

ISLAND DELEGATE

While attending the National 4H Club Congress in Chicago, Allan Forbes (left), of Prince Edward Island, sees how scientists study the effects of climate on crops. Explaining the study to Forbes, a graduate of a 2-year diploma course at the Truro Agricultural College, is Dr. G.E. Richards of International Minerals and Chemical Corporation. The chemical fertilizer materials producer was the sponsor of the first all-Canada delegation to the Congress.

County Gets Extra Snow

The thought November had been a pleasant month was confirmed yesterday when Warren Burns, Experimental Farm weather observer, noted there had been just a bit more precipitation but also there had been a few more hours of sunshine. Last month saw a total precipitation of 5.12 inches compared to the November average of 4.09 inches; it also brought 84.6 hours of sunshine, about nine more than the average. The warmest day last month was Nov. 4 when the thermometer hit 35 degrees, the coldest was Nov. 11 when it dropped to 18 degrees.

The mean temperature for the month was about three degrees below average at 34.2 and the average standing at 37 degrees. A report from the meteorological branch of RCAF Station Summerside shows that that area had 2.95 inches of rainfall last month. Normal rainfall for the month is given as 4.19 inches. The area, however, had more than its normal amount of snowfall for the month with 13.8 inches recorded. Average for the month is four inches.

The highest temperature recorded for the month was 54 degrees on Nov. 4 and the lowest was 20 degrees on Nov. 21. Maximum wind speed for November was 60 miles per hour recorded on Nov. 14. This speed was the maximum recorded for one hour. Highest average speed, which was 27.7 miles per hour was on Nov. 23.

Former City Girl Hurt In Accident

Word has been received by Mr. and Mrs. Stan Bowles, City, that their daughter and son-in-law, Mr. and Mrs. Jim Carnegie of Slave Lake, Alberta, were recently involved in a highway collision near their home. The accident is reported to have occurred when their car encountered a dense fog and smoke bank which forced traffic to crawl along at about 10 to 15 mph. Shortly after entering the fog bank their car was struck by another vehicle. Both Mr. and Mrs. Carnegie suffered facial lacerations, and their son, George, suffered a sprained leg, but their daughter, Polyanna, escaped unharmed. None was confined to hospital. Mrs. Carnegie is the former Carol Bowles of Charlottetown.

Films On UN To Be Shown

The second general meeting of the 1965-1966 program of the P.E.I. branch of the United Nations Association will be held this evening in the theatre of the National Film Board, Dominion Building.

The general public is invited to attend this screening of four films dealing with the work of the United Nations and related topics.

Two of the films deal with the work of UNICEF in various parts of the world. 'Boys' Adventures In Asia' featuring a popular television clown, is a dramatic and colourful tour of six Asian countries. A second film, a 20-minute puppet film in colour, produced in Norway for UNICEF, is a film about the conditions of children in developing countries. This puppet type

of film offers a third dimension to the ordinary dimension, and animation of flat drawings.

The third film is a new release of the National Film Board of Canada entitled the International Court of Justice. It covers such topics as the constitution of the court and several illustrations of the kind of disputes it has been asked to settle. The final film has a Canadian setting, and is the story of two children for whom a difference in language is no barrier once the first moves are made. In the film 'The Boy Next Door' they overcome in their own way what is to them just an incidental barrier to understanding. The films will be shown at 8 p.m.

Credit Unions' Charters Voided

"Cancellation of charter" notices for 11 Credit Unions in the province does not mean the Credit Union movement is in trouble. Actually it is expanding satisfactorily, it was learned yesterday from Joseph Gaudin, manager of the P.E.I. Credit Union League. The fact that such organizations as Lot-47 Credit Union Ltd., Little Pond Credit Union Ltd., and the nine others are having charters cancelled means simply that the unions "never got off the ground" when they were organized some years ago. But the people who invested money in them will have their investments returned 100 percent, Mr. Gaudin said. A stabilization fund at the league headquarters looks after that sort of development, Mr. Gaudin explained.

The Credit Unions in this province will report an increase in assets of more than \$500,000 this year, Mr. Gaudin stated. One Credit Union in the province has passed the half-million dollar mark in total assets, and "we have quite a few that have passed the one-quarter million dollar mark in the province," he added. Credit Unions in Canada have total assets of two and one-quarter billion dollars, he added.

ASSURE STAGE SUCCESS

LONDON (Reuters)—A ticket guarantee of £225,000 (\$675,000) for Helle, Dolly, the Broadway musical which opened at the Theatre Royal, Drury Lane, last Thursday, was announced Monday. Peter Cadbury, chairman of Keith Prowse and Associated Ticket Agencies, making the announcement, said it was a record guarantee for an initial amount and covered only the first 26 weeks of the show.

Call us for programs, club bulletins, business letterheads. All work guaranteed.
