World's Columbian Exposition, Chicago, 1893.

THE Government of the Dominion of Canada has accepted the invitation of the Government of the United States to take part in the World's Columbian Exposition, to be held in Chicago from 1st May to 31st October, 1893. As it is important that a very full display of Canadian products be made on that occasion, a general invitation is extended to Canadian producers and manufacturers in agriculture, horticulture, products of forests, fisheries, minerals, machinery, manufactures, arts, etc., to assist in bringing together such a display of the natural resources and industrial products of Canada as will be a credit to the country.

An Executive Commissioner for Canada has been appointed, who will have the general charge of the exhibits and the allotment of space, and the several Provincial Governments have been invited to co-operate with the view of making the exhibition as complete and satisfactory as possible.

The Dominion Government will pay the transport of exhibits going and returning, and for the placing of articles sent.

Entries must be made not later than 31st July. The reception of articles at the Exposition buildings will commence 1st November, 1892, and all exhibits, excepting Live Stock, must be in place by 1st April, 1893.

Forms of application for space and general information can be obtained on applying by letter, post free, to the undersigned.

WM SAUNDERS,
Executive Commissioner for Canada.
Department of Agriculture, Ottawa, 26th April, 1892. may19

TENANT FARMERS' REPORT.

What Mr. Davy Thinks of Prince Edward Island.

How He Passed the Time While Here,

And the Farmers and Others He Met With.

(Concluded.)

On returning to Summerside—some ten miles—I learned from Mr. Simpson the following particulars respecting the usual course of procedure in carrying on the work of the farm. (This would, of course, apply to the working part of the year, and not when the land is locked with ice and covered with snow.)—Rise in the morning at 5.30; get breakfast and do the morning work, such as milking, tending cattle and horses, etc.; at 7 leave for field work; at 11 unyoke and return to the house for dinner; at 12 or 12.15 leave again for the field until 4 p. m.; then tea, after which another turn in the field until dark. The eight hours' movement has not found its way to P. E. Island. I also found it to be a very common practice for farmers' sons to engage in oyster fishing during the season, when for several weeks as much as 15 shillings or 16 shillings per day may be earned by those who understand their work.

Monday morning, under the care of Mr. Angus McMillan, I left for a trip up the line to Tignish, which is the most northerly town on the Island, and within about 7 miles of the most northerly point. At different stations on the line we were joined by Mr. David Rogers, M P P., Mr. Yeo, M P., Mr S F Perry, M P., Mr. Richards and others. The district through which the line passes is, as a whole, comparatively poor until we get within a short distance of Tignish; then a fine stretch of undulating land comes within view. I was surprised to learn that, notwithstanding the spring is sometimes a fortnight later here than in the more southerly parts of the province, harvest commences about the same time. The wheat and other grains are ripe in some instances in the incredibly short space of from 95 to 97 days from the time of sowing, clearly indicating that when summer comes, it comes in earnest. The inhabitants of this part are mostly French, and Catholics. One of the gentlemen who was with me being of that persuasion, I had the opportunity of seeing the beautiful Catholic Church at Tignish, and also of being introduced to the priest. Land is still available in this part, and some of the finest wheat in the Province is produced here. In conversation with one of the gentlemen I met with, I was given to understand that the cost of transport of oats per quarter of 304 lbs. from Prince Edward Island to England was about four shillings.

Returning to Summerside I visited Parkside Farm, the property of Mr. W. A. Brennan, which is conveniently situated at the west end of the town, and where some very high-class trotting stock are bred. The owner has not spared any expense in order to secure the best of the breed, some of the most fashionable blood having been purchased at very high prices—with what success has yet to be proved, as the speculation has only been entered on within the last few years.

We thus brought our work, so far as the Maritime Provinces are concerned, to a close, after several weeks of arduous toil and pleasure combined, and of great and almost unexceptional kindness on the part of all with whom we came in contact.

In conclusion, and in anticipation of the question I shall be asked by hundreds of my fellow-countrymen, "What do you think of the Maritime Provinces of Canada?" I would remark that the resources of the Provinces, on the whole, are abundant. The rivers, lakes and seas abound with fish; the woods also find employment for a large number of hands, both in winter and summer; coal, iron and gold also exist, especially in Nova Scotia. The agricultural resources are also considerable, as hay, potatoes, roots, and fruits of all kinds can be produced in large quantities in the respective districts suitable for their production; fine crops of oats are also grown in Prince Edward Island of superior quality. The Provinces, however, with the exception of Prince Edward Island, cannot be regarded, except in a few favored districts, as suitable for the raising of grain. I will here, as briefly as possible, lay before the reader the conditions of land tenure as affecting these Provinces. Practically, there are three classes of land-owners: 1—Those who own the land they occupy free of encumberance, and who only follow agricultural pursuits. This class is, as a rule, in comfortable circumstances. 2—Those who mainly obtain their livelihood in some other way, such as lawyers, doctors, merchants, storekeepers, &c. These form a considerable portion of those engaged in agriculture, and are, as a rule, in affluent circumstances. 3—Those who are nominally the owners, but whose land is mortgaged, in many instances, to one-half of its value, bearing interest from 6 to 7 per cent, and consequently are, in an indirect way, renting instead of owning their land. This state of things, combined with, very often, limited working capital, and very primitive methods of operation, is apt to become a burden, and is one of the causes of the want of progress we so often came across. This class is also very seriously affected by the fact that most of their wealthy neighbors prefer for themselves those articles of consumption which they have for disposal. Hence the necessity of finding a distant market. Too often in order to secure a little ready money fishing and lumbering are resorted to by the needy farmers, to the neglect of important operations on the farm when attention in that direction is most needed, and until the season is too far advanced to secure the best results. This would more particularly apply to Nova Scotia, but to some extent to New Brunswick as well. Prince Edward Island is under a much better system of management and cultivation, but even there much more might be done, especially in the increase of the flock.

To those who have any idea of emigrating to the Maritime Provinces I would say: If you do not understand farm work and country life, or some of the industries peculiar to those provinces, stay where you are. On the other hand, to the industrious and thrifty, and those whose lot may be a hard one in this country, opportunities present themselves of securing the necessaries of life, especially having regard to what I have already mentioned as to the indifferent farming that now prevails in that part of Canada. While there may not be so many wealthy as in this country, on the other hand, there are very few who are poor or in any way dependent on the charity of others. The voyage is, on the whole, one of recreation and change. I would, however, recommend the intermediate in preference to the steerage, as the cost is very little more and the advantages many.

I have omitted to say that a very considerable area of forest and rocky land in different parts of Nova Scotia and New Brunswick is not suitable for agricultural purposes or capable of being cultivated.

As a proof of the great interest taken in the agriculture of Crnada, both by the Dominion and the Provincial Governments, experimental farms are being established in many parts of the country, some half dozen of which I had the pleasure of walking over and observing the various tests which were being made in all kinds of agriculture and horticulture and also in the introduction of the most improved breeds of cattle, sheep and pigs. And I would also mention the supreme importance of the advanced position taken in connection with these institutions in becoming the centre of disseminating the most improved methods in the making of butter and cheese. I had the honor of spending some hours with Professor Robertson, who is at the head of this department. These farms must of necessity be of great benefit to the agriculturists of the Dominion.

THOS. DAVEY.

Notes from Covehead and Brackley Point.

The Seaview House, after being thoroughly renovated, is again ready for the reception of summer tourists. We feel sure with the genial Ewen for proprietor, and knowing Miss Houston's cooking abilities, that people could do no better than spend their holidays at this place, which is certainly the best on the north side and second to none on the Island.

Miss Annie Miller, daughter of David Miller, Esq., who has been very ill, is, we are pleased to state, rapidly recovering under the skilful care of Dr. Matheson.

Covehead choir, after its usual summer holidays, has resumed its duties for the season. This, as far as we can learn, is the only country choir on the Island receiving payment for its services; and the manner of payment is peculiar, in that the usual cent contribution is by it withheld as payment in full for its services.

James Bearisto, son of John Bearisto, Esq., Covehead, who recently returned home from Waltham, Mass., for his health, has greatly improved, and will shortly return to resume work for the Waltham Watch Co.

Brackley Point hall has recently been completed by the placing of a beautifully lettered sign over the main entrance, closed by an old door formerly belonging to Covehead Church. It is pitiable to note that the mechanical beauty of the name is completely marred by mis-spelling and omissions. Two excuses may be offered for this blunder, viz., economy or ignorance. No doubt by the omission of a letter a saving of one dollar would be effected, and 25 cents by neglecting to introduce an apostrophe. This, however, is poor economy. If ignorance be the cause of the blunder, then a judicious use of spelling books and dictionaries would materially assist in dispelling the dark clouds of gritism and narrowness hovering over Brackley Point.

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat, in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores. ....

LOBSTER FACTORY RAIDED.—The lobster factory of James Houlahan, at Berryhead Cove, Bonne Bay, Nfld., on the west coast, was raided on Thursday, by the British warship Buzzard. Boiler and boats were removed and the factory wood-pile burned. The warship then suddenly left. The lobster business at that point is now destroyed

SKODA'S DISCOVERY, the Great German-American Remedy for Heart, Nerves, Liver, Kidneys, Blood. Guarantee contract with every bottle. Pay only for the good you receive. At all Druggists, $1.00 per bottle, six bottles $5.50. If you want to know about SKODA'S REMEDIES, send postal for "Morning Light."

FOR OVER FIFTY YEARS MRS. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1yr

Mrs. Capt. J. E. MELVIN.
Paralysis Defeated!
BLEEDING PILES,
Headache and Dyspepsia
CURED BY SKODA.
MRS. MELVIN IS A LADY OF INTELLIGENCE, HONESTY AND TRUTHFULNESS, AND HIGHLY ESTEEMED BY ALL HER NEIGHBORS AND FRIENDS. SHE WILL COROBORATE ALL THE STATEMENTS IN THE FOLLOWING LETTER.
GENTLEMEN:—For years I had a terrible trouble with my stomach—my **food sourced** immediately after eating, together with a **severe headache.** I would have a **prickly, numb sensation** in my arms, and down my sides, with strong tendency towards **Paralysis.** For thirteen years I have been troubled with **extreme Constipation,** combined with that most terrible tormentor, **Bleeding Piles.** At times they would bleed profusely, and pain me severely, so that I could neither **sit, stand, sleep or eat.** I became very much reduced in flesh and strength, and felt **completely worn out.** I have tried nearly all the Physicians in this vicinity, and have taken patent medicines in large quantities, but received no permanent benefit. Through a friend, my attention was called to the merits of SKODA'S REMEDIES. I consented to try them, having but little faith in their efficacy, but at first felt but little effect, but persisted in their use. I have now taken four bottles of SKODA'S DISCOVERY, used two boxes of SKODA'S PILE CURE and four boxes SKODA'S LITTLE TABLETS. **My Dyspepsia is all gone, Bowels regular, Appetite good,** and have gained much in flesh. In fact, **AM PERFECTLY WELL.**
All credit is due to your **Wonderful Remedies,** and I cannot say too much in their praise.
Truly yours,
MRS. CAPT. J. E. MELVIN,
No. 38 Warren St.,
ROCKLAND, ME.
BETTER THAN COLD
We GUARANTEE 6 Bottles to BENEFIT or CURE. You get help or get your money back. WILL YOU TRY IT?
SKODA DISCOVERY CO., Wolfville, N.S.

Dissolution of Partnership.

THE PARTNERSHIP hitherto existing between the undersigned, under the name of James Paton & Co, doing business in Charlottetown and Summerside, is this day dissolved by mutual consent.

Dated this 30th day of June, A. D. 1892.

Signed—W. A. WEEKS,
HENRY WEEKS,
A. W. WEEKS,
JAMES PATON.

Referring to the above notice, the undersigned begs to announce that he will continue the business in future under the same name and style of JAMES PATON & CO. All liabilities of the late firm will be discharged by him, and all parties indebted to the said firm will require to make payment to same.

JAMES PATON.

GEORGETOWN DRIVING PARK.

A GRAND GALA DAY.

Games and Trotting Races.

UNDER the management of the King's County Exhibition Association and of Special Committees, there will take place on the Grounds of the Association at Georgetown,

On Thursday, July 7th, 1892,

the following, viz., Running Races, Throwing the Hammer, Putting the Stone, Tossing the Caber, Tug-of-War, High, Long and Running Jumping, Sack Races, and all the usual tests of skill and muscle shown at Caledonian Gatherings. Contests open to all nationalities. Liberal prizes given in each class. Entries to be made before 11 o'clock, a. m., (when the Games will begin) with the Games Committee, Arch. J. McDonald, R. W. Sprague, D. H. Stewart.

TROTTING RACES.

The following events will take place:—Three minute Class, purse $50; 2.40 Class, $75; Free-for all, $100.

CONDITIONS—Entrance fee 10 per cent of purse in each class, payable as follows:—Five per cent on or before June 30th, when nomination must be made; five per cent on the day before the races. Purses will be divided as follows: 50 per cent to first, 25 per cent to second, 15 per cent to third, and 10 per cent to fourth. Any horse distancing the field or any part thereof entitled to first money only. Five horses to enter and three to start in each class. Races to be called at one o'clock, p. m. National Trotting Association rules to govern, excepting when they conflict with above conditions. All communications respecting the Races should be addressed to the Secretary of the King's County Exhibition Association. Arrangements will be made for reduced rates of travel by Rail and Steamboat. A first-class Dining Room and Restaurant will be on the Grounds, and every effort will be made to provide enjoyment for those who patronize the Association. Any further information will be given by the Races Committee, James Clow, D. A. McKinnon, George F. Owen, or by

GEORGE F. OWEN,
Secretary King's Co. Exhibition Association.
