To you personally.—

A few days ago we sent you a little bill. We did so for various reasons. As much because we want money—as for any other reason.

Supposing you drop in this afternoon or evening and let us have the amount. Or perhaps you'll tell us when and where to call for it. We won't forget. In either case we will be much obliged.

Yours truly,

THE GOVERNMENT'S NICE LITTLE GAME

Hope Senate Will Reject a Redistribution Bill.

THEN THEY WILL APPEAL TO
THE PEOPLE FOR SENATE
REFORM

TORONTO, Jan. 11.—The World says it was told that the Liberals at Ottawa had made up their minds to introduce at the coming session a bill redistributing the constituencies for the House of Commons on the certain expectation that the Senate would reject it.

On this rejection they will ask for dissolution of Parliament and will go to the country on an agitation for Senate reform.

[SPECIAL TO THE EXAMINER.]

NEW YORK, Jan. 11.—The overdue steamer St. Paul has arrived with her machinery disabled.

The Pacific Cable.

OTTAWA, Jan. 14.—Information has been received here that the States government has cancelled the charter of the Pacific cable company, which six months ago, received a concession from Hawaii to land a cable at Honolulu. This action is regarded as preliminary to congress taking up the enterprise and pushing it as a federal work. It is felt it should stimulate the Dominion authorities to close their negotiations with the home government.

Labor and Other Troubles.

PANA, Ills., Jan. 10.—Seventy miners and citizens, charged with riot, were arraigned in court to-day. Eleven pleaded guilty and were given sentences. The trial of mine operators Oville and Maxwell, Penwell, for inciting riot, will take place Tuesday. Over fifty witnesses have been summoned. Pneumonia continues to rage among the colored non union miners, deaths occurring daily. A heavy provost guard is still on duty in the negro and union miners' residence districts.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are such and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangement of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N Y, and receive Dr. Pierce's 1008 page COMMON SENSE MEDICAL ADVISER, illustrated.

Crew Rescued.

LIVERPOOL, Jan. 10.—The steamer Kanawha has rescued the Captain and the crew of the steamer Gallina. The latter encountered a hurricane December 28th, during which the seas swept over her, destroying her deck cabin and boats and shifting her cargo. Although a portion of it was jettisoned, the Gallina continued to list, and for several days was almost on her beam ends. She was sighted by the Charing Cross during the night of January 3rd, and the following day the Charing Cross sent a life boat to the Gallina and brought off six of the latter's crew. The Gallina was then lost sight of during a storm. On the following day the Kanawha hove in sight and launched a life boat. After repeated attempts the life boat's crew succeeded in reaching the Gallina and rescued the remainder of her crew.

The Queen to Decide.

LONDON, Jan. 9.—The Queen has accepted the task of arbitrating the difference between the Government of Argentina and Chili, which has nearly involved the two countries in war. The Queen has commanded Sir T H Sanderson, permanent secretary of the foreign office, to obtain impartial expert opinions of the matters involved to enable her to acquire a full knowledge of the case on both sides. Her majesty will give her judgement only after a close personal examination of the reports. The trouble is a question of boundary in dispute for nearly a century.

SHUTTING BEEF OUT.—A staff writer on the Chicago Breeders' Gazette says the number of cattle marketed at the four leading centres in the United States—Chicago, Kansas City, South Omaha and St Louis—was 200,000 less in 1898 than in 1897. On the other hand, there was an increase of a million in the receipts of hogs at the principal markets of the west. The correspondent adds that "mutton has driven beef out of the vast extent of the western range country, and every man who could procure sheep did so." Notwithstanding this boom in mutton, the correspondent is not over-optimistic of the future of the mutton industry. "Argentine and Australia have," he says, "practically shut us out of the British markets, more especially as concerns the latter's frozen mutton. Our export sheep trade is now little help to our markets."

A GOOD YIELD.—The value of ore production by the Rossland, B C, mines during the year just ended reached the enormous aggregate total of \$8,804,758 12. The shipments were 116,592 tons, for the year ending December 31st, 1897, the shipments were 68,000 tons and the value of the ore mined was \$2,000,000. In a single year the shipments from the mines were almost double while the value of the output increased \$700,000 or 33 per cent.

THE TEMPERATURE.—During last night the lowest temperature was eight below zero, the same as on the previous night. At nine o'clock this morning 6 1/2 below was marked.

LONDON FAIR.—An amusing art gallery a museum, Russian tea, a table of fancy articles for sale, tea tables, and a concert are among the attractions at London Fair, in St. Peter's Hall next Monday.

New Year's naval estimates it is asserted will provide for eight new battleships, two being of first-class.

Ladies Aid—The Ladies Aid Society of the First Methodist Church will meet on Thursday afternoon at four o'clock.

A Woman in the Case.

COLUMBUS, O., Jan. 10.—Wm V Grubs, a blacksmith and bicycle repairer, was shot and fatally wounded last night by Edward Harris, a brakeman, as the result of a quarrel over the former's wife, concerning whom Harris had made some uncomplimentary remarks. Grubs was shot in the head, the bullet entering through the eye, and he died a few hours after being taken to the hospital. Harris when arrested claimed he had shot Grubs in self defence.
