AND now it is understood the dynamsters will be served with a warrant at the instance of the customs authorities for smuggling the dynamite into the country.—*Hx. Herald.*

THE schooner "William H. Rourke," Capt. Finley, from Perth, Amboy, for St. John, N. B., sank in Vineyard Sound, on the 23rd. Four of the crew were drownod. The "W. H. R." belonged to St. John, N. B.

THE writer this afternoon counted twelve cows on Hillsborough Park. How unlike the care taken of Squares and Parks in other cities of the Dominion, as our people who visited those places during the past month must know?

WHILE the Central Prison, Toronto, convicts were being brought in from work on the 23rd, two of them named Scott and Stevens broke away. A guard fired his rifle and the ball went through Scott's brain, killing him instantly.

RENDING HYMEN'S FETTERS.—There are four diverce cases now before Judge Wetmore, at Fredericton, N. B., for adjudication. The first case on the docket is Henry Hartt vs. Emma Hartt. The parties belong to St. John. Henry alleges that his wife, whose maiden name was Ward, has left him and that she has been guilty of very bad conduct.—*Globe.*

THE question whether a member of the Hebrew faith who believes in the existence of God but not in future rewards or punishments, which is no part of their creed, after death, is a competent witness in Canadian Courts, is now under the consideration of Mr. Justice Loranger, of Montreal, a witness being objected to as incompetent who holds these beliefs.

THE Bank of Montreal has declared a half yearly dividend of five per cent. payable on December 1st. The statement of earnings for the half year will be issued about the middle of November, the dividend being based on earnings for the five montht with an estimate for October. The statement it is said is likely to make a good showing. There is an increase in the dividend.

A SINGULAR CASE.—D. M. Dickey, merchant of Canning, N. S., has been committed for trial for affixing a card to the store door of Ells, another merchant of that place the card bearing the words: "Fires set low; a hoss and wagon and two loads of furniture taken in part payment," which was taken to mean that Mr. Ells had been guilty of incendiarism, and had received payment for his crime.

BETWEEN thirty and forty men, from New Glasgow, N. S., and P. E. Island, were second-class passengers on the express train from Moncton, on the 25th. They were all bound for Portland, Bangor, Eastport and other points in Maine, U. S., to work in the lumber woods. There were also several families of immigrants, first-class passengers, from the Island. Their destination was Boston.—*Moncton Transcript.*

NORTON BROS., of the City Hardware Store, are this day putting in their stock of carriage goods, which is the largest and best stock of the kind ever brought to the province, making the material for 220 complete waggons and carts, to be manufactured on the Island. It is a good indication of the growing prosperity of the country, to see our farmers requiring so many carriages and affording sufficient work for all of our best classes of mechanics.

WILLIAM B. BRONSON, of Waterbury, Conn., was sentenced, in New Haven, on Tuesday last, to three months in jail, his wife to six months, and his son to six months. They had been convicted of neglecting to provide medical attendance for a married daughter and sister who had died in childbirth. Judge Culver, surprised at the jury's finding, asking the foreman for a recommendation to mercy, as the evidence was that the prisoners' offence was due mainly to ignorance.

STARCH FOR ENGLAND.—The steamer "Princess of Wales" had as freight from Georgetown, on Thursday last, eighty tons of Starch in transit to England. To the credit of the crew of the steamer "Princess of Wales," it may be stated that they transferred this freight from cars to steamer in extra quick time. Each car was unloaded at the rate of thirteen minutes per car, and the whole freight of eighty tons placed on board the steamer in less than two hours.

THE steamer "Rio Janeiro," which sailed from San Francisco, for Hong Kong, on the 23rd, carried away about a thousand Chinamen and about three-quarters of a million dollars which they will take away with them out of the country. Over eight hundred of them were provided with return certificates. It has been remarked that a large proportion out of the returning Chinese are now bringing women whom they claim as their wives. There being no way to disprove their marriage, they are permitted to land, and in a majority of cases the women are immediately turned loose for immortal purposes."

OATS—By late cable advices from England, we learn that oats are selling in Liverpool at 5s. 5d. per 100 lbs., and in the Bristol Channel and English Channel at seventeen shillings per quarter of 304 lbs.

AT a meeting of the manufacturers of knitted goods and their agents, held in Toronto on the 24th, it was decided that all the mills should reduce their production over 40 per cent. during the next six month.

CAPTAIN DREVAR, who left Dover, England, on Monday last, in a miniature paddle boat, to attempt to cross the English Channel to France was rescued by a passing vessel This is the second time this month that Captain Drevar has been rescued under similar circumstances.

DR. CLAY, Immigration Agent, at Halifax, writes to the Moncton papers regarding the whereabouts of an English lad named James Francis, 11 years of age. He was an immigrant, placed with Mr. S. G. A. Morrison, of Acadia Mines, for adoption. Mr. Morrison sent him to Moncton, but he has not been heard of since September 1882. It is hinted that the remains of a human being seen by two women in the blueberry plains near Moncton are the remains of the missing boy.

H. M. S. "GRIFFON" sailed for Halifax this forenoon at 11 o'clock. Previous to her departure a large number of citizens called on Commander Davies and his officers, and bade them farewell. The gallant Commander leaves our shores carrying with him the best wishes of our citizens and a host of his old acquaintances. He now holds the proud position of being the first Canadian who ever sailed one of Her Majesty's Ships into his native port. We wish the "Griffon" a pleasant voyage.

COTTON MILLS.—The St. John cotton mill, which is now running on full time, is inspected by large numbers of visitors daily. It is turning out a very superior article of grey cottons, and has now contracts three months ahead on the order book. Despite the rumored failure of the mill, the St. Croix cotton factory is working in full blast. The difficulties emanating from complications at Providence, will, it is thought, affect the factory only temporarily, as it is on a sound working basis.—*News.*

THE *Pall Mall Gazette* says that Mr. Shaw the English Missionary who has been so prominently before the public is not a minister but a layman. He is now forty-three years old, and was educated at the Normal College of the British and Foreign School Societies. At Tamatave he has superintended every department of missionary work, religious and educational, medical and mechanical, including the erection of schools and churches. He is a member of the Zoological Society of London and a correspondent of the Meteorological Society.

A PROMISING OUTLOOK.—Borings at the Belliveau Albert Mine have reached a depth of 680 feet. As the operations have proceeded oil has been met with at times and during the last day or two the shale brought up was impregnated with oil and burned freely. On Wednesday the flow of oil began to be continuous and it had continued so when our correspondent lsst wrote. The oil is remarkably pure. There is no doubt that a deposit of oil has been struck, the only question to be decided being as to the quantity. If it proves to be large look out for a boom in Belliveau mining shares.—*St. John Telegraph.*

A MARKET messenger boy who was not certain of his destination, met with a very heavy loss yesterday. He was sent by a butcher, with a leg of mutton, to the residence of Mr. George Hooper. On Euston Street he fell in with a man of whom he enquired the whereabouts of Mr. Hooper. The stranger in answer said: "I am just going to Mr. Hooper's and I will take the mutton and save you the journey." It was given in good faith, and no doubt with thanks. Mr. Hooper, however, has not yet smelled a chop from the quarter, and he never will, for the strange man had a soft lift, and made the best of it.

IN the Wayne county Circuit Court, Detroit, Loveila Benedict began a divorce on the 19th inst., against Llias Benedict, to whom she was married at Buckhorn, Kent County, Ont., December 31, 1878. The bill recites that in the winter of 1882 Benedict took his wife into the north woods of Michigan, and there made her do manual labor fit only for a strong man. She was forced to pull one end of a cross-cut saw, sawing logs in the snow. She frequently fainted from exposure and over-work. Once he threatened to burn her on a heap of logs, and tortured her with a red hot iron, and with salt and vinegar to make her promise to apply for a divorce. The final allegation is that Benedict has wasted the property and sold their home for a mere pittance, and now neglects to support her. The complainant is twenty-five years old.

NOT long ago an Irishman named Peter McEnerney died in Birmingham, Conn. He had come over from Ireland but a few years before. He left a family of seven children, the oldest of whom is twenty-one. He kept a small grocery store, keeping up some show of respectability, yet living apparently on almost nothing at all. At his death he left no will and the widow and orphans expected to fare but poorly. As the administrator went to work, however, he revealed new wonders at every step. First a large amount of real estate belonging to McEnerney, and amounting to about $100,000 in value, was discovered. Hardly was the surprise at this over when word came from Fisk & Hatch, of New York, that they held $150,000 in bonds for McEnerney. How the man collected so great an amount of property is a mystery to his family as much as to everybody else.

THE
Admiration
OF THE
WORLD.
Mrs. S. A. Allen's
WORLD'S
Hair Restorer
IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.
