

Household Hints.

Spoiling Coffee.—The fragrant aroma of coffee coming from the breakfast room may be very delightful, but it tells that the coffee is being spoiled by too much boiling in an unenclosed vessel.

Egg Toast.—Beat 4 eggs, yolks and whites together, thoroughly; put two table-spoonfuls of butter into a saucepan and melt slowly; then pour in the eggs, and beat without boiling over a slow fire, stirring constantly; add a little salt, and, when hot, spread on slices of nicely browned toast and serve at once.

Chocolate Pudding.—One quarter of milk, four table-spoonfuls of cornstarch dissolved in one cup of milk to which add two table-spoonfuls of grated chocolate. Boil the remainder of the milk with two-thirds of a cup of sugar, add the cornstarch and chocolate, boil three minutes, add one table-spoonful of salt. To be eaten cold with sugar and cream flavoured with vanilla.

Grains of Gold.

Books, like friends, should be few and well chosen.

Fear to do base, unworthy things is valor.—Ben Jonson.

Worth begets in base minds envy, in great souls emulation.

To read without reflecting is like eating without digestion.

The usual fortune of complaint is to excite contempt rather than pity.

A taste for good reading will take us into the best possible company.

The less a man thinks or knows about his virtues the better we like him.

Would you have fame? Write your name in deeds of kindness, love, and mercy on the hearts you come in contact with.

The bright days of youth are the seed time of life. Every action is a seed whose good or evil fruit will be the happiness or misery of after life.

To the best and wisest, while they live the world is continually a froward opposite; and a curious observance of their defects and imperfections; their virtues afterwards it is as much admiring.

And for this cause, many times that which deserveth admiration would hardly be able to find favor, if they which propose it were not content to profess themselves scholars and followers of the ancients. For the world will not endure to hear that we are wiser than any have been which went before.

Richard Hooker.

CURRENT NOTES.

The shipments of sugar from Moncton refinery during three days and a half last week amounted to 1,347 barrels, or sufficient to fill nearly 20 car loads. The shipments were made to Toronto, St. John, and different points in Nova Scotia and Cape Breton.

Thanks to the farmers and workers there is no chance for a panic in the United States. "The country," says the Kansas City Times, "is too full of wheat, of produce, of money, of goods, to get up a genuine panic. Trade is a little dull, but there is no good cause for business to be panicky."

On Saturday morning last, Big John Canadian, the well known Caughnawaga pilot ran the Lachine rapids, Montreal, along with seven other Indians, at two o'clock, in a boat 22 feet long by four feet beam. Big John says that this is the first time the rapids have been run in the dark.

Mr. Geo. H. Shattuck brought to Halifax on Monday night, from the Gallighar Gold Mining and Milling Company's works at Isaac's Harbor a bar of gold weighing over 201 oz., the product of 55 tons of quartz at a total expense of production of \$2,150. The mine is looking as well as ever and the output is still increasing.

What is described as "the improved outlook in the leather trade," of which we are glad to learn, has induced the Fredericton Leather Co., to resume operations at their large tannery, which has been shut down since last fall. And the Moncton Times understands that work in the Gibson tannery, near Fredericton, has been resumed. The establishment was closed up by Mr. Gibson, who held a bill of sale on the stock and plant, and a mortgage on the buildings and land, and under his control they will continue in operation.

The new ship Karoo, which is expected, will be launched at Kingsport, Kings county N. S., on Tuesday, 27th May inst., is the largest in the Dominion of Canada. Her length of keel is 227 feet; extreme length, 44ft. 3in.; depth, 26 ft. 8 in., and gross tonnage 2,078.23 tons. This ship has been built of the best material. The oak, spruce and pitchpine used were purchased in Southern States. She is classed at 13 years, French Lloyd's. C. R. Burgess and John E. Bigelow are the builders, the former being also the managing owner. After the Karoo is rigged, she will be loaded with deals at Spencer's Island, for Europe, and will be commanded by Leonard Coffill, recently captain of the Nimbus.
