**Japan Sends Missionaries To Canada**

Ever since Church Union in 1925 the United Church of Canada has been sending Canadian missionaries to Japan. Today for the first time in history, Japan is sending to Canada missionaries to serve The United Church of Canada.

Two Japanese Ministers have already arrived in Canada as missionaries to the Japanese people in Canada who are members of The United Church of Canada.

The first Japanese missionary is Mr. Tadashi Mitsui, 25 years of age, married, no children. Mr. Mitsui is a 1956 graduate from the Nishi Tokyo Metropolitan High School, and in 1956 he graduated with a B.D. from The Tokyo Union Theological Seminary. Mr. Mitsui is the son of a minister of the United Church of Christ in Japan. He has done extensive work on Youth Camps and has served also as assistant pastor of Kamato Church.

**AT WORK**

Mr. Mitsui is already at work among the Japanese in Vancouver. His area takes in Vancouver and New Westminster and the Fraser Valley. The largest group among the Nisei and Issei in the City of Vancouver. There is a smaller group in New Westminster. The Japanese in the Fraser Valley are in several groups. The ministry to these latter consists of pastoral visitation and cottage meetings.

The second Japanese missionary to Canada is Mr. Noriomi Kuroki. Mr. Kuroki was educated at the Jiyugakuen Middle and Union Theological Seminary in 1954. He is 26 years of age and single. He is also the son of a minister of the United Church of Christ in Japan. He served the Inator Church first as an assistant and later as pastor.

**SERVE NISEI**

Both Mr. Mitsui and Mr. Kuroki speak English. They will be serving the Nisei second generation. The United Church has a responsibility to serve the Nisei who have services in both Japanese and English.

Negotiations with the United Church of Christ in Japan were assisted by Rev. E. F. Carey of the United Church Overseas Mission Board. Mr. Carey interviewed these men personally and obtained recommendations from reliable sources. He spent hours with the Canadian Immigration authorities and shipping companies to arrange proper documentation and passage.

The Board of Home Missions under which these two missionaries will serve, also announced that Rev. Gordon J. Imai, a graduate in Engineering of the University of British Columbia has decided to enter the ministry of the United Church and will serve Japanese families in Montreal. He has studied at the Theological College in Vancouver. Following that he went to Montreal to serve the Japanese congregation in that city and complete the remaining two years of his theological course.

Mr. Imai is a Nisei second generation Japanese. During this last summer he has attended a Japanese Language course at Yale University in the United States. Although Mr. Imai is Japanese. He did not do so with a great deal of duty and consistency. It was necessary to send him to Yale for this course. This equipped him to preach in Japanese.

WINNIPEG (CP) — Premier Campbell suggested Tuesday that federal cabinet ministers should remember what they said about national hospital insurance while they were in opposition.

His comment followed a statement Monday by prime Minister Diefenbaker that the federal government had given Manitoba no assurance that mental and subacute patients will be included in the plan.

Mr. Campbell said that both Mr. Diefenbaker and Finance Minister Fleming indicated while they were in opposition they approved inclusion of these two fields under hospital insurance.

**Stresses Importance Of Full Support For APEC**

An appeal to individuals — particularly lawyers, doctors, businessmen and others — to join the Atlantic Provinces Economic Council was made yesterday by Alan Holman an APEC director here.

"Anyone can join APEC," he said. "There seems to be a general feeling that APEC membership is for large business and industrial concerns. This is not the case. There is a category for everyone." Mr. Holman said.

Giving an indication of the diversity in APEC membership, Mr. Holman said APEC's 230 members cover industry, business, education, the professions, labour and a great number of individuals. Membership runs from \$10 for an individual up to more than \$3,000 for a number of large industrial concerns, he said.

"Properly supported, and properly carried out, the economic council plan can become over the years the most powerful force we have ever known in the Atlantic Provinces for economic improvement," he said. "The measure of its success, however, will depend on your willingness to participate actively in its planning and to give it the financial support essential to its needs," Mr. Holman stated.
