Follow the crowd to Afton Hall on Thursday, May 15th, and enjoy a bang-up entertainment by Red Beicher and his radio cowboys. Free dances after show-music by the Wheeling West Virginia Jamboree.

Expect Gov't To Guarantee 24 Cents Pound

OTTAWA, May 14 (CP)—Ontario cheese producers likely will obtain a federal guarantee of 24 cents a pound, basis deliveries at factories for cheddar offered for sale under a co-operative marketing scheme. This was learned following disclosure by Agriculture Minister Gardiner in an interview today that the producers have asked for aid under the co-operative plan and that he has received cabinet authority to guarantee Ontario cheese prices. He told the commons later he will meet with the Ontario Cheese Marketing Board tomorrow to work out an agreement providing for the guarantee. Many of the cheese producers, hard-hit by lack of overseas markets, are able to maintain operations only on a basis of quick turnover to the trade. Trade, however, has been virtually at a standstill in recent weeks. Prices on public auctions have been so low that producers have refused to sell. Offers ranged from 21 to 25 cents a pound. Once an agreement is signed, however, producers will be able to use the guarantee to obtain loans from banks, based, of course, on the amount of cheese they have available for sale. Producers seeking federal aid had two courses open to them: they either could apply for a federal floor price, similar to one they had last year; or they could ask for aid under the 1939 Agricultural Products Marketing Act. They chose the latter course. Mr. Gardiner said he was informed yesterday, following a meeting of the producers in Belleville, Ont. Under the co-operative legislation, which never before has been applied to cheese, the Federal Government may guarantee up to 80 per cent of the average price in the last three preceding years. Federal officials have worked out this average to be about 30 cents, at factory, and 80 per cent of that would be 24 cents. Under the co-operative scheme producers will market their own cheese. If their selling price is below the federal guarantee, they will be reimbursed with the difference through the federal treasury.

Senators Critical Of Delegates Travel Costs

OTTAWA, May 14 (CP)—Some Senators today criticized the government for spending more than \$14,000,000 last year to send delegates to international conferences. Senator John T. Haig, Opposition leader, and Senator W. D. Bulte (Ontario) suggested in the Senate finance committee that some of the meetings costs more than they were worth. Senator Thomas Reid (British Columbia) said one delegate described one trip as a "joy ride." The subject came up as the committee investigated government spending and its effect on taxation and the effect of taxation on the various income groups. Senator Haig asked R. B. Bryce, assistant deputy minister of finance, whether such meetings as the Food and Agricultural Organization, the World Health Organization and others produced concrete results. He suggested the delegates sit around and talk about problems but really accomplished very little. Expenses for travel and movement of government officials increased almost five times since 1938-39. He asked if attendance at international conferences was government policy or "just something that grew up." Personally, he couldn't see much accomplished by the Food and Agriculture Organization. "And as for that fellow (Lord) Boyd-Orr (head of the F. A. O.) what he has done to the world is a terror." Senator Haig explained outside the committee that he objected strongly to Lord Boyd-Orr being on the convention platform as Canada, that they should give away their surplus food products. Senator Bulte said many of the countries attending the recent tariff conference at Torquay, England, did not live up to the resulting agreements. The United States still barred Canadian cheese despite an agreement to remove the barriers. Mr. Bryce said the deputy ministers of departments concerned were better able to say what results came from the conferences.

Will Not Stay On Job Without Boost In Pay

PHILADELPHIA, May 14 (AP)—C. I. O. steelworkers angrily brandished the threat of a renewed steel strike today after getting a new Truman administration ally in Labor Secretary Maurice Tobin. The steelworkers unions convention shouted approval of a resolution endorsed by Union President Philip Murray warning that the workers won't stay on the job indefinitely without a pay boost. The resolution was accompanied by a mass demonstration of delegates, swarming over the convention platform shouting, "no contract, no work" and "we shall not be moved." It was a 20-minute bedlam. The union speakers gave no indication of any date when the strike threat might mature. After delegates followed a delegate to the floor with warnings that "we'll hit the bricks" and "shut the steel industry down until hell freezes over," the convention unanimously adopted the resolution declaring the dispute must be "promptly resolved" or else. "We cannot and will not continue indefinitely to work in 1952 for 1950 wages and working conditions; we cannot and will not continue indefinitely to work without satisfactory collective bargaining." (Continued on Page 5 Col. 2)

Red Truce Negotiators Step Up Propaganda; Demand Daily Meetings

MUNSAN, May 15 (Thursday)—(AP)—Communist truce negotiators stepped up their propaganda barrage Wednesday and said they insist on daily meetings. They still rejected the final Allied proposals for a truce. The Kojima Island kidnap case gave the Reds more propaganda ammunition on the red-hot issue of prisoner exchange. They no longer talked of a truce but filibustered against the Allied proposal. Allied delegates were prepared for more angry tirades at today's full-session at Panmunjom at 11 A. M. (10 P. M. E. D. T., Wednesday). North Korean Gen. Nam Il, chief Red delegate, said Wednesday the Communists would insist on continued daily plenary sessions unless the United Nations command "explicitly declares" it wishes to break off the armistice talks. However, his 20-minute speech made it clear the Reds aimed only at using the high-level meetings to give wider distribution to their propaganda charging mistreatment of Communist war prisoners. Nam Il quoted excerpts from a message sent by Brig.-Gen. Charles Colson to Red prisoners on Kojima Island Saturday to obtain the release of Brig.-Gen. Francis Dodd, who had been held hostage 78 hours. The Communist delegate charged Colson "openly admitted there has been bloodshed" and had promised the prisoners they could "expect human treatment in the future." The wording of Colson's message has been criticized by higher Allied authorities who emphasized that all the violence on Kojima Island had been instigated by the Communist prisoners themselves.

Maritime Bakers Annual Meeting

SAINT JOHN, N.B., May 14.—Maynard Larkin, St. Stephen, N. B., was elected president of the Maritime Bakers Association at the final session of the annual meeting. National Council representatives were re-elected as follows: Ben Moir, Halifax; F. N. Moyle, Saint John; L. A. Stewart, Charlottetown, and A. E. Cunningham, St. Stephen. The executive includes John O'Malley, Jr., Halifax, vice-president for Nova Scotia; Wilfred Kelly, Summerside, vice-president for Prince Edward Island, and A. H. Edgecombe, St. John's, vice-president for Newfoundland.

Declares Gold Mining Industry In Bad Shape

OTTAWA, May 14 (CP)—An Opposition mining expert today suggested establishment of a free gold market to prevent "extinction" of Canada's vast gold-mining industry and to stimulate international trade. Rodney Adamson (PC-York West), a mining engineer, said in the Commons that the gold mining industry is in a sorry state and government assistance is merely a "palliative, not a cure." "If the present trend continues," he said, "there will not be one straight gold mine in production five years from now." The International Monetary Fund had been a "costly failure" and Canada should withdraw or "Dance in Vernon River Hall, Monday, May 26th. Sponsored by C. W. L. "See 'Meet Me In St. Louis' with Judy Garland and Marjorie Main, in Kinkora Hall, Friday, May 16, 8:30 p.m. "Mt. Stewart Y. P. U. presents three-act comedy, 'M'liss My Western Missa', Friday, 16th, Winsloe Station hall. Sale of ice cream, cake. Auspices Highfield W. I. "Come to the barn dance in Morell Hall on Thursday night, May 15th. Lunches. Burn's Orchestra. Sponsored by St. Peter's Legion Women's Institute. "See Hazelbrook B. Y. P. U. present their three act comedy, 'The Dutch Detective' in Pownall Hall, Friday May 16. Good specialties, curtain 8:30. "Harrington Hall, Friday, May 16th, Cornwall concert. Singing and folk dancing, coloured slides of royal visit, festive week, Strathgarny, and MacMillan gardens. Auspices of W. I. "In reply to various enquiries we expect to be able to supply all the items we catalogue, for quite some time yet, and can handle mail orders promptly. For those who prefer to call in person, our store is open daily, also Monday and Thursday evenings until 9 p.m. Arthur Vesey.

Island Students Graduate At UNB

FREDERICTON, May 14 (CP)—An announcement was made today that 230 University of New Brunswick students will receive degrees in course at the annual convocation tomorrow. The list includes: Master of Science in Arts—Miroslav Spacke, Summerside, P. E. I. Bachelor of Arts—Florence Morrissette (Sister St. Frances Claire), Tryone, P.E.I.

CNR Official Excited Over B.C. Development

OTTAWA, May 14 (CP)—A C. N. R. vice-president painted an exciting picture today of the multi-sided developments that should stem from British Columbia's Kitimat aluminum project. S. W. Fairweather told a Commons committee that Kitimat should open a new window on the Pacific coast which would flow wealth to benefit all Canada. The committee gave approval to the C. N. R.'s proposal to build a \$10,000,000, 46-mile branch line into the remote northern B. C. village. However, A. W. Whittaker, Jr., vice-president of the Aluminum Company of Canada which is backing Kitimat's huge aluminum project, said "I got hell from my boss" for accepting one phase of the company's bargain with the C. N. R. for constructing the branch line. That is the guarantee the company has given the C. N. R. that rail revenue for the first 10 years won't fall below a set minimum. Mr. Whittaker said his company doesn't like it but had to take it because the C. N. R. insisted. "We're a private company spending millions on this project because we have faith in aluminum and in Canada," he said. "I wouldn't be surprised if this branch line turns out to be one of the most profitable moves the C. N. R. has ever made. So why should the C. N. R. and the government demand a guarantee. Why haven't they got enough faith in British Columbia to do this without one?" Earlier Mr. Fairweather predicted the guarantee will never be put into effect because this one should carry itself from the start.

Rapid Growth Of Crops In West

OTTAWA, May 14 (CP)—Continuing favorable weather has sparked rapid progress in spring seeding and threshing on the Prairies, the Bureau of Statistics reported today in a telegraphic report on Western crop conditions. WASHINGTON, May 14 (AP)—State Secretary Dean Acheson today gave notice to Russia that the Western Powers will stand firm in Berlin in the face of any new attempt to bring pressure on them by blockade or otherwise.

Upholds West's German Policy

LONDON, May 14 (Reuters)—Foreign Secretary Eden today upheld the West's German policy, rejecting Labor demands for a election. West Germany before the Germans are rearm. Opening a House of Commons debate on the European situation, Eden said it would be disastrous for Britain to make such a proposal to her Allies. "It would delay the whole structure of Western defence." It would, he added, sabotage work done for years to build up Europe's security. The German peace contracts and European army treaty, due for signature this month, would be held up until the fall or later. Pressing home his refusal to accept the proposal—made by the Labor Party national executive—Eden said the present German government is fully entitled to speak for the people.

Clark Repudiates Prisoner Deal

TOKYO, May 15 (Thursday)—(AP)—Gen. Mark Clark today announced that the agreement between Brig.-Gen. Charles F. Colson and Communist prisoners of war on Kojima Island "has no validity whatsoever." The agreement resulted in the release last Saturday of Brig.-Gen. Francis T. Dodd, a captive of the North Korean powers for four days. "General Colson's authority to deal with the prisoners in compound 76 did not extend to authority for him to purport to accept any of the vicious and false charges upon which the Communist demands were based," Clark said.

Admiral Bidwell Praises Smart Sea Cadet Corps

One of the "smartest" turnouts he witnessed in many years, was the remark of Admiral R. E. S. Bidwell, C.B.E., after his inspection on the local Sea Cadet Corps R.C.C.S. Kent last night. The Admiral inspected the Corps on the parade square and then took the salute at the base set opposite Simpson's store on Kent street. With the Admiral at the time were Sea Cadet Officer Commanding J. W. D. Smallwood, Lieut. Cmdr P. K. Wilkin, Capt. R. A. Wright, Lieut. Cmdr. J. J. Trainor, Officer Commanding H. M. C. S. Queen Charlotte, Lieut. John Richards, First Officer, and Lieut. J. Fulton, Officers commanding the Cadets were Lieutenants L. G. Grant, G. R. Breaux and J. Richard Hennessey. Admiral Bidwell said he was much impressed with both the bearing and the marching of the cadets here. And he remarked that everything on board the ship was "shipshape." In speaking to the boys he said that the new 14 destroyers being constructed would cost Canada less than the money spent on the Tribal Class destroyers, so famous in the past war. The Admiral told the boys something which every officer from time immemorial has recognized that "basic training is the most important part of a seaman's life." He was talking informally in the drill hall after requesting permission from Lieut. Smallwood. He also stated that the youngsters were joining a most important movement and in congratulating them on their performance expressed great pleasure in the attainments which they had reached. He said he was particularly pleased with Cadet Petty Officer Carl Riggs and drummer mascot 12-car-old R. Mills. While the inspecting officer would make no comparisons he left the impression that the local boys compared more than favorably with other Corps he had watched recently. In addition to the inspecting staff Mr. J. J. Morris, President of the Sea Cadet League, was present at the ceremony.

Does Not Believe Western Beef On Quebec Market

QUEBEC, May 14 (CP)—Dr. J. M. Veilleux, chief veterinarian of Quebec Province, said today he is not inclined to believe reports of a "grey" market in meat operated by western wholesalers reported to be sneaking Western meat into Quebec. Dr. Veilleux, who applies the permit system instituted by Quebec following the initial outbreak of foot-and-mouth disease in Saskatchewan, said complaints were received at his department some time ago to the effect that western beef was coming into Quebec under the guise of Ontario beef. Dr. Veilleux said: "We investigated and found the complaints to be unfounded." Quebec's chief veterinarian said Quebec still is getting most of its beef from Ontario wholesalers who have permits required by the order in council which regulated meat imports into the province last February.

Canadian Troops Due From Korea

OTTAWA, May 14 (CP)—The largest contingent of Canadian troops to sail for home from Japan is due this week-end in Vancouver, the army said today. The contingent of 1,136 troops sailed from Japan May 8 aboard the United States ship Pvt. Munrom. A second contingent of 1,097 troops sailed this week aboard the U. S. N. S. Gen. Buckner for Seattle.

19-Plane Fleet To Spray Forest

YAKIMA, Wash., May 14 (CP)—A 19-plane fleet is being organized here to spray a pulp forest in New Brunswick in the province's fight against spruce budworm. R. B. Allison and C. E. Henderson, chief pilots for a Yakima Air Service, are en route to Canada to arrange gas stops. A. L. Baxter, firm president, said the other planes will leave May 20 on the 3,000-mile flight which is expected to take one week. With good weather, the actual spraying can be done in five days.

Dysentery Outbreak Hits Bordeaux Jail Prisoners

MONTREAL, May 14 (CP)—Four convicts in Bordeaux Jail, scene of a two-day riot 10 days ago, are reported in "fairly serious" condition from an outbreak believed to be dysentery. Dr. Zenon Lesage, governor of the big jail on the outskirts of Montreal, said today the illness, which affected more than 100 prisoners, developed Monday and Tuesday. All but four of the convicts have recovered, he added. The prisoners rioted because they said meals were unpalatable. One jail official said the outbreak possibly was caused by "too much good food." The ailment said to resemble dysentery, affected 30 of the 600 prisoners in the jail proper and 75 to 80 of the 800 patients in a mental wing operated in conjunction with the jail. All were treated in the jail hospital. Dr. Lesage said the cause of

Dr. William Penney To Direct UK Atomic Tests

LONDON, May 14 (Reuters)—A modest Briton who turned down an offer of \$42,000 a year to work for the United States on atomic research will direct Britain's first atomic-weapon tests this year. He is Dr. William Penney, chief superintendent at the Ministry of Supply. Experts say his is one of the few top minds in the world on atom and hydrogen-bomb research. He will head the expedition which, the Government announced today, will take place on the Monte Bella Islands, off Northwest Australia. Penney worked at the Los Alamos laboratories in New Mexico from 1944 to 1945 on the U. S. atom bomb. At the first Bikini atom test he hit his "Rube Goldberg"-like contraption to measure blast, heat and atomic rays against one designed by U. S. scientist. It is reported that the American instruments failed. His worked. When the offer of a job with a salary five times the £3,000 Britain pays him came, Penney

Dr. William Penney To Direct UK Atomic Tests

turned it down. As head of the British atomic project he favors full-scale atomic partnership between Britain and the U. S. Last October it looked as if he was getting his way. Some congressmen were reported pressing for a fuller exchange of information between the two countries and Penney set off for Washington to make a deal. The U. S. offered Britain her testing range, but the offer was turned down. Britain, probably with something up her own sleeve in the atomic field for the first time, decided to make her own tests in Australia. The apparatus Penney will operate on the barren Monte Bello Islands will be modest but ingenious. He claims the tests will be just as efficient as the big-scale American experiments. Two British ships now are unloading equipment at Monte Bello. Three more are due this summer. The Government has refused to explain the exact nature of the tests, whether bombs or some smaller weapons will be used.

Halifax Forecast Issued Tonight

HALIFAX, May 14 (CP)—Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight Thursday. Synopsis: A weak low pressure area is moving slowly eastward across Nova Scotia, and Thursday a light westerly flow of slightly drier air should cover the district. Mostly cloudy weather is forecast for the Maritimes on Thursday. Forecasts: Prince Edward Island—Cloudy with a few clear intervals. A little warmer. Light winds. Low and high Thursday at Charlottetown 36 and 58. High tide today at Charlottetown at 3:12 a.m. and 2:15 p.m. High tide on the North Shore at 9:20 a.m. and 11:04 p.m. Sun rises today at 4:44 a.m. and sets at 7:35 p.m.
