Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in thin dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this is

A Hard Profession.

Old Dr. Johnson once said, addressing a class of medical students, that the study of medicine was a most arduous undertaking; that the most comprehensive mind and the most industrious student could scarcely do more than explore the portals to medical knowledge during the brief time allotted to study before commencing practice, but that throughout his whole life the responsibilities of his profession should rest upon him like a nightmare.

He should explore every avenue of natural knowledge, must become familiar with chemistry, natural philosophy and natural history, but, above all, he must earn the construction of his own frame, the means by which he lives, moves and has his being. He must understand the nature of all those influences by which health is broken down and restored, and by what means disease, suffering and death may be averted. Dr. Johnson further says that nothing contributes so much to the support of quackery as the present insufficiency of medical knowledge. Men do not, he says, easily abandon hope but as readily put faith in ignorant pretenders as drowning men catch at straws.

"The good that men do in this life lives after them." During the life time of old Dr Johnson he invented what is known as Johnson's Anodyne Liniment, a standard family remedy of surpassing merit. This liniment is both for internal and external use and it is safe to say that no single remedy ever discovered has done so much good as has this one. It is inexpensive, ready at a moments notice night or day and may be used with absolute confidence in the thousand and one ailments that afflict humanity. In the cure of severe cramps or pains in the stomach or bowels, dysentry, diarrhœa it is certainly worth its weight in gold. It has been known to cure cases from ten to fifteen years standing after the sufferers had been given up.

MONTREAL, June 7.—Hon Wilfred Laurier has arrived here in hot haste to settle a matter that threatens to mar the peace and even destroy the usefulness of the coming Liberal Convention. It appears that Mr. Beausoleil, M. P., and other Quebec Laurierites have expressed a determination to take the sense of the convention in the Manitoba school question. They have heard their leader denouncing the action of the Ottawa government in this question ever since last session, and thinking that Mr. Laurier was sincere, they naturally supposed he would take a similar stand before the party conclave. Mr. Laurier, however, is furious as he well knows that a motion pledging the party to disallowance would be voted down by every English speaking grit from Halifax to Vancouver, and consequently the leader is doing his best to dissuade his friends from bringing the matter before the convention Will he succeed? is the question.

F. W. HEATH, of Toronto, was cured of a cough that followed la grippe, by using Hawker's Tolu He wrote Mr. Hawker a grateful letter of acknowledgment. ....

The wicked reporter got off a joke at Lord Randolph Churchill's expense the other day. Lord Randolph is not noted for mildness of language, but the public were amazed to read the Times report him as calling upon a great meeting at Bolton to consign Mr. Gladstone "to everlasting perdition.' The word "political" had been left out between everlasting and perdition.

A crash in Chicago, the failure of a large private banking firm with $750,000 liabilities, and the disappearance of the senior partner; this is the latest from the market of sixty millions. USE SKODA'S DISCOVERY, the great blood and nerve remedy.

The Toronto News points out the very patent fact there is room for the practically unlimited expansion of our sales to Great Britain. "Of 590 000 cattle imported by the Mother Country last year," it says, "Canada sent only 80 000; of 79 000 sheep, we sent but 15 000; of 21,000 horses, 1745; of $60 000,000 worth of butter, $1.000 000; and of $27,000,000 worth of cheese, $1,500,000." The boasted market of "sixty millions" across the border presents no such elastic opportunities.

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

AWFUL HEADACHES.

2 YEARS OF SUFFERING.

LIFE A TORTURE.

Kendrick Outhouse, of Tiverton, N. S., says: For several years I suffered from severe attacks of biliousness, which came on periodically, about every ten days. I had *awful headaches* and the smell of anything cooking turned me sick. I became *weak and nervous*, and had no ambition or strength to work. I passed *many sleepless nights*, and for days could not retain food on my stomach. I suffered intensely with piles and hives, and my life was a *constant torture* to me. I became so weak that my friends *gave up all hopes* of my recovery. My brother brought me a bottle of

HAWKER'S NERVE AND STOMACH TONIC,

and a box of

HAWKER'S LIVER PILLS.

I had not taken them long before I commenced to improve and in a short time I was *completely cured*. I grew *strong* and *vigorous*, my appetite returned, I *slept well* and in a few months had *gained 30 pounds* in weight. I have not suffered from piles or biliousness since, now 2 years, and am as *strong* and *hearty* as any man could wish to be. I firmly believe that

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
