SOLE PROPRIETORS GREENLEES & BROTHERS, DISTILLERS, GLENROSE, ABERDEEN.

## LORNE HIGHLAND WHISKY

ANALYTICAL SANITARY INSTITUTION  
54, Holborn-viaduct, E. C., London, Aug. 8, '79

REPORT on the LORNE HIGHLAND WHISKY:

"We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fragrant, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality."

## Magnetic Medicine!

Brain and Nerve Food

For Old and Young, Male and Female.

Positively cures Nervousness in ALL its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Supersensitiveness, Lacerations, Barrenness, Seminal Weakness, and General Loss of Power. It repairs Nervous Waste, Rejuvenates the Jaded Intellect, Strengthens the Enfeebled Brain and Restores Stagnating Tone and Vigor to the Exhausted Generative Organs in either sex. 25¢ With each order for twelve packages, accompanied with five dollars, we will send our Written Guarantee to refund the money if the treatment does not effect a cure. It is the Cheapest and Best Medicine in the Market. 25¢ Full particulars in our pamphlet, which we desire to mail free to any address.

Mack's Magnetic Medicine is sold by Druggists at 50¢ per box, or 6 boxes for \$2.50, or will be mailed free of postage, on receipt of the money, by addressing

MACK'S MAGNETIC MEDICINE CO.,  
Windsor, Ont., Canada

Sold in Charlottetown by Apothecaries Hall Co., Agents for Prince Edward Island, and by all Druggists everywhere. [see 18 wky]

## CORRESPONDENCE.

We do not hold ourselves responsible for the opinions or statements of our correspondents.

### British American Book and Tract Society.

To the Editor of the Examiner.

Sir,—Kindly permit me, through your paper, in behalf of the Tract Society, to return most cordial thanks to our friends in Charlottetown who, to the number of one hundred and ten, contributed about \$175 in aid of the colporteur work in this Province. Alberton and Summerside have contributed about \$80. Bedeque and other sections of the Island may give \$75, making in all \$530, which is sufficient to support one colporteur for the ensuing year. The committee has decided to keep two men in the field for the next year—one east of Charlottetown and one in the western section of the Province.

Who will help us to raise the other \$300? Doubtless there are very many upon whom I have not called, who have a deep interest in the circulation of the Bible, good books and tracts among the poorest classes in the Island, and would consider it a privilege to give \$5, or \$10, or even dollar to promote such work. Perhaps some liberal friend may enjoy the privilege of supporting entirely a colporteur, as several gentlemen in Nova Scotia and New Brunswick have done. One gentleman paid the entire salary of a colporteur for two years as he went on his mission of mercy to the needy in that part of Nova Scotia.

Please forward any donation you can make to the Secretary at Granville Street, Halifax. Although two men will be placed in the field for the year, it is by no means certain that the Society will draw funds from another Province to continue this extra work. It is a much-needed work and the people of this Province would do well to place it on a solid basis.

Again thanking our numerous donors and you, Mr. Editor, for all your kindly co-operation,

I remain,  
Your's faithfully,

A. N. ARCHIBALD,  
Superintendent of Colporteurs,  
Charlottetown, Sept. 11, 1882.

### Murray Harbor South Notes.

On the 6th instant a lecture was delivered in the Methodist Church, by the Rev. John Burwash, A. M., of Charlottetown. Subject: "Modern Science and its Imaginations." The large and attentive audience listened to the rev. gentleman with much interest, and felt that they had spent a very pleasant and profitable evening and hope soon to have the privilege of listening to the Professor again.

A few have commenced harvesting here, and by present appearance the grain will be a fair crop.

The potato bug has made its appearance in several places, but has not done much damage yet.

The lobster factories have all closed down, showing what a law-abiding people we are.

Our fishermen are having poor success, through bait being very scarce.

### The Spirit of our Men.

The spirit of the troops (the Times correspondent says) is excellent, but the intense heat is very trying. Water has been found, fortunately, in several places on the march, the force literally wading ankle deep in sand through the desert, and the labor for mules and horses being very heavy.

The conduct of the Horse artillerymen cannot be too warmly praised. Utterly exhausted with the toilsome march through the desert, and just as the sun began to be powerful, they were attacked in front and afterward in flank by at least guns of equal calibre, all excellently served. It was wonderful how they could stand up so long. The drivers, however, when the gunners were exhausted, did the work of the latter and obtained for them a welcome rest.

### The Lumber Trade of St. John.

The number of vessels cleared from St. John, N. B., with lumber during last month was 23, of a total tonnage of 15,955 tons. These carried 14,172,000 superficial feet of deals, deal ends and battens, 189,000 feet scantling, and 723 tons pine timber. A statement of the clearances of lumber for Transatlantic ports from St. John, from the 1st January to the 31st August, 1882, is as under:—

Deals, battens, and deal ends, sp. ft. 126,675,218

Scantling and boards . . . . . 3,241,033

Pailings, pieces . . . . . 209,195

Pine timber, tons . . . . . 1,569

Birch timber, tons . . . . . 3,474

This wood found its way to Gibraltar, and other European points, to Australia and to Africa, in addition to 37 English, Scotch and Irish ports.

"TWO-THREE YEARS' EXPERIENCE" says an eminent physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used, Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cents per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See advt. in another column.

## Meeting of Presbytery.

The Presbytery of P. E. Island met in St. James' Hall, Charlottetown, on the 13th inst.

Rev. Mr. Scott's resignation of the pastoral charge of St. Peter's and Brackley Point Roads was the first item of business taken up. Representatives from both sections of the congregation were heard. They submitted resolutions, adopted by the congregation, expressive of their warm attachment to Mr. Scott, their pastor, their high admiration of the ability and zeal with which he had labored amongst them, and their deep regret at the prospect of losing his services. Mr. Scott also spoke feelingly of the kindness which he had received from his congregation, and of the comfort with which he had labored amongst them, but still pressed the acceptance of his resignation, assigning as the sole reason of this step, failing health and the need of rest. The Presbytery accordingly accepted Mr. Scott's resignation, and appointed Rev. Mr. Grant to preach in his place, and declare the congregation vacant on and after the 1st of October. The clerk was appointed interim moderator of the session. The Presbytery express sympathy with Mr. Scott and the hopes that by the rest sought he may be restored to his wonted health.

The call from the Vale Colliery and Sutherland's River, to Rev. Dr. Murray, was then taken up. Rev. Mr. Blair was received as a Commissioner from the Pictou Presbytery, and from the aforesaid congregation; and Messrs. S. G. Lawson, A. B. McKenzie and Lemuel Miller as Commissioners from the congregation of Prince Street Church. The papers connected with the call were read, and the Commissioners on both sides heard. From the pleading it appeared that the congregation calling Dr. Murray is cordial, harmonious and enthusiastic, in their desire to secure his services; it also appeared that the Prince Street Church is warmly attached to their pastor, and would most gladly retain his services. The Commissioners spoke in the highest terms of Dr. Murray's ability, of the great service he had rendered to the cause of education, of temperance, and to the Church generally during the thirty-three years of his ministry in this Province, and deplored his removal as a loss not easy to be repaired. The call was then put into Dr. Murray's hands, when, after an able and feeling review of the history of education and of his ministry on this Island, in which he referred in feeling terms to the kindness which he had received from his people and from his brethren in the ministry, he intimated his acceptance of the call to Sutherland River and Vale Colliery. The Presbytery then, with feelings of deep regret, acquiesced in Dr. Murray's decision, severed the tie between him and his congregation, and transferred him to the Presbytery at Pictou, for induction into his new field of labor.

Two cordial and unanimous calls to Mr. A. B. McLeod were received and sustained; one from the congregation of Cardigan and Dundas, offering a salary of \$700, and the other from Woodville and Little Sands, guaranteeing a salary of \$650 with a free house and a glebe of 60 acres. These calls were placed in Mr. McLeod's hands, and two weeks given for his decision.

Rev. A. F. Carr was appointed to moderate in a call to Mr. A. B. McLeod in the congregation of West Cape, Cambleton, and the Brae on 26th inst., at 11 o'clock, a. m., and Rev. C. Fraser to preach on the 17th inst., in Cambleton, at 11 o'clock, West Cape at 2.30, and Brae at 7 o'clock, and give notice of said moderation.

Rev. Mr. Fraser was also appointed to preach on the 24th inst., at Lot 11, at 11 o'clock; at Tyne Valley, at 2.30; and Egmont Bay, at 6.30; and on 1st October, at Lot 14 at 11 o'clock, and Lot 16, at 3 o'clock.

Rev. K. MacLennan was appointed to preach on Sabbath, 17th inst., at Montague Bridge, at 11 o'clock; Lower Montague at 3 o'clock, and Georgetown at 6.30 o'clock.

An *in hunc effectum* meeting of the Presbytery was appointed to be held in Summerside, on the 28th instant, at 6.30 p. m., and the next quarterly meeting to be held in Zion Church, on the first Tuesday of November, at 11 o'clock, a. m.

JOHN M. McLEOD,  
Presbytery Clerk.

The legacy of \$15,000 bequeathed by the late Major Mills, to be devoted to the purchase of bread for the Montreal poor, is so burdened with conditions that there is reason to believe the city will be forced to refuse to accept it. The money was to be deposited and a certain rate of interest obtained upon it, which was to be spent in supplying the poor with bread, and three stations were to be located in various parts of the city to distribute this bread. It is shown by a fair estimate that the stations required cannot be maintained for less than \$4 per month each for rent, and \$3 per week each for attendance. These stations, therefore, would cost \$612 of the annual interest, which at 6 per cent. amounts to \$900, leaving only \$288 to be laid out for bread. If the Corporation refuse the money it will go to McGill College for the endowment of a chair.

In their autumn walks many may have noticed on the fallen maple leaves excessively green spots, while all the rest of the leaf was sapless and sere. This phenomenon is not owing to any peculiar direction of the sap, but rather an illustration of what scientists are pleased to call reciprocal parasitism. The leaf is frequently attacked at the end of summer by an erysiphas that settles on the lower surface, and flourishes there. The spots occupied by the parasite remain green in the midst of the posterial dead leaf.

A hurricane at Galveston, Tex., on the 6th made havoc among the shipping. Nine vessels were driven ashore at Arkansas Pass, and two schooners laden with railroad iron, were wrecked at Galveston,
