### SPECTACLES.

Over twenty-five years I have been in the Spectacle business and during that time have fitted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see a large 4 inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put off getting glasses much longer. Others have been fitted or rather misfitted, with wrong glasses by travellers, and charged a great deal more than they ought to have been. This year our traveller, Mr. C. H. White, intends calling on parties at their homes in the country, to test eyes and show samples of our goods. Should he call on you I bespeak for him your favorable consideration, and any order you may give him will be filled as soon as possible and guaranteed by me. Glasses can also be exchanged at the store, CAMERON BLOCK, City, if after a trial they do not prove as satisfactory as you wish.

### ORIENTAL EYES.

Their Much Landed Beauty Due to False Modes of Living.

An esteemed correspondent of The Woman's Arena writes, "May not the much lauded largeness and luster of the oriental eye be due to false modes of living and to a low grade of civilization?"

In the first place these charms are never found among the working classes or among the tillers of the soil. They belong to the harem and to the harem civilization.

I have examined the women's quarters in Constantinople and Cairo, in Aden and Bombay, in Calcutta and Lahore, and even in Hongkong and Canton, and in nearly every instance the women's rooms were small and dark. Where there were windows these were mere slits in the wall, which did not allow any direct light to enter.

The doorway was small and the door was solid and nearly always closed. The lamp was usually a taper and sometimes a candle. The room or rooms looked out upon a long hall or corridor, which was also dark and gloomy, and this in turn upon an arched and roofed veranda.

In nearly all of these places a woman's daily life was conducted in shadow and shade, and after sundown she had less light than fell to the lot of the pilgrim fathers 250 years ago.

Under these conditions the human eye develops like that of the cat and dog. It becomes larger and seemingly more lustrous in order to allow the owner to move about in safety and comfort. Transfer this unfortunate woman to the open street, the field or the dock of a steamer, and her eyes are in a torture from the sunlight. Her forehead is contracted by a terrible frown, her eyelids are screwed together and her eyes seem to be just the opposite of what they are described in poetry and romance.

It may be I am all wrong, but of all poetic humbugs, I think that the gazellelike orb of the orient is the biggest.

As It Looked to Him.

People who have seen cottonwood lumber warp when it came from the saw can appreciate a story Gene Ware tells about the first sawmill erected at Fort Scott. After the first day's sawing the owner of the mill came down from town, where he had been celebrating the "opening" with the boys. He looked over the crooked boards scattered about the yard for a moment and then inquired with drunken gravity:

"Boys (hic), has that lumber been measured yet?"

"It has not," replied the foreman of the mill.

"Well, when it gets still, take a (hic) corkscrew and measure it."—Kansas City Journal.

The word "fe" or its equivalent in sound exists in all languages, and in every one is expressive of disgust. In the Icelandic the word "pful" means putridity.

The entire trade of this country with Samoa in 1894 was less than \$750,000.
