

DO NOT WASTE WINTER FOOD ON OLD OR INFERIOR STOCK.

(From the American Stock Journal) Every farmer's motto, in regard to stock, should be—Keep the best of each variety, and take the best care of it.

This is a matter that needs looking into for thousands of farmers, who, in the winter, would be worth more money than the animal in the spring than they were in the autumn—many of them not so much.

A poor farmer cannot afford the best of each variety, but he can afford to keep the best of each variety, and take the best care of it.

MANAGEMENT OF COWS IN WINTER

(From the American Agriculturist) A correspondent of the Agriculturist inquires: "When cows are stabled in winter, how long should they be allowed to remain in the yard during the day?"

Can the cows—One would think that any kindhearted man, when he sees how grateful the operation is to a cow, would be willing to spend a few moments daily in caring for her.

CARE OF YOUNG STOCK IN WINTER.

All kinds of young stock are tender and require more protection and more care than older ones. Calf that have been weaned in the fall should be stabled at night and sheltered from the wind.

THE OLD WELL SWEEP.

Without discussing the relative merits of any one of the old well sweep and the others, it may be said that a love for what is old and good and picture que in the landscape, first inclined the writer to regard the well sweep with favor, especially when it was associated with the mossy bucket company.

INK! INK! INK!

CARTER'S COMBINED WRITING & COPYING INK! THIS COMBINATION INK has been awarded the HIGHEST PREMIUMS over all others in the United States, and pronounced by the most celebrated Chemists the best Ink ever offered to the public. It is used by many of the largest Commercial Houses, Banks, Railroads and other Corporations and gives perfect satisfaction. The Advantages of this over other Inks are: First—It flows freely from the pen, and does not thicken by exposure to the air. Second—It will give a perfect and instantaneous copy. Third—It will not smudge. Fourth—Being equally as good for Copying as for Book keeping, it entirely does away with the use of two kinds of Ink. Fifth—It is more permanent than common Inks. Sixth—The color, when first written, is a beautiful dark green, but in a remarkably short time it changes to a rich, deep black—not a brownish black. SEVENTH—It is admirably adapted to the most delicate writing, and always "makes its mark." This Ink is warranted to flow as freely as any other Writing Fluid now in use; to give a perfect copy on any Copying Ink; and not to smudge. It is for sale at HARVIE'S BOOKSTORE, Queen Street Oct. 26, 1868.
