Sold in Charlottetown by Apothecaries' Hall Co. Agents for Prince Edward Island, and by all Druggists everywhere. 11-1782

Address to John J. McLean,
M. D., C. M.

SPRINGFIELD, Lot 8, June 20th, '82.

At a public meeting convened at Springfield, Lot 8, a committee was appointed to prepare and present an address to J. J. McLean, M. D., C. M., previous to his departure to Alberton—the Committee to meet at the Manse on the 27th inst., and carry out this request.

J. R. RAMSAY, Secretary.

ADDRESS.

To John J. McLean, M. D., C. M.:

DEAR SIR,—We have heard of your removal from our midst with feelings of sorrow. We regret that circumstances should influence you to leave this locality, in which you are so well esteemed professionally and in which you have been so successful in the discharge of your professional duties. Your presence amongst us during the past two years has endeared you to us by your courteous and gentlemanly behaviour, and your kindness to those needing your sympathy. In your own sphere as a physician, from our own personal knowledge, as well as the experience of those more qualified to pass opinion of the many difficult and critical cases with which you have had to contend, and the success which has rewarded your efforts, lead us to believe that as a young man in your profession you have no superior, and that you are destined to occupy a high position in that calling you have chosen.

In conclusion we hope you will, in your new sphere of labor, possess the same personal esteem and obtain the same measures of professional success as you enjoy here; and while we regret your departure, we know that our loss is the gain of that more widely extended sphere of labor which has been so fortunate as to obtain your services.

Rev C. Fraser, J. Smallman, J. P. John Auld, J. P. Wm. Boulter, M. McDonald, J. K. Ramsay, Committee. Rev Wm. Bryenton, John A. Matheson, J. P.; D. C. Ramsay, J. P.; Walter Matheson, J. P.; Jas. Barclay, J. P.; Geo. R. McLaughlin, Angus McLeod, Robert England, John Easter, Horatio McWilliams, John Mackintosh, Donald Currie, John Crawford, Stephen McWilliams, Charles Murray, Alex Stewart, William McDonald, and fifty others.

REPLY.

To Rev. C. Fraser, J. Smallman, J. Auld, Wm. Boulter, M. McDonald, J. Ramsay and others.

GENTLEMEN,—Not having been placed in a similar position before, I now feel at a loss to find terms suitable to thank you for thus giving expression to your good feelings toward me and your appreciation of my professional services.

I am well pleased that I have gained your esteem whilst in your midst, and in leaving carry with me your good wishes for my future success. I can assure you that I cherish the two years of my life among the happiest in many respects of my life, and I leave not without deeply regretting that I am about to withdraw from a community where I have received so much kindness and have been patronized by so many patients. And now that your physical discomfort is no longer essential to my financial soundness, I heartily hope that you may escape the many bodily ills which flesh is heir to—a desire (cruel though the admission seems) I could not fully cherish whilst the prevalence of disease rendered my presence appreciable by you and profitable to myself.

In conclusion, I again thank you, not only for the kindness which has actuated you at this time, but also for the kind and considerate treatment extended to me throughout the time I lived in your midst.

Sincerely yours,
JOHN J. McLEAN, M. D., C. M.

The Markets.

OATS.

The market for P. E. Island oats in England, is still very dull, and a further movement against the seller is reported. They are now quoted at 17s. 9d. to 18s. for English ports, and from 18s. to 18s. 6d. for ports in France. We may here remark that the crops in France promise a very abundant yield, and it is reported that that country, for the first time in many years, will not require to import any foreign grain. In Halifax, however, a fair demand for oats is reported at 50 cents per bushel.

POTATOES.

The potato market as far as P. E. Island is concerned, is at an end. Sales are reported slow in Boston at \$1.10 for good stock. Southern potatoes are beginning to arrive.

EGGS.

Good fresh stock command a quick sale in Boston, at from 18 to 18½ cents per doz. They sell here for 15 cents.

PORK.

The market for pork in Montreal is brisk and prices continue high.

FISH.

The latest advices from Boston report that the mackerel fleet is still doing remarkably well, and the present indications are that another large catch will be made. Mackerel are selling in Boston at \$4.25 and \$4.50 per barrel.

Lobsters are in fair demand at \$1.25 per dozen.

It is curious that a tunnel between Calais and Dover was an engineering dream of the last century. In Sir John Sinclair's correspondence is given an account of a journey he made from London to Paris in 1789, in company with the Elder Montgolfier, when upon arriving at Dover they discussed the pros and cons of a submarine tunnel. They proposed to ventilate it by barrels of compressed air let out in its centre. A recent suggestion, curiously enough, was also made at that time:—And if the French should come—a rare oh! We'll drown 'em as the Jews did Pharaoh.

"The Bubbles of 1825" alludes to the same happy distich:—

A tunnel underneath the sea from Calais straight to Dover, sir,
With sluices made to drown the French, if ever they come over, sir.

TELEGRAPHIC NEWS.

LONDON, July 3.

Notices have been sent from the War Office to sixty-one towns in the Kingdom, including some in Ireland, ordering the military authorities to prepare for immediate calling out of reserves. It is believed that a summons will be issued before the end of the week.

Private telegrams from Egypt state that the situation is so strained that collision is unavoidable.

Orders have been sent to Woolwich, Chatham and Aldershot, to prepare a rendezvous for reserves.

The Daily News says Admiral Seymour will, to-day, send a letter to the Commander at Alexandria, asking him to put a stop to the erection of earth works.

The Telegraph's despatch from Alexandria reports that the Egyptian Ministry has replied to the Sultan that they will suspend work upon the forts.

BOMBAY, July 5.

Papers announce that orders have been given to prepare a force of 1,800 English and 5,000 native troops, including three batteries of artillery, for Egypt. A large siege of trains is being organized at Agra and Bombay.

CAMPBELLTOWN, N. B., June 5.

H. M. S. Flamingo, Capt. Custance, arrived here this morning and is anchored off the town. She comes to take His Excellency the Governor-General and Her Royal Highness the Princess Louise to New Richmond, on their way to the salmon fishing grounds at Cascapedia River. The Vice-Regal party left Quebec this morning by special train over the Intercolonial Railway and came through direct, with the exception of a short stay at Casapical, where they took dinner. The train arrived here at 10 p. m. and their Excellencies and suite at once went on board the "Flamingo," which will sail at 6.30 to-morrow morning.

GLoucester, Mass., July 5.

Schooner Mary F. Chisholm has arrived with the crew of 13 of the barque Eoline, of Sunderland, from New York to Norway with oil. She struck an iceberg on June 15th, off Grand Bank, and sunk. The crew were in a boat four days before being picked up.

MINGO JUNCTION, Ohio, July 5.

The bodies of eleven victims of yesterday's steambot disaster have been recovered. It is feared that the death list will reach nearly 50, and other bodies will be found when the vessel is raised.

BURLINGTON, Vt., July 5.

Four young children of Bryan Foley were fatally poisoned, it is supposed from eating green currants with worms on them.

DUBLIN, July 5.

Four laborers have been arrested on a charge of complicity in the Dublin murders.

Hon. Mr. Mackenzie as a "Land Shark."

A land company has been organized under the name of the British Canadian Colonization Company, with a capital of one million dollars. It has acquired one hundred thousand acres of land in the Qu'Appelle district. The odd thing about it is that the Hon. Mr. Mackenzie is president of it. No one has more freely denounced land companies than Mr. Mackenzie, unless it be Mr. Blake, and the grit platform on that question has been laid down as being "the land for the settler, and the price for the people. The fact that prominent grits have taken shares in land companies while the leaders of the party have been declaiming in Parliament against these, puts the leaders and their followers in antagonism. The effect is to seriously hamper Mr. Blake's hands. Every point he makes against land companies in the North West will be weakened by the fact that the ex leader of the grit party and some of his colleagues have gone into land speculation themselves, perhaps on the principle that they may as well have a share of what is going as let the Tories have it all.—Toronto Telegram.

Farm Jottings.

India has nearly 20,000,000 acres sown to wheat.

The wheat prospects throughout the country are improving, and an immense yield is anticipated.

Wastefulness treads on the heels of extravagance, and the model farmer will not tolerate either on his premises.

The present high prices are convincing proofs that farmers have not been able to overstock the market yet. There is plenty of room for more farmers in this country.

Permanent pastures should consist of mixed grasses in order to satisfy the desire and peculiarities of animals. A variety does much in the matter of promoting health and thrift.

An army worm is reported to be playing sad havoc with the meadows in the vicinity of St. Louis. In Southern Illinois the wheat crop is reported damaged one-third, and the worm is now eating the heads of the grain.

It is now beyond doubt that the annual rings of wood in trees are not a sure index of the age, as the gum tree of Australia, as is now proved, makes two circles a year. Some of the extravagant stories of the ages of trees will need rewriting.

At Buckland,
