whether that was a wise or an unwise policy on the part of the Government." Well, now, just think of a representative from Prince Edward Island making such a statement in the House of Commons! The policy that gave to this Island over \$77,000 in cash is here declared to be open to question. By whom? Mr. Davies, the member for Queen's County! Did anyone ever hear of a representative objecting to money being received by his constituency? Mr. Davies knew very well, when he made that statement, that his constituents would have to pay part of that \$77,000 in taxation if the Local Government had not successfully fought the battles of this Province, and obtained those refunds. And see how he tries to prejudice the members of the House of Commons against the wharves by calling them "wooden." You can almost imagine the sneer with which the members from Ontario will regard those "wooden structures." And how hard it will be for the Dominion Government to satisfy their supporters from Ontario, Quebec, Manitoba and the Northwest Territories that they should maintain these public works that Mr. Davies does not believe they ought to take charge of. And yet Mr. Davies is a gentleman who is said to represent the true interests of this Island! Again, after recess, Mr. Davies had something to say about the wharf at Mount Stewart. I have heard of people being damned with faint praise, but if ever there was a case of that kind, it was when Mr. Davies was urging the claim of Mount Stewart for a wharf. He said, "Mount Stewart village comprises 1000 to 1500 inhabitants," another of his reckless assertions, "and is situated at the head of the Hillsborough River, about 18 miles from Charlottetown. Of course the river is a tidal river. I was not aware that the Dominion Government had at any time, or in any Province, constructed piers in places like that. I shall be very glad to learn that I was wrong in my opinion." A little further on he continues: "The impression prevails in local Government circles that the Supreme Court of Canada in the case of Helmuth (?) and the Crown, the Dominion Government have the duty thrust upon them of constructing all piers and wharves in all tidal rivers. In that opinion I do not coincide." The italics in the quotations are mine. Now, what can we think of such a splendid advocate? Does he not put the case strong, oh! my friends? He is most anxious to get the Dominion to build a wharf at Mount Stewart; but "he was not aware that the Dominion Government at any time, or in any province, constructed piers in places like that." The Minister of Public Works having listened to the claim of our representative, was not prepared to give an answer, but Sir Hector told the hon. gentleman that the Dominion had built wharves on the Saguenay River. It is no wonder that Mr. Davies did not get a favorable answer to his request. He put forward the claim of Mount Stewart in a half-hearted, miserable, doubting way, and what he said was enough to prejudice the Government against granting the request of the petition that has been forwarded by the people. Why did he not show the amount of produce that is annually shipped at Mount Stewart? Why did he not tell the committee of the large number of farmers who depend on that place for shipping their surplus products? No; that would likely have some effect on the Government, and they might build the wharf there, and the people so urgently need. Mr. Davies, in this instance, has shown that when solid, useful work is required he is not the man to do it. Mr. Ferguson has got Hickey's Wharf repaired, and large grants, through his influence, were voted the other day, for China Point and Port Selkirk wharves. If the people of Mount Stewart, instead of going to Messrs. Davies and Welsh to get their wharf, had got Mr. Ferguson to take up their case, he, no doubt, would have been as successful for them as he was in getting grants for other places. This should be a lesson to the people of Mount Stewart, who voted for Davies and

Welsh last general election. Much good does it do them to hear that Mr. Davies has been up in Toronto making great speeches; or, that he has been advocating the abolition of the duty on Indian corn, so that the farmers of Ontario can feed their fat cattle at a less expense; or that he is very anxious that the poor fishermen and lumbermen of Nova Scotia and New Brunswick should not pay too high for the oats they get from this Island. But, when some useful work for his own constituency is wanted, he is either unable or unwilling to perform it in a proper manner. I am afraid I am trespassing on THE EXAMINER'S space, but the fact is the people here are disgusted with our Dominion representatives, and I want to tell you about it.
I remain,
Your obedient servant,
AN OLD FARMER.
Lot 37, Queen's Co.

Canadian Horses for Japan.

Dr. Jenkins, ex-M. P., of Charlottetown, is on a visit to his horse ranch at Fort McLeod, N. W. T. Talking to a *Sun* reporter, Dr. Jenkins said:
"I had some surplus capital some time ago, and looking around I saw what appeared to me to be a paying investment, and so it has turned out to be. I have some 200 horses altogether on my ranch. Some are begun with some fine stallions of good jumping characteristics; these have been bred to mares of the hardy prairie type, and the race from them are what will be very marketable in England and America, where good hunting blood is wanted, for the horses have the jumping powers of their sires, combined with the fearless, race anything nature, and enduring qualities of their dams. However, the English market for cavalry is not a good one. English cavalrymen are very hard to please in the way of horsemanship. They will find fault and detect the slightest flaw in an animal and have nothing to do with it. Americans are different. If they want horses they will get them. If the animal is too large for any purpose, or too small, or too weak, they will put it to work at whatever it is best adapted to."
"Is there any other market for horses besides those in the east?"
"There may be another good one in the far west. Last Saturday, while in conversation with Mr. VanHorne, of the C. P. R., I asked him if he would give us low rates for some future date in the summer when freight traffic was dull, for the shipment of horses east. He said: 'Why don't you ship your horses to Japan? There is an excellent market for them there.' The Japs are now beginning to realize the value of horses and want to have them. They have only a few ponies in the Korean Islands, which the Japs despise, and the shipment of horses there may develop into a big thing. Mr. VanHorne said that he would send our horses to Japan at a very low rate, so you may hear more about it. If we do send any, it will be some time next July or August."

Sugar and Molasses.

(Montreal Gazette, 24th.)
The sugar markets throughout the world have continued in a very excited and buoyant state, due to heavy speculation and buying on account of fears that the crops will prove deficient. Private cables from London today report an advance of 2s on beet, with "the market advancing. Beet 23s 6d f. o. b., and speculation wild." The Clyde markets are also very strong. A late despatch from New York says: "London market has continued excited. Beet, 23s and 24s. In consequence of the excitement and strength in the market for refined has developed sympathetic strength. To-day there was a further advance of 1/2c on granulated and 3/4c on yellows. There has been a heavy turnover at the advance and to-day business was active, the sales heard of amounting to over 4,000 barrels, including granulated at 8 1/2c and yellows at 7c to 7 1/2c as to quality."
The molasses market has been active and strong, and a large volume of business was transacted, with prices 2 1/2c to 5c higher. To-day there were sales of 2,000 puns, new crop Barbadoes to arrive at 4 1/2c to 4 5/8c.

Our Tell Tale Hands.

The white hand proclaims innocence, the red hand guilt.
A hand that is soft and flabby indicates a weak and inefficient character.
A lean, nervous hand, with a grasp of much spasmodic force, indicates cruelty.
The thumbs of the dying turn in under the fingers, as if conscious that their work is done.
A hand that is firm and solid foretells a good constitution and a patient and persevering mind.
The laying on of hands is an old custom, believed to have peculiar value in curing disease by faith.
Newton declared that, in want of other proofs, the thumb would convince him of the existence of a God.
Scott's Emulsion of Cod Liver Oil and Hypophosphites
Is sold all over the world. It is far superior to plain Cod Liver Oil, palatable and easily digested. Dr. Martin Giles Stanton, Bury Backs, London, England, says: "I have prescribed Scott's Emulsion and taken it myself. It is palatable, efficient, and can be tolerated by almost anyone, especially where cod liver oil itself cannot be borne." Sold by all druggists, 50c and \$1.

Personals.

Gabriel Dumont is said to be collecting half-breeds and Indians for wild west show purposes in Paris.
Prince Alexander of Battenburg and his bride, now known as Count and Countess Hottentau, have taken a residence at Gratz, in Styria, where they are living in very modest fashion.
Eczema, Itchy, Scaly, Skin Tortures.
The simple application of SWAYNE'S OINTMENT, without any internal medicine, will cure any case of Itch, Salt Rheum, Ringworm, Piles, Tetter, Sores, Pimples, Eczema, all Scaly, Itchy Skin Eruptions, no matter how obstinate or long standing. It is potent, effective, and costs but a trifle.
oc12 6m dw

Local and Other Items.

JOURNALISTIC.—The *Amherst Gazette* is to be issued as a tri-weekly about the middle of May.
No greater triumph in medicine or chemistry has been recorded than Hall's Hair Restorer to revivify and restore gray hair to the color of youth.
FOUND AGAIN.—The *Times* says: "The champion man man is said to have been discovered in the vicinity of Moncton. He waters butternut, which he sells in town."

MASONIC.—A special communication of Victoria Lodge, No. 2, A. F. & A. M., will be held in their Lodge Room this evening, at 8 o'clock. Work on the second degree. Visiting brethren cordially welcomed.

RAILWAY FATALITIES.—Official returns show that the number of passengers killed on Canadian railways during the fiscal year 1887-88 was 20; number of employes killed, 107; number of others killed, 104; total killed, 231.

In the use of Ayer's Sarsaparilla, you need have no fear of arsenical poison, this medicine being entirely free from all dangerous drugs. Its powerful effects are due to the skillful combination of the best ingredients, and hence no ill results ever follow its use.

SOME STILL LIVE.—It is said that the descendants of Mrs. Daniel Tingley who died in Albert County, N. B. recently, aged 90, numbered 201, of which 182 are still living, viz.: children 10, grand-children 53, great grand-children 116, and 3 great great grand-children.

The superior merits of Ayer's Cherry Pectoral as an anodyne expectorant is due to a skillful combination of the most powerful ingredients. Nothing like it has ever been attempted in pharmacy, and its success in the cure of pulmonary complaints is unparalleled.

THE RIFLE.—The Halifax paper reports that the council of the Provincial Rifle Association has determined to select the team to represent Nova Scotia in the inter-maritime match by three competitions to be held simultaneously at Bedford, Truro and Windsor on the 22nd and 29th May and 5th June.

AT GEORGETOWN.—A great number of vessels are in Georgetown, including 16 fishermen who arrived on Saturday. The brig, Aquila, arrived on Saturday from the West Indies. Capt. Sencalough reports a bad passage, having lost some of his sports and sails. The brig, Sirius, from Halifax to Hon. D. Gordon, also arrived on Friday night at Georgetown.

MORE ACCIDENTS.—Beside the fatal accident caused by the lightning storm near Kentville, N. S., on Sunday, the barn of Alexander Fecch Hill, was struck by lightning and the end badly torn out. Six sheep were also knocked senseless, one of which never recovered. Lightning also struck the barn of Mr. Donaldson, of Church street, Kentville.

STRUCK BY LIGHTNING.—At Montserrat, Ala., recently, Peter Crump and his five children were out on the verandah watching a thunder-storm. Lightning struck the house and four of the children fell. Three of them came to after a while, but one—a 12-year old boy—was picked up dead.

TROTTER RACES.—We learn from the *Times* that the new managers of the Moncton driving park have made up a good programme for the Queen's Birthday. The races will include a running race, open to province bred horses; a trotting race for colts 4 years and under, and a trot, 3 minute class. A \$50 purse for the last mentioned race. Entries must be made by the 18th.

DOING THE TANNER ACT.—New York advices state that in order to rid himself of superfluous flesh, citizen George Francis Train has fasted six days, taking nothing but water. He has lost 14 pounds in weight. He announces his intention to fast a hundred days in order to show that the human race can live entirely without food. He goes about as usual.

WHERE DID IT COME FROM?—An exchange says: In saving wood for S. M. White, White's Cove, Queen's Co., N. B., some days ago with a sawing machine, the saw came in contact with what was supposed to be a knot, but on inspection was found to be a razor embedded in the log some three or four inches from the heart, which nearly spoiled the saw. The question is how did it get there.

MADE A BIG HAUL.—An investigation into the recent robbery at Penbrooke, Ont., reveals the fact that the burglars secured \$800 in postage stamps, \$150 in cash and 36 registered letters. Six of the registered letters had been opened, and the contents extracted, amounting to over \$900. The other 28 were evidently carried off, the thieves fearing molestation.

IN LUCK.—A music teacher named McKinnon, who is well-known at Roger Hill, Durham, Scotland, Mount Thom and Green Hill, N. S., where he conducted classes during the past winter, has fallen heir to a sum of money to the tune of £5,000 sterling, or \$25,000 in currency, by the death of an uncle in Scotland. He is now crossing the Atlantic to receive his bonanza.

A COOL BUREAU.—A Norwich, Conn., despatch brings news of a remarkably cool bureau committed near that place recently. It appears that the burglar, with a two-horse wagon, entered the house of Samuel Johnson in a lonely farm district in Preston, two miles from Norwich, leisurely loaded up with Johnson's household goods and drove away. The family were all away. The amount of the loss is not known. The house was ransacked and everything of value taken.

FAST TRAIN.—It is now announced by the Southern Pacific and Union Pacific people that the Golden Gate special between San Francisco and Omaha will run its last trip, leaving San Francisco on Saturday, May 4th. A new overland passenger train will be put on the fastest line on Sunday, May 5, and will be the regular daily train ever run between "Frisco and the east. Leaving San Francisco at 6.30 p.m., daily, it will arrive in New York in 4 days and 21 hours.

A CONFAB.

"GOOD MORNING, Farmer John. How is the travelling to-day?"

"Very bad; nearly ruining my horse's feet. They are always very sore after going home from town."

"What do you think is the matter with them?"

"I think they call it greased heel, or scratches, and some say it can't be cured."

"Oh, that's nothing. You get the MAGIC HEALER SALVE, and you can soon cure them. Did you not see the testimonials from Davies, Finlayson, Duff and Hooper in the papers a few weeks ago?"

"Why, no; I don't get any papers now, so I didn't see them."

"My dear fellow, you go to any of the drug stores and ask for the Magic Healer Salve, and I'll guarantee that if you wash your horse's feet at night, and rub the Salve well into the sores, they will be thoroughly cured in a week."

"Well, on your recommendation I'll give it a trial; and if it does what you say, money will be no object. Good day, and thank you for the information."
