
SUMMERSIDE'S NEW downtown store and office building, the Lee Building, will receive its final inspection by the constructing firm M.F. Schurman Ltd. Friday afternoon before the keys are turned over to the owner MacArthur Properties Ltd. of which Creelman MacArthur is president. A crew of 15 men is finishing electrical and decorative work at the two-storey 80 by 80-foot Water Street building.

Businesses Plan Move Into New Lee Building

SUMMERSIDE BUREAU OF THE GUARDIAN

The two-storey Lee Building, the latest addition to Summerside's downtown shopping district, will house the stores of Simpsons-Sears Ltd. and Agnew Surpass Shoe Stores Ltd., it was learned from unofficial sources here yesterday.

The new building is owned by MacArthur Properties Ltd.

To be completed Friday by M. F. Schurman Ltd., the structure will also house Atlantic Finance, a Summerside-owned beauty parlor and local business offices.

It is believed Agnew-Surpass will move into the new building by Feb. 1. Simpsons-Sears are expected to move from their order office at 305 Water Street "within a couple of weeks or more", an official stated.

Plans have been finalized with the building management by Simpsons-Sears, Agnew-Surpass and Atlantic Finance.

Construction of the 60 by 90-foot building was begun in September by M. F. Schurman Ltd., following the partial dismantling of the adjacent McNeill Building.

The portion of the McNeill building not torn down was renovated to house the insurance office of W. D. Young, Kelly's Flower Shoppe and a barber shop owned by William Roach.

Beside the space for the two stores on the front ground floor, the Lee building has 8,000 square feet of office space throughout the remainder of its two stories.

The upstairs space will be divisioned so as to meet the demands of the individual rentor, a management spokesman said.

The structure has concrete flooring, a modern sprinkling system and is completely fireproof. It has a masonry, stone and glass frontage and was designed by Laurie Coles and Associates.

DEATH NOTICES

Received too late for Classified Death Notice column

CAMERON — On Sunday, Jan. 4, 1964, William Cameron, Clyde River in his 60th year. Resting at the MacLean Funeral Home, from where the Funeral will be held today with service commencing at 1:30 p.m. Interment in Argyle Shore cemetery.

SENTNER — At Brookfield Saturday, Jan. 4, 1964, Mrs. Hinson Sentner, in her 77th year. Resting at the Cutcliffe Funeral Home, from where the funeral will be held today, Tuesday, with service commencing at 2 o'clock. Interment will be in Princetown Road cemetery.

MacLELLAN — At the Kings County Memorial Hospital, Monday, Jan. 6, 1964, Anthony A. MacLellan of Cardigan in his 73rd year. Remains resting at the Montague Funeral Home. Funeral to All Saints' Church, Cardigan, Thursday Jan. 9, with Requiem High Mass at 9:30 a.m. Interment in the church cemetery.

BUMPER BABY CROP IN S'SIDE

SUMMERSIDE — Statistics released yesterday by hospital administrator J. M. Logan, indicated a bumper "baby crop" in 1963 at Prince County Hospital.

There were a record 925 live births at the hospital last year, 131 more than the 1962 total of 794. There were 829 babies born in 1961 and 714 in 1960.

A record total of admissions, 3,910, and a record number of operations, 2,175, were also established in 1963.

In 1962 there were 3,716 admissions and 1,959 operations performed.

AL LEGER

Industrial Safety Course Is Underway

SUMMERSIDE — A six-week industrial safety course sponsored by the P.E.I. Workmen's Compensation Board got underway at the Prince County Vocational School last evening.

The night course, to be held every Monday night for the next six weeks, is primarily for foremen and supervisors of companies situated in Prince County. Starting time each Monday is 7.30 p.m.

Chief instructor, Al Leger, a safety inspector with the board, said last evening that some 30 people had shown their intentions of taking the course.

An identical course, he said, will also be held at the new Charlottetown vocational school beginning tomorrow.

Mr. Leger added that the students at the city vocational school are being given the same course and that Prince County Vocational School students will take the course in the near future.

WESTERN BRIEFS

IN HOSPITAL

Claude S. Delaney, Albany, is a patient in the Prince County Hospital, Summerside.

IN HOSPITAL

Charles Henderson, Bedeque, is receiving treatment in the Prince County Hospital.

MacEwen LOL Elects Slate

The annual meeting of MacEwen Loyal Orange Lodge at Pinette saw John Panton installed as worshipful master. John A. MacDonald is the deputy master, and E.T. Gillis is chaplain.

Other officers include recording secretary, Dan Cook; financial secretary, William Cook; treasurer, Charles Cook; marshall, John Nicholson; first lecturer, Edwin Gillis; second lecturer, Russell Panton; auditors, Frank Cook and Joe Cook.

The presiding officer was Grand Master Joseph Cook.

First Twins Of 1964 Born In Souris

SOURIS — The first set of twins born on Prince Edward Island in 1964 and possibly the first in the Maritimes arrived Sunday morning at Souris Hospital. The parents are Mr. and Mrs. John W. MacDonald of Monticello.

This is the second consecutive year that Mrs. MacDonald has given birth to the first child of the year at Souris Hospital.

The newest additions, a four-pound, one-half-ounce girl and a six-pound 14-ounce boy, arrived at 3.45 and 4.05 a.m. yesterday.

Mr. MacDonald is an oiler on the CNR ferry Prince Edward Island. The MacDonalds have six other children — three boys and three girls. The oldest is 10.

As yet the new baby boy has not been named but the girl will be called Rosemary.

LEMMINGS LARGEST

Lemmings, noted for their cycles of mass migration, are the far north's largest rodent, well adapted for survival there.

CENTENNIAL ESSAY CONTESTS

Earlier Island Days Will Be Featured

Essay competitions featuring some of the earlier days in this province will comprise one phase of Prince Edward Island's version of the Centennial of Confederation. The competitions announced last night by Mrs. Eric Kipping, Charlottetown will be open to the province and a generous prize of $100 has been provided for the winners in each of two competitions.

One essay competition will feature the subject "Rural life in Prince Edward Island in 1864" and the other is open to grand parents 70 years of age and over, who will write on the subject "When I Was Very Young."

Mrs. Kipping is chairman of a committee with the long name of the agricultural, fisheries and community committee which is in charge of the competitions. Other committee members are John Martin, district officer, National Film Board, Charlottetown and Neil A. Matheson, Southport, provincial and farm editor of The Guardian and The Evening Patriot.

The essays will be judged on their accuracy in relation to what actually happened in rural life 100 years ago, and their interest as well as their literary quality.

The committee has decided that the essays should be not less than 1,000 words and not more than 2,500 words. They should be typewritten if possible but if that is not possible the essays must be in handwriting that can be read easily, the committee has announced.

The manuscripts should be mailed to "Centennial Essay Competition" P.E.I. Federation of Agriculture office, P.O. Box 546, Charlottetown, P.E.I. and all manuscripts should be in the

MRS. KIPPING

office not later than March 31, 1964.

Judges for the competition, Mrs. Kipping announced, will be Mrs. Harold Laird, Kensington; Lt.-Col. Leo F. MacDonald, Charlottetown and Neil A. Matheson, Southport.

Liquor Charge Ends In Fine

SUMMERSIDE — A Kinkora man, charged with the illegal possession of liquor in a place other than his residence, was fined $50 and costs or 30 days when he appeared before Magistrate R.S. Hinton, QC, in town police court yesterday.

In testifying for the crown, police chief S.D.A. Wannamaker said that Saturday night members of the police force were watching a suspected bootlegger's residence when, at approximately 9 p.m., the accused was seen leaving the residence.

On being stopped and searched the accused was found to have liquor in his possession.

When asked by the magistrate this morning if he wished to make a statement, the accused answered "no".

The police chief requested a straight jail sentence or an increased fine over the usual $20 and costs given for an offence of this type.

Prayer Week Services Open

Week of Prayer services opened last night at First Baptist Church with a capacity congregation. The special preacher Rev. C.K. Bean, pastor of Calvary Temple gave the address of the evening speaking on the theme "The Christians' Cross."

The church choir with special organist, Miss Florence Simmons sang the anthem "Holy Holy, Holy". Rev. Ross A. Howard, chaplain at the P.E.I. Hospital led the congregation in prayer.

Tonight the service will be conducted at the Kirk of St. James with special preacher, Rev. M.F. Harlow, pastor at First Baptist Church.

Retarded Ass'n Meeting Slated

SUMMERSIDE — The Prince County branch of the Retarded Children's Association will hold its monthly meeting at the George R. Pearkes, VC, legion home here tonight beginning at 8 p.m.

Two of the highlights of the meeting will be the turning in of the proceeds from the Christmas card sales and the discussion of the flowers of hope project.

This project consists of selling flower seeds prior to Mother's Day with the proceeds going to the association.

Rev. Keith Hobson Is Special Speaker At Alberton Service

ALBERTON — "It is not prayer that is powerful: it is Him to Whom we pray," declared Rev Keith Hobson as he introduced his series of sermons on "Prayer" at the week of prayer service in Alberton last evening.

"It is for this reason," he explained, "that we would speak about Christ himself at the beginning of the series and again at the end."

For his text he used three words spoken by the risen Lord, "Behold My hands." Hands tell a lot about a person, he said.

Speakinf of Christ's hands he said: Jesus' hands were a workman's hands. His hands were strong hands that saved Peter when he was in danger of drowning because he had lost his faith. His were tender hands and when Jesus got behind the hands of the apostles they helped people.

His were healing hands and "his touch has still its ancient power." He can cleanse the leprosy of the soul, the sin that gets between man and God, between man and man, and between man and himself. If man would learn to live with Christ he could face life without tension. Christ heals those who will behold his hands. His were saving hands. Until one faces the suffering of Christ, one does not realize the love of God.

The worship was conducted by Rev. David MacDonald. A combined choir under direction of Mrs. Ruth Sommers led the praise. Mrs. Lloyd Wilkie was organist. A solo "The Love Of God" was rendered by Miss Sandra Brennan.

This evening the second of the week of prayer services will be held in Alberton United Church at 7.30 p.m. Worship will be led by Rev. H.E. Mullen and Mr. Hobson will preach.

Maternal And Child Health Classes Being Held In S'side

SUMMERSIDE BUREAU OF THE GUARDIAN

Maternal and child health classes for expectant mothers and their husbands begin at the Summerside Health Centre tomorrow under the direction of Mrs. Dorothy Palmer, consultant with the department of public health, nursing division.

Classes for mothers alone will be held Wednesday afternoons beginning at 2 p.m., and classes for couples will be held Wednesday evenings at 7 p.m. The current course will last eight weeks.

"We are attempting to teach people a great many things they should know in regard to childbirth and the care of young children", Mrs. Palmer said.

Each class period will consist of a lecture session of approximately 45 minutes and include a study of anatomy, emotional problems, the stresses and strains of pregnancy and an explanation on how to properly relax.

"Relaxing comes very difficult to many people", Mrs. Palmer said, "and especially difficult to young mothers who are worried about their unborn children. We think a few simple instructions can help them a lot."

Books on maternal and child health care are available at the health centre, to all persons, whether or not they are taking the course.

At least eight couples and a number of mothers have registered for the classes and more persons are encouraged to do so.

"The afternoon classes are for expectant mothers in the absence of their husbands", Mrs. Palmer said, "but we prefer having the fathers come as well, so that is why we have the evening sessions."

Mrs. Palmer also holds similar classes in Kensington, Tyne Valley and other Prince County areas.

Tanker Easily Cracks Through Ice In Strait

With harbor pilot Jack MacDonald of Charlottetown holding down the con, the huge Irving Oil Company tanker Irving Stream left her berth in Charlottetown at 10.55 yesterday morning, bound for the Saint John, N.B., refinery.

William Connolly, local plant manager, who watched her progress until the 'Stream was well out into the Northumberland Strait, said last night that even without the aid of an icebreaker the 24,000-ton tanker experienced no difficulty in punching her way through the heavily rafted ice of Hillsboro Bay.

With the aid of binoculars, Mr. Connolly observed her until she made her rendezvous with the icebreaker CCGS John A. Macdonald at a point midway between Point Prim and St. Peter's Island at approximately 12.30.

Mr. Connolly said that as far as he could learn the Macdonald managed to escort the 'Stream to open water near Cape Bear sometime after 3 p.m. yesterday.

The icebreaker then altered course toward Pictou where she is to assist two other ships trapped in the heavy ice about six or seven miles out of that port.

Mr. Connolly said that he had been in contact with one of the trapped ships, the CCGS Tupper, which Sunday had gone to the aid of the trapped tanker Irvingwood, at that time 27 miles from her destination, and by 3.30 Monday afternoon the two ships were still 12 miles out of Pictou and making very slow headway.

In a second communication with the Tupper at about 5 p.m. Mr. Connolly learned that the icebreaker and tanker were barely making headway and were still about seven miles out waiting for the Macdonald to come to their assistance.

Department of transport officials here did not know how much assistance the Macdonald would be able to give. It was pointed out that there are heavy sandbars across the mouth of Pictou harbor and the Macdonald has a draft of about 35 feet, the combination of which may permit her to escort the ships only until they are about four miles out of the Nova Scotia port.

The Irvingwood has a cargo of some 1,000,000 gallons of heating fuels for discharge at the Pictou storage depot.

This new motor oil can give you up to 10% better gasoline mileage

New B-A Durafilm surpasses all car manufacturers' requirements

Should you use B-A Durafilm in your car engine? If you own a late model car or are planning the purchase of a new one, B-A Durafilm is the motor oil for your car. B-A Durafilm was created for the high-powered engines of today's automobiles. These engines are harder on component parts. Valves, cams, bearings and spark plugs are subject to greater stresses; higher temperatures. And crankcases are getting smaller. This means that these more powerful engines have to be lubricated with less oil. Obviously, the oil must be a lot more efficient.

Surpasses all car manufacturers' requirements. New B-A Durafilm motor oil has been fully tested under conditions prescribed by the car manufacturers' themselves. In every case, B-A Durafilm surpassed by far the requirements of the most severe service tests. B-A Durafilm is not just a good motor oil, it is a vastly superior motor oil.

B-A Durafilm keeps engines clean. Newly developed and extremely powerful detergents and inhibitors have been used in new B-A Durafilm. The inhibitors prevent oil breakdown at high temperatures. The detergents keep the engine clean. This means no clogged oil screens, no stuck valve lifters, no draggy pistons, no stuck piston rings. B-A's new detergent combination also eliminates oil-induced pre-ignition as well as plug fouling and engine rumble. B-A Durafilm makes your car engine run better, last longer and cost less to operate and maintain.

Easy starting—greater fuel economy. New B-A Durafilm has a very high viscosity index. (Flows easily at extremely low temperatures and does not thin out at extremely high engine operating temperatures.) This means that extreme temperatures have less effect on viscosity than is the case with ordinary oils. This makes your engine start easier and gives you better valve-lifter performance. You will get better gasoline economy, (up to 10% better in city driving). You'll also use less oil and have lower piston ring wear.

B-A Durafilm absorbs contaminants. One of the functions of a motor oil is to "hold" contaminants such as soot, dirt and water and prevent them from depositing in your engine. When too many contaminants get into the oil, it breaks down and releases these contaminants throughout the engine. This clogs the engine with gummy deposits, sludge and rust. When this happens, you're faced with a big repair bill. New B-A Durafilm prevents this.

Two grades of B-A Durafilm. New B-A Durafilm is available in SAE 10W-30 for most driving conditions and SAE 5W-20 for extreme cold. B-A Durafilm Motor Oil is at your B-A dealer's now.
