

IN THIS CORNER

Swimming And Boating Are Healthful Sports But . . .

Summer on Prince Edward Island is the most enjoyable season of the year. Almost everyone looks forward to it as a season when the cold of a long winter is forgotten and the unpredictable climate of spring is supplanted by more and more days of hot sunshine.

Citizens of just about every community flock to the golf courses, tennis clubs, and beaches to engage in the healthful outdoor sports denied them during the cooler months and head for the beaches to soak up some of that sunshine or perhaps to get a bit of relief from it with a dip in the ocean or a boatripe over the rolling surf. Not much in an accident can happen on tennis courts or a golf course unless a player might get hit in the eye with a tennis ball or scratch an arm while looking in the woods for a golf ball. However, the beaches are something else again. Beaches can be and often are sources of serious accidents—even tragedy.

The weatherman has predicted a heat wave for the Maritimes. It will likely last over the weekend and will undoubtedly relieve many residents to seek the relief of one of our many beautiful beaches. This would seem to be a good time to remind swimmers and boaters that swimming and boating can be a source of death and turn what begins as a weekend of healthful outdoor exercise and pleasure into a tragedy. Warnings are never welcome. They take the edge off the expectation with which people are looking forward to a few days in

the open. They may not be welcome but they most certainly are necessary—to save lives.

The Canadian Red Cross Water Safety Service has issued a list of don'ts for boaters and swimmers which should be read carefully and remembered. In fact it might be a good idea to cut the clipping out and hang it in your car or someplace where it will be handy for quick reference and where it will be readily available for a look-see before you embark on a weekend at the beach—in or on the water.

FOR SAFE SWIMMING

- DON'T swim alone.
- DON'T swim at unsupervised swimming places.
- DON'T dive into unknown water.
- Rocks and branches may be hidden.
- DON'T swim after eating. Wait at least two hours.
- DON'T swim when overheated. Cool off gradually first.
- DON'T swim when overtired.
- DON'T swim too far from shore.
- Swim parallel to the shore.
- DON'T swim until you become exhausted, particularly if the water is cold.
- DON'T swim after dark unless thoroughly familiar with the swimming area; know it is safe, and have a "buddy" for company. Stay close to shore.
- DON'T panic if you should get into difficulty. You must think clearly if you are to do the right thing.
- DON'T "duck" or push bathers into water. Playfulness may cost a life.

FOR SAFE BOATING

- DON'T go out in a small boat unless you are a swimmer or are wearing a life preserver.
- DON'T overload any boat, large or small.
- DON'T use any boat that is not completely seaworthy.
- DON'T go out in a boat in stormy weather.
- DON'T stand up in a boat or canoe.
- DON'T change places in a small boat.
- DON'T leave a boat if it capsizes. Cling to it until rescued.
- DON'T attempt to swim ashore.
- DON'T use home-made rafts or logs as boats.

WATER SAFETY WEEK IS NEXT WEEK.

PROBABLE PITCHERS

NEW YORK (AP) — Probable pitchers for today's major league games (and lost records in parentheses):

National League
Cincinnati at New York (N) — Lawrence (7-0) vs Antonelli (3-5)
Milwaukee at Brooklyn (N) — Burdette (4-3) vs Maglie (1-0)
Chicago at Philadelphia (N-2) — Hacker (1-5) and Kaiser (1-0) vs Rogovin (2-3) and Simmons (2-5)
St. Louis at Pittsburgh (N) — Wehmeier (2-5) vs Kline (5-4)

American League
Washington at Chicago (N) — Wiesler (2-2) vs Pierce (8-2)
Baltimore at Kansas City (N) — Moe (5-4) vs Kretlow (3-5)
Boston at Detroit (N) — Porterfield (2-5) vs Gary (4-6)
New York at Cleveland (N) — Kucks (7-3) vs Garcia (4-6)

Brown Signs To Coach Hamilton

HAMILTON (CP)—Gerry Brown 39-year-old former National Hockey League forward has signed a two-year contract to coach Hamilton Cubs.

Terms of the pact have not been released.

He will also act as manager of the team and will help set up a farm system for the OHA Junior A Cubs in Hamilton.

With Detroit Red Wings, Buffalo Blues, Indianapolis Caps and Hershey Bears for most of his pro career, Brown will move to Hamilton and work full time on hockey.

Remember When

BY THE CANADIAN PRESS
Lefty Grove was earning fame in the International League 33 years ago today when he pitched Baltimore Orioles to a 10-0 victory over Toronto Maple Leafs. He went to Philadelphia for a reported \$100,000 in 1923 and with the Athletics was the American League's champion pitcher for three consecutive seasons starting in 1920, and again in 1933 and

SKEET AND TRAP SHOOTING

CH'TOWN GUN CLUB

It's still early in the skeet season and scores haven't quite reached their maximum yet but Charlottevian gunners are showing a real active interest in the sport and during the past week some very creditable scores were posted. Shooting took place on Monday and Thursday evenings as usual. Top honors for the week went to Ron Atkinson who posted a 25 out of 25. In runner-up was Hughie Simpson with a 24; the rest of the field following in close succession.

Number two field is expected to be in operation early next week and more gunners will be able to be handled each evening. If you are a novice at the sport or ever have never seen it done, why don't you drop out and watch the top runners in action. You'll be convinced its one of the finest sports in the world today, and incidentally, one of the fastest growing.

President Ollie Harper of the Maritime Trap and Skeet Association has everything rolling for the Maritime Championships which will be held here in Charlottevian on Labor Day. The largest entry in history is expected and the Charlottevian Gun Club is going all out to make it a top-notch shoot.

Following are the results of this week's shoot in the top six shooters:

Possible 25—	Score
Ron Atkinson	25
Hugh Simpson	24
Walter Carver	23
Gil Houston	23
Glydon Willis	17
Bob Hyndman	16

Selke To Move Kitchener Canucks To Peterborough

MONTREAL (CP) — Managing director Frank Selke of Montreal Canadiens hockey organization said Thursday that, subject to successful outcome of pending arrangements, the Junior Canucks will move from Kitchener and make Peterborough their home next season.

Selke said that Sammy Pollock, director of the junior team organization of the National Hockey League Canadiens, met in Toronto Thursday with the Ontario hockey association.

"About a dozen cities have asked us to locate with them our junior teams—either the Montreal Canadiens juniors, who will move to Ottawa, or the Kitchener Canucks.

TIPS ON GOLFING

Down Swing Arm Positions

TOURNAMENT PRO Billy Maxwell shows good form, particularly in keeping his right elbow close to his body during the downswing. This allows the left arm and hand to keep the club moving in the proper plane.

By ALEX MORRISON
Central Press Canadian Golf Columnist

The most successful golf swing finds the clubhead moving in the proper plane. As you consider this statement the suggestion of swinging in a groove is quite obvious. However, I would have you make a definite distinction between the terms "plane" and "groove."

Loosening the muscles in your right shoulder, arm and hand helps to keep your right elbow closer to your body.

Only the words "proper plane" can be used to accurately describe the requirements of the consistently successful golf swing. Remember that a groove may run in any direction.

Simply on the basis of grooving your positions and movements you can form strong habits of doing many things wrong. On the other hand only a close approximation of the correct positions and movements will enable you to swing your clubhead in the proper plane.

With this in mind you should save today's illustration and study it well. Billy Maxwell's alignment in the downswing and at impact, when his clubhead strikes the ball, affords an exceptionally good study of arm positions in their relation to the plane of the swing.

Where Maxwell is shown a little more than halfway down to the ball it is clear that his right elbow is close to his body, also that his fully extended left arm is away from his body and keeping the club in the plane.

Much of the safe relative position of the arms is shown in his position as his clubhead whips through the ball. With most players at this stage

BRISTOL, England (AP)—Althea Gibson, her sights set on Wimbledon honors, smashed her way into the semi-finals of the West of England lawn tennis championships Wednesday with her fourth straight win of the tourney.

The 22-year-old New Yorker eclipsed Britain's young Ann Haydon 6-3, 6-4 in a neat display of thundering volleys and efficient net play.

She next meets Mrs. Jennifer Hoad of Australia and is favored to win.

In her second match of the day, Althea partnered Daphne Seeny, of Australia, to win a second round doubles match 6-3, 6-4, from a French combine.

IN BIG 4 FOR 4 TRADE

Schoendienst To Giants; Dark To St. Louis Cardinals

ST. LOUIS (AP)—Red Schoendienst, Mr. Redbird himself, went to the New York Giants Thursday in a four-for-four trade which brought veteran Alvin Dark to the St. Louis Cardinals.

The 33-year-old Schoendienst, a veteran of 12 seasons with the Cardinals, took the news of the trade in the same stoic manner he plays second base.

"That's the way the ball bounces," he said. "I'm the type of ballplayer who could go out and make five errors in a row and the fans wouldn't be mad at him. But then again Dark is good, too."

Lane said he will use Dark, who is also 33, at shortstop, switching rookie Don Balingame to second, his natural position.

"We felt that without defence on our infield we couldn't call ourselves a contender," Lane said.

Lane said that Dark wasn't the "great ball player he was five

years ago" but he still would improve the Cards at shortstop. Lockman will go to first, replacing Wally Moon who will play the outfield.

Lane said he was sorry to give up young Brandt, 1955 rookie of the year in the International League, but "after all the Giants wanted to help themselves out, prospect but not quite ready for stardom."

Schoendienst was known as a

clutch hitter in his years here, but it was his fielding that made him a standout with St. Louis fans.

He was especially good on the double play.

GIANTS RESHUFFLE
In New York, the Giants indicated Schoendienst, as expected, will play second base. Daryl Spencer will move into the vacant shortstop slot and Sarni will replace Wes Westrum behind the plate.

Brandt will be played in the outfield right away, a club spokes-

man said, adding Littlefield would be spotted as a starting pitcher.

Schoendienst, out of the lineup for some time with a sore arm, was hitting .310 when traded. Last year in 145 games he batted .268.

Sarni's latest average was .291 Brandt's .286, and lefthander Littlefield was .02 for the year, coming to the Cards early this season from Pittsburgh.

As of last week, Lockman was hitting .268, Dark .258, Katt .227 and pitcher Liddle was 1-2.

Here's why SHERWIN-WILLIAMS ONE-COAT WHITE SAVES YOU MONEY in FOUR WAYS!

JUST ONE COAT... Saves TIME — Saves MONEY — Saves LABOUR and gives "Xtra Years of Protection!

How often have you seen the conditions illustrated above — one house clean and well-painted — the other dark, dingy and unattractive.

Here's why! The house on the left was painted with SWP One Coat Repaint White, containing over 90% Film-Forming Solids. The house on

the right was painted with "bargain" paint containing about half this amount of Film-Forming Solids.

Because SWP One Coat Repaint White has such a high content of Film-Forming Solids, it gives you one-coat hiding on surfaces in good condition — saves you time, money and labor — gives you extra years of protection.

Moreover, SWP One Coat Repaint White is self-cleansing, mildew resistant, made with an alkyl base for easy application, greater resistance to the weather.

When next you paint, choose SWP One Coat Repaint White for true economy.

Greater Hiding Power
Contains double the amount of white pigments. Single coat covers most surfaces. Saves labor time, money.

Stay White Longer
Controlled chalking action causes dirt to wash away with each rain — leaving clean white paint film to protect and beautify.

SHERWIN-WILLIAMS
THE GREATEST NAME IN PAINT

"We would heartily recommend

MANZATE*

potato fungicide
to all potato growers"

says Robert Woodside
Robert Woodside & Sons
O'Leary, P.E.I.

"We find it stimulates growth, and is very easily applied, thus eliminating the extra work of mixing ingredients. We think it is a very effective spray for blight," wrote Mr. Woodside in a letter dated 13th September, 1955.

In this field of Sebago's, Mr. Woodside averaged 390 bushels per acre of marketable potatoes. He applied five sprays at 1½ pounds of "Manzate" to 80 gallons of water at intervals of six to ten days during the warm part of the day. Mr. Woodside knocked down the tops on 17th of September.

"MANZATE" MANEBS FUNGICIDE The best fungicide available for early and late blight control. No need to switch from one chemical to another . . . Wherever these diseases strike, "Manzate" does the job straight through the season. With "Manzate" you get full vigorous production of healthy tubers. More No. 1's, less Small's. Users highly recommend "Manzate" for blight-free profitable production.

Higher Yields — More Profit with

MANZATE*
