THE market to-day was well attended, and well stocked, and prices unchanged.

It is expected that the Calcutta Gathering will take place this year in the grounds adjoining the Drill Shed.

THE euphonious way to speak of obstructionists is, "the group of members whose conduct is incompatible with the elementary conditions of parliamentary life."

GARDEN strawberries sold in the market to-day by Mr. Gay, of Powal, and Mr. Bourke, brought 20 cents per quart. Wild strawberries sold at from 14 to 16 cents.

"I please me to state that St. Jacobs Oil cured my father of chronic rheumatism. Many others in our section have been cured by this most wonderful liniment," writes Mr. G. O. Couvillon, P. M., Couvillon, La.

PROF. OLIVER KING, pianist to H. R. H. the Princess Louise, was thrown from a bicycle at Ottawa lately, injuring his right fore arm, besides dislocating the elbow and bruising his left arm. His injuries will prevent his playing for the summer.

GOOD progress has been made in the construction of the Nova Scotia Steel Works at New Glasgow. The manager is at present in England, visiting the different steel works of the old country, and negotiating for the purchase of the rolls and other machinery.

METHODIST EPISCOPALIANS at Sterling and at Embro have just built churches, and are to be congratulated on the fact that the entire expenditure involved in the construction of the edifices is subscribed, and the congregation are not saddled with mortgages. Surely the millennium must be drawing near.

A GRADUATE in an Iowa College, said in his highly polished valedictory, "Journalism is the grave of genius." The Philadelphia News calls this an unhappy simile, and says that Journalism is not a grave but a sieve over the well, and the little geniuses soon fall through. Only the big one remains on the top.

DIPHTHERIA—This dreaded and fatal disease is now quite prevalent in the vicinity of Rollo Bay and Bear River Line Road. Several deaths have already occurred. Closing of the schools, together with other precautionary measures, it is hoped, may stay the further spread of the contagion.

A YOUNG man named Addison was the lover of a young Pennsylvania lady, and Garland, gaining the ear of the fair enchantress, said that Addison was a confirmed flirt. Addison, heard of the base calumny and demanded pistols. A few days ago Garland proved his fidelity by murdering his rival, after each had fired five shots.

THERE are five libraries in the United Kingdom which are entitled, under the Copyright Act, to a copy of every new book as it appears. These are—the British Museum; the Bodleian Library, Oxford; the University Library, Cambridge; the Advocates Library, Edinburgh; and Trinity College Library, Dublin.

EVERY farmer should have one of Hick's Champion Creameries. It is the easiest and most economical means of producing good butter. It will raise the cream in a very short time, leaving the milk sweet and fit for family use. Call and see them at R. K. BRACE'S. [July 21 wky]

ACCIDENT.—A carpenter named Rodd, belonging to P. E. Island, fell against a board at Mr. C. A. Stevens' new house on Botsford street this morning, striking on his abdomen, and being badly stunned. It was some time before he was able to go to his boarding house, and then he had to be assisted. The injuries were so serious that Dr. Baxter was called in attendance.—Moncton Times.

The New York World congratulates itself on the part it took a year or so ago in promoting the removal of the great Alexandria obelisk to New York. It says the "venerable and interesting monument would have been in the direct line of the fire of the British squadron, and it, doubtless, would have shared the fate which seems to have overtaken the whole city."

DURING the Strawberry Festival, at the Drill Shed, many persons found much pleasure in standing upon the bridge, in order to enjoy the cool breezes. At one time the strain on the slender railing was too great, and a gentleman found himself somewhat suddenly precipitated into the Governor's Pond. He was none the worse for the immersion, but we cannot say as much for the broad-cloth.

We are pleased to learn that our young friend, Wm. S. Stewart, of Peters & Peters, has passed a highly creditable examination, and has been duly admitted as an Attorney of our Supreme Court. In the spring of 1878 Mr. Stewart graduated in Arts in McGill University, taking off the Classical Gold Medal of his year. Since that time he has been a diligent student in the office of Peters & Peters of this city, has now passed the above named creditable examination, and we predict for him a bright and successful career.

OSCAR WILDE is now recommending women to return to the simple dress of former days. What a delight this will give to the hearts of impecunious fathers, and what an ease to the purse of husbands blessed with fashionable wives? Surely the family man would do anything to gain such a blessing. He would wear knee-breeches, strike a stained glass attitude, survey for hours the sunflowers, if, eye-daisy with a medieval pose. In fact, he would do anything to rid him of the inevitable dressmaker.

THE steamer "Worcester," Capt. Hedge, sailed for Boston, on Thursday evening, with a cargo of produce and the following passengers: L. W. Cormack, Miss Maggie Graham, John L. Burhoe, James Rapsom, Edward Rapsom, Miss Mary McKinnon, Miss Rebecca Young, Mrs. Frank Conroy, George Hicken, Angus McKenzie, John D. Gillis, John F. Cumming, Miss A. McKinnon, Miss Edith McKinnon, Mrs. George McKinnon, Angelina McKinnon, Miss Betsy McKinnon, Miss Jane McLeod, Neil McNeill, Thomas Iman, Miss Sarah Music, Mr and Mrs Smith.

DROWNED.—A sad case of drowning occurred at Rollo Bay, one day last week. A young man about seventeen years of age, named Chaisson, son of the late David Chaisson, after his days work was over, went bathing at the mouth of the harbor. Not returning, his friends became alarmed, went in search, but failed to find him until the following morning, when his lifeless body was discovered in a deep hole, near the end of the old Breakwater. His clothes was found on a log close by. It is thought that, while in the act of bathing, his feet became entangled in the long sea-grass growing in the hole where his body was found, and unable to extricate them, he thus perished.

THE SCOT ACT.—At the Stipendiary Magistrate's Court this forenoon Messrs. John Bolger, Angus McDonald and J. Byrne, each appeared, in answer to a charge for selling liquor contrary to the provisions of the Canada Temperance Act. Mr. McDonald confessed to a breach of the Act and was fined \$50 and costs; but there was no evidence that Messrs. Bolger and Byrne broke the law. The cases were therefore dismissed.

POOR General Butler cannot protect his strongly marked physiognomy from being copied by his fellow men. A baking powder firm, in the enterprising city of Chicago, sent out hundreds of brilliantly illuminated posters, representing the General in the act of kneading dough. Notoriety of that description did not please the General, so he asked the Grand Jury to indict the offending firm for libel. After mature deliberation they declined to do so, consequently the striking face is still to be represented as kneading dough.

Poplar Grove Notes.

On Sunday evening, the 8th instant, the Rev. Mr. Archibald, Baptist Minister, preached an excellent sermon to a large audience in the school-house. He took for his text Corinthians I, chap. 3. In chaste and elegant language he dealt some hard blows against all sinners, but especially those who use the intoxicating cup.

On Friday evening last a large bear entered the garden of James Henderson, J. P., our most efficient and obliging postmaster. Mr. Henderson and some of his family were about; but a boarder, named John Kelly, hearing a terrific noise, went out, armed with an axe, and, with the assistance of three dogs, succeeded in driving the animal away. A number of our young men are turning their attention to the best means of giving him a speedy transition from this sphere.

Poplar Grove is the name of a thriving little settlement situated midway between Ellerslie and Conway, on the lines of Lot 11 and 12. It was, a few years ago, almost uninhabited, but to-day it has a Sunday School, and occasional preaching. A day-school has been in existence for the last eighteen months; but the teacher having removed to an adjoining district, there is now an opening for some one of the profession to expand his energies in trying to train the youthful mind of this vicinity.

THE HOUSEHOLD

The Handsomest, Most Complete, and Finest Finished Sewing Machine Ever Invented. READ THIS!

THE manufacturers claim for the "Household" that it has been perfected in all its details by some of the best mechanics in the country, who, with unlimited resources at their command, have devoted years to its construction, and have produced a Machine combining more good points than ever before presented for public favor.

The Providence Tool Company has had great experience in producing fine interchangeable work. All the parts of the "Household" are made with the utmost care, and subjected to a thorough inspection with gauges before being assembled. Among the features which recommend the "Household" are the following:

It has a high arm, giving ample room for any kind of work.

It is the easiest running shuttle machine ever made.

It is almost noiseless.

It has a large cylindrical shuttle of great simplicity, being open at one end; thus allowing the bobbin to be readily inserted without displacing any of the parts. The bobbin holds an extra large amount of thread and runs loose in the shell, without spring centres or point bearings, insuring an even and uniform tension.

It has a loose balance wheel attachment for filling the bobbin without running the machine, and the balance wheel is nickel plated.

All running parts of the machine subjected to wear are made of cast steel, hardened, thereby insuring great durability. Its believed the "Household" is the finest finished machine ever offered to the public.

It is provided with a complete outfit of Attachments for doing all the different kinds of plain and fancy work.

The Cabinet Work is in the most thorough manner, and is built up of perfectly seasoned lumber, so it is not liable to warp or crack. It has a handsome gothic-top, French-finish cover, and presents a neat and attractive appearance.

The treadle works very easy, being set on anti-friction bearings, which never need oiling. This saves the carpet from dirty grease spots so often found under other machines.

The stand is on four casters, so the machine can easily be moved for sweeping, or convenience of position.

For terms, etc., apply to MRS. JOHN P. IRVING, North Side King Square.
