TORONTO

TORONTO (CP) — The stock market recorded its sixth straight decline Monday amid the second-lightest trading of the year.

Base metals were off 1¾ points on their index while western oils lost more than 1½ points. Golds were virtually unchanged.

International Nickel lost 2¼ points to 97¾ to lead senior base metals lower. Other seniors were fractionally easier. Lower-priced mines had losses ranging to 45 cents but most were 10-20 cents.

Canadian Chieftain was a 34 cent loser at $2.01 and half a dozen other western oils dipped 15 cents. Security gained 25 cents at $6.60.

Index losses: Industrials 2.00 to 475.71; golds .01 to 79.94; base metals 1.70 to 197.37; western oils 1.62 to 183.38.

South Korea, Once Rice Bowl Requires Food Brought In

GUELPH, Ont. (CP)—Kenric R. Marshall, visiting here, described South Korea as "that dusty, rather smelly, but very friendly land." He served there for two years as executive secretary of the Korean Association of Voluntary Agencies.

Mr. Marshall, former director of recreation here, left for his Korean post in the spring of 1955. He has returned to take a post in Toronto.

Travelling in a jeep, he covered 28,000 miles of refugee-flooded South Korea in 26 months.

His most vivid recollection was of thousands of self-reliant little children. He said parents and children could be seen wandering the roads, which he described as "the world's worst."

Before he left for Korea he had heard the country had an appalling climate, that Orientals were uncommunicative and untrustworthy—opinions which he now describes as common western misconceptions.

He had heard also of "the great democratic experiment in the Far East" being conducted in South Korea by the United Nations.

The UN has established supervised free elections, but Mr. Marshall said democracy is a long way from anything Canadians know.

JAPANESE EFFICIENT

He said Koreans look back with nostalgia to the days of Japan's overlordship. The days were harsh ones, but the Koreans knew where they stood and their country was well run by the efficient Japanese.

He grew serious as he recalled seeing "so - called spontaneous demonstrations" during his stay there and told of his horrified reaction when he accidentally drove into an area where guns had been turned on a crowd.

But he chuckled as he told of the friendliness of Koreans.

"They are an extraordinarily friendly people with a great sense of humor. They are easy to get to know and show great warmth to Canadians. They don't know too much about Canada as yet, but do at least know that it is not part of the United States."

He also laughed at the myth that Orientals are dishonest.

"My staff there was as loyal and honest as any staff I could find in Canada. The Koreans most certainly are not dishonest people unless, like any other people, situations make them so in order to be able to live."

However he said the people of South Korea need plenty of help. "The land was the rice bowl of the entire Korean nation, but it has been filled with refugees and is no longer self-supporting. They have to ship in thousands of tons of grain"

KILLED BY MONEY

WASHINGTON (AP) — A government worker has died of injuries received when he was crushed by a truckload of money. Anthony Schroeder, 29, an employee of the bureau of engraving and printing, was pinned against a wall Thursday when a truck loaded with 800 pounds of currency tilted on a ramp.

Mormons Take Care Their Own

SALT LAKE CIY (AP)—Members of the Latter-Day Saints Church take seriously a biblical injunction that not to take care of their own is to be worse than an infidel.

Through the church welfare plan, they have carried the idea just about as far as it will go.

The result: A Mormon in need, armed only with authorization from a church official, can get—without paying a cent—food and clothing from one of the 140 bishops' storehouses scattered across the continent. But he must work for what he gets.

To keep the bishops's storehouses loaded, the church owns a coal mine, more than 66,000 acres of farmland, citrus orchards, 30 canneries that turn out more than 1,500,000 cans a year, poultry farms, dairies and feed lots. Assets of the plan are estimated at more than $17,000,000. Expenditures during 1956 were almost $5,000,000.

The aim of the plan is to give assistance to the needy and to provide jobs for those who couldn't get work elsewhere.

The welfare plan evolved from the rugged early days of the Mormons. In 1844 the leader of the church, Joseph Smith, and his brother Hyrum were slain by a mob in Carthage, Ill. The Mormons fled the midwest and found sanctuary in the unsettled Salt Lake valley, arriving here July 24, 1847.

Crickets attacked the first crop planted by the Mormons. Only the appearance — hundreds of miles from the ocean—of seagulls which devoured the crickets saved the Mormons from famine.

Brigham Young, who took over leadership of the church upon the death of Joseph Smith, began a grain - saving movement in 1876 after recognizing the importance of having an adeqaute food supply available in an isolated country. In 1936, during the depression, the church gathered into one agency the various relief and welfare organizations and set up the welfare plan as it is now known.
