

Killing Tops Darkens Chips

OTTAWA, — While it is often desirable to kill potato tops with a chemical top killer to facilitate harvesting, this practice may have an undesirable effect on the chipping quality of the tubers.

D. C. MacKay and G. W. Hope of the Kentville Experimental Farm, noted an apparent change in starch-sugar metabolism of the stored tubers and a darkening in color of resulting chips.

A test was carried out on Nettle Gem tubers from two similar fields, one of which was killed with sodium arsenite while green while the other was allowed to die naturally.

Tubers harvested from both fields were accepted by a commercial chip plant and made satisfactory chips. However, after storage at 43-45 degrees F. for five months and reconditioning at 70-75 degrees F. for two weeks, tubers from the killed field made dark unacceptable chips, while those from the untreated field remained of excellent color and quality.

It seems that though tubers from the field contained little reducing sugar at harvest, after storage and conditioning they showed a high concentration of sugar, which is known to be associated with browning. Tubers from the field which died naturally had slightly more reducing sugar at harvest but considerably less after storage and conditioning.

Consumer Debt Shows Increase

OTTAWA (CP)—The Canadian consumer debt appears to be rising again after a slight decline earlier this year.

The debt owing department stores, instalment finance companies and small loan companies from \$1,379,000,000 in May, the Bank of Canada reported Friday.

IN MEMORIAM

MRS. JAMES N. MUTLOW

There passed peacefully to her rest on Wednesday, July 23rd, 1958, at the home of her sister, Mrs. Perley Drake, Millview, P. E. I. Mrs. James N. Mutlow, in her ninety third year, formerly of Charlottetown.

Mrs. Mutlow was the former Maria Jenkins, daughter of the late Mr. and Mrs. Benjamin Jenkins, Birch Hill, P. E. I. was well and widely known a woman of true Christian character with a high Christian outlook upon life.

Mrs. Mutlow was a life-long consistent and steadfast member of the Church of Scotland in P. E. I. and her voice was often heard in the sanctuary, giving praise to her Saviour for His redeeming love and grace; and accordingly, she lived and worked for the cause so dear to her.

There are left to mourn her passing one sister, Mrs. Perley Drake of Millview, P. E. I. and one brother, Abner Jenkins of Worcester, Mass., nieces and nephews, and a host of relatives and friends.

The funeral which was largely attended was held on Friday, July 25th at Birch Hill Free Church of Scotland Services were conducted at the church and the grave by her pastor, Rev. J. H. Bishop. Interment was in the Church cemetery.

The pallbearers were Gordon Mutlow, Gordon Myers, Perley Drake, Donald Drake, Lorne Drake and Wendall Drake.

CARD OF THANKS

The family of the late Mrs. Mutlow wish to thank all who sent flowers, purchased "Bibles in memory" through the Gideon Society, sent letters and cards of sympathy.

Last March the total credit bill declined to \$1,343,000,000 from \$1,379,000,000 in February and \$1,347,000,000 in January. Since March the debt has been rising.

Wheat Crop Is At 11-Year Low

OTTAWA (CP)—Canada's wheat crop will drop to 2,000,000 bushels, second lowest in last 11 years, the bureau of statistics forecast Friday.

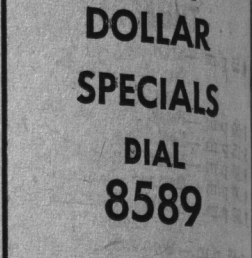

In the first forecast of the season, the bureau placed the Prairie wheat crop at 312,000,000 bushels, about 10 per cent below last year's crop of 349,000,000 bushels, about 33 per cent below the 10-year average of 465,000,000 bushels.

Architect Suggests Court Action If He's Sidetracked

OTTAWA (CP)—Architect Ernest Cormier Friday hinted at the possibility of court action if the government hires another architect to make a proposed \$700,000 air conditioning installation in the government printing bureau.

Testifying before the Commons public accounts committee, the designer of the \$16,000,000 building said he has not been consulted about the new job and added, "that's the trouble."

The 72-year-old Montreal architect suggested that under Quebec law—the controversial building is in nearby Hull, Que., he could take court action if another architect were used because he has not been fully paid for his work.

The federal government has withheld \$60,000 of his \$528,000 fee because of complaints about the air conditioning system.

Parliament recently voted \$700,000 for improving the building's air condition system, on which about \$500,000 was spent originally.

Mr. Cormier reiterated in his evidence Friday that he initially wanted to install an enlarged air conditioning system at a cost of \$178,000 additionally, but that this sum was turned down by the public works department of the previous Liberal government on economy grounds.

GETS STUCK IN 10-GAL. CAN

HOPKINSVILLE, Ky. (AP) Carl McCain made a special delivery in the truck he uses on a commercial milk route.

He sped the seven miles from his home to a local milk plant, carrying a single 10-gallon can. Firmly wedged inside—feet first—was McCain's four-year-old daughter Deborah Faye.

Workmen freed her with hacksaws and metal snippers. She had stepped into the can earlier while playing on the truck. She was able to get her head—but not her shoulders—above the neck of the can.

"She was plenty scared until I got her an ice cream cone," McCain said.

Britain's Credit War Warming Up

LONDON (Reuters)—Britain's cut-rate credit war warmed up Tuesday as Barclay's, one of the biggest banks, announced a personal loan plan.

Banks, instalment-buying firms and retail stores are outbidding each other in a battle to get a bigger share of the annual \$500,000,000 (\$1,400,000,000) time-payment market.

Barclay's is the third of the five biggest banks to announce consumer loans of up to \$500 without security—a new departure in Britain.

night. Streets in the area were finally cleared early next morning. (AP Wirephoto via radio from London.)

IN MEMORIAM

MRS. JOSEPH WILSON

On Friday, May 23, the vicinity of Goose River and surrounding districts was deeply saddened when it became known that God had chosen from their midst, the soul of Mrs. Joseph Wilson. Only that morning she had been taken to the Charlottetown Hospital, but despite all that medical skill could do, she peacefully passed away.

Janie as she was familiarly known, was born at Selkirk, sixty-one years ago. She was the youngest daughter of the late Allan and Mrs. MacInnis.

In 1916 she married Joseph Wilson and took up residence at Goose River, where she worked untiringly with her husband to build up an excellent home and bring up a family of twelve children.

In her home, she was a perfect wife and mother; always there to administer to the needs of her family. Her quiet lovable disposition and kindness to all who knew her, will long be remembered.

Endowed with a true Christian spirit, she was rewarded in the end by receiving the last Holy Sacrament of the Roman Catholic Church, of which she was always a devoted member.

Her funeral on Sunday, May 25, from the A. A. Hennessey Funeral Home, to her late residence, and again on Tuesday, May 27 to St. Peter's Church, was largely attended. Requiem High Mass was sung by Rev. George Macdonald parish priest. Rev. Joseph McLeod and Rev. B. J. Macdonald were present in the Sanctuary.

Then all that was left of a devoted wife and mother and an esteemed friend was laid to rest in St. Peter's cemetery.

Her pall-bearers were her six sons, A. J., Frank, Dan, James, Alex, and George Wilson. Another son Eugene was present.

She leaves to mourn, besides her sorrowing husband, these seven sons, also five daughters; Mrs. Earl McKenna, (Jeanette, of Charlottetown); Mrs. Joseph McCormack, (Mary), Mrs. John J. McCormack (Bertha), Mrs. Peter McDonald (Annie); all of St. Margaret's, and Geneva at home.

Two brothers, D. J. McInnis in Selkirk, and James McInnis in Western Canada, also two sisters, Mrs. Aenais Morrison of St. George's, and Mrs. George Monaque of Medfield, Mass., are left to cherish the memory of their loving sister.

To all those, their friends offer sincere sympathy.

POTATO GROWERS

Due to the appearance of severe Blight in potato tubers in some areas and because of the danger of these potatoes getting away in export shipments and thus injuring our future sales, a ten-day holding period prior to shipment is imposed, effective immediately. Exemptions may be granted where the grower has applied a sufficient number of sprays and can satisfy our Inspectors that there is no evidence of Blight in field prior to harvesting
