HOW TO TREAT A COLD.

Don't stuff a cold, as the old adage advises, if you do you will have a fever to starve. A genuine cold is a shock received by the many million nerves which approach near the surface of the human body, and which control the nearly seven million pores of the skin. This shock closes the pores of the skin, is transmitted to the nerve centre and back to the mucous membranes, forcing a great amount of blood to these membranes, creating more or less irritation and consequent fever, inflammation, dryness, then watery discharge and catarrh. The shock may have its cause from a chill, from improper eating, a nervous fright and various other causes which irritate the nerves of the skin and mucous membranes of the nose, throat and bronchial tubes. Excess of blood in the stomach still more clogs the system and pores of the skin, so that effete matter, which should be carried off by the natural courses is retarded; which is ample reason for not stuffing a cold. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy until some friend suggests another "sure cure." When slight hoarseness or tightening of the nasal membranes warns one of a skin exposure or chill from whatever cause, act promptly, delays are dangerous; with children it may mean croup and strangulation; with adults, catarrh, bronchitis, perhaps pneumonia. Scores of mothers would as soon go to bed without matches in the house as without that old-fashioned remedy, Johnson's Anodyne Liniment near at hand for colds and croupy children. The proprietors, I. S. Johnson & Co., Boston, Mass., will send their new illustrated book entitled "Treatment for Diseases," free to any person for the asking. ......

Childhood sometimes does not pay a second visit to a man; youth never.—Mrs. Jameson.

THE PROPRIETORS.

Make a Few Pertinent Remarks to their Patrons.

TORONTO, Jan. 28.—Dr. L. A. Smith & Co., of this city, whose name has become a household word through the Dominion, and in many states of the Union, in consequence of the wonderful cures effected by Dodd's Kidney Pills, desire to thank their patrons for the good words they have spoken for this remedy. During the past few months these expressions have been wired to nearly every paper in the country by grateful people whose lives have been prolonged. These expressions are straightforward and honest, and should convince any unprejudiced mind of their sincerity and truthfulness. You know now, reader, that Dodd's Kidney Pills will do all that is claimed for them. They have stood the test.

It was because Paul knew human nature as well as he did Greek that he didn't lose his head at Athens.

This is Concentration.

One pill a dose, one box 25 cents. One pill relieves constipation. One box cures an ordinary case. One pill taken weekly neutralizes formation of uric acid in the blood and prevents Bright's Kidney disease and Diabetes. True only of Dr. Chase's Kidney-Liver Pills.

"He that covereth his sins shall not prosper; but whoso confesseth and forsaketh them shall have mercy."

DON'T DIE BEFORE YOUR TIME.

"Why will you die?" That is the question the scientist now asks the miserable sufferer from consumption or lung trouble The answer naturally is "because I can't help it." But the consumptive *can help it.* Miller's Emulsion made from Norwegian Cod Liver, and combined with the hypophosphites of lime and soda will cure nine cases out of ten of consumption, and the tenth case can get a reprieve for a year or two. New blood is what the consumptive requires, and Miller's Emulsion of Cod Liver Oil, when taken produces it. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula and all lung affections. In Big Bottles, 50c. and $1, at all Drug Stores.

A Comfort Sometimes.

When health is far gone in Consumption, sometime only ease and comfort can be secured from the use of Scott's Emulsion. What is much better is to take this medicine in time to save your health.

THE REVIEW OF REVIEWS

Edited by ALBERT SHAW

IT WAS in April, 1891, that the first number of the American Review of Reviews was printed The new idea of giving the best that was in the other magazines in addition to its own brilliant, original articles, took America by storm, as it had taken England—though the magazine itself was not at all a reprint of the English edition. It deals most largely with American affairs, and is edited with perfect independence, in its own office.

The Review of Reviews is a monthly, timely in illustration and text, and instantly alive to the newest movements of the day, to a degree never before dreamed of Thousands of readers who offer their commendations, among them the greatest names in the world, say that the Review of Reviews gives them exactly what they should know about politics, literature, economics and social progress The most influential men and women of all creeds and all parties have agreed that no family can afford to lose its educational value, while for professional and business men, it is simply indispensable The departments are conducted by careful specialists, instead of mere scissors-wielders, and scores of immediately interesting portraits and pictures are in each number.

All this explains why the Review of Reviews has come to a probably unprecedented success in the first three years of its existence. For 1895 it will be more invaluable than ever.

Agents are reaping handsome profits. We give liberal commissions. Send for terms.

THE REGULAR DEPARTMENTS

Besides the special articles and character sketches of thrilling interest and timeliness, the Review of Reviews has these regular departments:

The Progress of the World.—An illustrated editorial review of the month's events which thinking, alert men and women should understand in their proper significance and proportions.

Leading Articles of the Month.—This department, and the succeeding one. The Periodicals Reviewed, embody the idea on which the magazine was founded and named. All that is best in the other magazines, American and foreign, is here brightly summarized, reviewed and quoted from.

Current History in Caricature chronicles the month's history through the picturesque means of the successful cartoons that are appearing throughout the world.

Other departments review carefully new books, give lists and indexes of all articles in the world's magazines, and furnish a terse daily record of current events.

N.B. TRADE MARK THE VARNISHED BOARD ON WHICH THE GOODS ARE WRAPPED.

Priestley's Dress Fabrics

In the long run it is the quality of the material that will determine the success of a lady's costume. Every lady who has at all studied the matter knows this. Priestley's Black Dress Goods are the best that the market affords. That is conceded on all hands. The ladies of Great Britain cordially acknowledge it. The American ladies prefer Priestley's dress fabrics to French. Our Canadian ladies are now asking for them. They wear better than other goods; but their great charm consists in a peculiar richness and softness of appearance, and a flexibility which enables them to drape in the costume with that suggestion of flow and rhythm which it is the dream of all tasteful women to realise.

See that the goods you buy are stamped "every five yards with "Priestley's name." No others are of their manufacture.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
