him? How he wished that he knew. Perhaps it was that wish that made his hope seem longer than ever.

Old Mr. Toad was within three good hops of the edge of the water, when Longlegs the Heron suddenly raised himself up to full height, and turned his head. If Old Mr. Toad had been still, Longlegs wouldn't have seen him. But it was right at that very moment Old Mr. Toad made one of his longest hops. Old Mr. Toad made another long hop. Longlegs took another quick long step and again started to strike down with that great long bill of his. He was just a second, a wee second, too late. Old Mr. Toad made the third long hop. Splash! He landed in the Smiling Pool. Every body heard that splash, because at the first steps of Longlegs, all the singers had stopped. Old Mr. Toad had disappeared in the mud at the bottom of the Smiling Pool. It was a leap in time.

**Does Nickel pay taxes?**

"Well, how much tax does Nickel pay?"

"I guess it would be pretty hard to figure out all the taxes, but Uncle Jim, who is an accountant, told me that the Nickel Company paid \$5.30 per share in income taxes last year but the owners got only \$2.60."

"They sure do, son. In 1951, for instance, the Nickel Company paid over 48 million dollars in income taxes. Everybody has to help pay the cost of Government. All of us pay some share in income taxes, sales taxes and many other kinds of taxes. The industries in this country do pay a large part of the cost of Government."
