Les Boers, ou Burghers, auxquels l'Angleterre fera tout probablement la guerre, vivent principalement de l'élevage des moutons. Le plus petit fermier possède ses 4,000 ou 5,000 bêtes. Auparavant, les Boers élevaient des autruches et en retiraient de grands bénéfices. Mais, aujourd'hui, l'autruche ne donne plus.

Les Boers, sont des chasseurs avides. Ils tirent au vol, et à la balle, les hirondelles. Un simple détail fournira une idée de leur adresse. Il y a quelques années, à un concours de tir, sur les quarante concurrents réunis, huit seulement furent éliminés. Les trente-deux autres mirent tous dans le mille et obtinrent exactement le même nombre de points.

A MOTHER'S VALUABLE ASSISTANT

Home Occupations for Little Children

By KATHERINE BEEBE.

16mo, 144 pages, bound in linen, gilt top.

Hundreds of Hints on How to Make the Little Folks Happy Lists of Stories, Songs and Plays Invaluable to Mothers and Nurses

In this book the Kindergarten offers to the Home suggestions for the occupation of little children with simple materials. The author does not presuppose a kindergarten training on the part of the mother, nor an ideal environment. She simply takes for granted the child's ceaseless activity and the mother's desire to furnish him with material and opportunity for development.

The occupations here considered are of three kinds. The first are those which require the active participation of an older person; the second, those for which only occasional direction or assistance is necessary; the third, those in which the child can engage by himself.

WHAT Miss Beebe's "First School Year" is to the primary teacher this little volume is intended to be to mothers. Miss Beebe believes that the ceaseless activity of children calls for employment, and "Home Occupations" is full of ways and means for mothers. Enthusiastically endorsed by the press and leading kindergartners.

FROM THE NEW YORK WORLD. "Home Occupations for Little Children, by Katherine Beebe, is a very clever and full of hints and suggestions they can carry out."

FROM THE PHILADELPHIA PRESS. "Home Occupations should be read by all mothers, and all other people who have the care and training of infant minds." "One of the remarkable features of the book is the extent to which home materials and home-made contrivances are brought into play. Cedar blocks, sand, clay, boxes, scissors, paste, paper, pencils, beads, garden tools, saws, fruits, block boards, and nearly everything called into requisition by Miss Beebe's methods, are within easy reach of most of those into whose hands her book will fall."

FROM THE BOOKSELLER. "Home Occupations for Little Children, by Katherine Beebe, a well-known kindergarten, of Evanston, Ill., will be welcomed by many mothers, who will find it full of valuable suggestions to aid in rearing their little ones. Many cross and disagreeable children would be speedily restored to good nature if their mother or nurse knew enough to guide the immature mind to some pleasant occupation without too great interference with its own freedom."

FROM THE KINDERGARTEN MAGAZINE. "Any mother with the problem of restless little people to lead into the paths of happiness and usefulness, can find much assistance in Miss Beebe's little book, and would do well to avail herself of its thoughtful suggestions."
