MILLS BURNED.—Macneil's Mills, West Devon, were totally destroyed by fire on Thursday last. The loss is very heavy, the establishment being one of the best in that section of the province, and there being no insurance—Agriculturist.

CHRISTMAS BOX.—A number of the lady friends of the Island soldiers met at the Mayor's office this morning and decided to send a Christmas box to the members of the Island contingent. The box must close tonight. Mayor Warburton will be glad to receive and forward any small parcels for individual members of the contingent. He asks that perishable goods be put in tin boxes. The contributions already include a box of cigars from the barbers of the city and a box of candy from James Vatcher. The idea is a good one and will no doubt be acted upon to a very large extent.

OUR FIRST QUALITY LENSES.—Are ground in large quantities at one time. They are then closely inspected by an expert, and those that are defective are sold to dealers who use second and third quality stock, not knowing or caring about the bad results that will surely follow. Our lenses are so ground as to enable the wearer to see through all portions of the lens with equal distinctness. They are very hard and therefore retain their beautiful polish. It does not matter what kind of glasses you are wearing or who fitted them, or the nature of your case, if you are not perfectly suited, call and see what we can do for you. It will cost you nothing.—Boston Optical Co., Charlottetown.

TWENTIETH CENTURY FUND.—The meeting in the first Methodist Church last evening, in the interests of the \$1,000,000 fund, was very largely attended. Dr. Johnson was chairman, and delivered a short opening address. Mr. J. D. Seaman, and ex-Mayor Dawson each delivered a brief address. Dr. Carman then spoke of the fund. The Methodists of Canada have undertaken to raise \$1,000,000, and its accomplishment is cheerfully possible. He urged all to help forward the vast and important scheme, for the good of their church and themselves. The opportunity had come, and success should be theirs. Mr. J. T. Mellish, and Rev. J. J. Teasdale made a few remarks at the close of Dr. Carman's address, and the meeting closed. The choir rendered good and suitable music.

LETTER FROM LADY ABERDEEN

Paris International Exhibition—Department Under the Direction of the National Council of Women of Canada.

Sir,—At the request of the National Council of Women of Canada I venture to ask you to draw the attention of your readers to the effort which is to be made to represent the life and work of the women of Canada in a suitable manner at the Paris International Exhibition of 1900.

Instead of arranging for a Woman's Section, which but too often means disappointment and imperfect representation, the Dominion Government have decided to publish a handbook for distribution, which will give statistics and information regarding all departments of women's life and activities, and concerning the organizations with which they are connected, and which will also contain a series of interesting papers giving a general survey of the position, education and work of women in the Dominion.

The preparation of this work has been entrusted by the Government to the National Council of Women of Canada, who have appointed a Committee of Arrangement under the co-operation of Mrs. George Drummond, of Montreal.

The volume will be divided into Sections on Charities and Reform, Education, Trades and Industries, Social Work, Professions and Careers, Art, Literature, Church Work, Indian Women and Immigration, each of which will be undertaken by a Sectional Committee and Co-venter.

In order to facilitate the work of these Sections, a list of questions has been prepared and is being sent out by Mrs. T. F. Wilson, corresponding Secretary of the National Council, to persons likely to have the requisite experience and ability for replying to inquiries bearing on the various departments I have named.

It will greatly aid the Council in its work if those possessing information which will be of interest for such a handbook will send their names and addresses (post free) to

Miss T. F. Wilson,
In care of Anguste Dupuis, Esq.,
Paris Commission,
Department of Agriculture,
Ottawa.

before Dec 1st, and indicate the section regarding which they could furnish answers to our question.

All such help will be gratefully received as it is the earnest desire of the National Council of Women to show itself really worthy of the confidence reposed in it by the Government to produce a volume containing as full, accurate and concise information as it is possible in the short time available for compilation.

It will also interest your readers to know that the Government intend to furnish an apartment especially as a Rest Room and Information Office for the use of Canadian lady visitors to the Exhibition.

I remain
Yours faithfully,
LADY ABERDEEN,
Editor-in-Chief
of Canadian Women's Handbook.

The last issue of the Maritime Merchant has an excellent likeness of Mr. Geo. C. Cook, for many years purser of the steamer Halifax, who has lately gone into the commission business in Halifax.

Mr. Granville C. Cunningham, formerly of the Montreal Street Railway, has been appointed manager of the General Electric Railway, London, Eng. Mr. Cunningham was one at time a resident of Charlottetown.

A message received this morning by Dr. Taylor, from Dr. McNeil, of Summerside, contains the welcome information that the Hon. the Master of the Rolls is much improved but is not well enough to return home to-day. He will come down on Monday next. Superintendent Sharp has kindly placed his private car at his disposal.

THE EYE is one of the organs most likely to render life a miserable failure—a loathsome burden. Loss of sight is the very king of terrors, while any impairment of vision is a source of ghastly anxiety, of constant dread, of sickening mental worry, to say never a word of acute physical anguish. There is just as much science required in fitting spectacles as there is in prescribing medicines. If you have any trouble, see what Dr. Jordan, refraction and specialist can do for you. Boston Optical Company.

GRADUATED.—With pleasure we record to day the success of Mr. Joseph J. Westaway, of Georgetown, who, after a thorough business course at the P. E. I. Commercial College, under Principal Oxenham, has secured the diploma of that institution. Mr. Westaway has proved himself to be a persevering and painstaking student, and a business firm that will be fortunate enough to secure his services as an accountant will find him to be trustworthy and faithful in the discharge of his duties, and ambitious for its success. Our best wishes will attend him wherever his lot may be cast.

ACCIDENT.—On Monday while Augustin, the young son of Mr. Bernard Wynne, was getting a sack of water at Duffy's spring, Emviale, the mare and cart in some unaccountable manner slipped off the road and fell over the steep embankment into the spring below, a distance of 8 feet. But for the prompt action of Messrs. Peter Connolly and Joseph Clarkin the mare would have suffered severely from the cold water. She received only a few slight scratches. It would be well for the enterprising supervisor to see this place and have a railing erected on short notice.

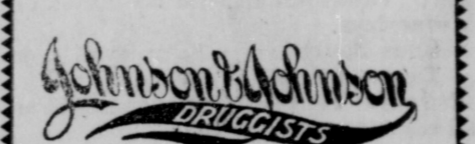

BUILT BY AN ISLANDER.—The Province of Vancouver, B. C., says: Mr. Wm. N. LePage, head of the great LePage glue business, called on The Province yesterday and in the course of conversation drew attention to the fact that Nelson Spratt, as stated in the New York World, of September 12th, 1895, was the designer and builder of the yacht America which won the America's cup in 1851. "The World however, forgot to mention," said Mr. LePage, "that Nelson Spratt was a native of Charlottetown, Prince Edward Island, and was a loyal British subject all his life." Mr. LePage is, moreover, the proud possessor of the flag carried by the America on her trip to England, which resulted in the capturing of the cup, and though he has frequently been offered thousands of dollars for them he will not part with so interesting and unique a relic of the first of the long series of international cup races. The American writers on yachting matters, too, usually refer to the America as being distinctly a type of American skill in yacht building in those days, which skill, say they, has always been able to maintain at a few degrees ahead of the best of British builders in the same line.

As a general rule, the most successful man in life is the man who has the best information.—Disraeli.
