To the Electors of the First Electoral District of King's County.

GENTLEMEN.—THE Twenty-second General Assembly of Prince Edward Island being about to expire, I beg to tender you my most grateful acknowledgments for the distinguished honor which, twelve months ago, you conferred upon me in selecting me to fill the vacancy in the Parliamentary representation of the District, occasioned by the death of my lamented friend, the late Hon. Donald Beston.

Although I have not been able, during the brief period of my Legislative connection with you, to perform such an amount of public good as under a more extended term of office, I might reasonably hope to accomplish; yet, I foster myself that my endeavors to advance the interests of my constituents have not been exerted altogether in vain.

I should have addressed you at an earlier date on the subject of the approaching General Election, but impressed with the great cardinal maxim that "Union is strength," I have deferred the matter until the present moment; in hopes that our Charlottetown sages would present us with some plan of operation for the approaching campaign, in which we might all co-operate—some common platform on which the friends of progress and order "might all pull together."

It being now almost unanimously admitted that the "Land Purchase Act," together with the "Act to assist Leaseholders in purchasing the fee simple of their farms," constitute the most effectual means yet devised for converting our leasehold tenures into freehold, I shall be ready at all times to give the most ample effect to the provisions of those statutes.

I have long indulged the opinion—and am still of the same belief—that the laws relating to Education should be amended, in some of our improvements, to enable the District Teachers to draw the entire amount of their salaries from the public purse.

I am still decidedly opposed to Confederation; and although I always respect the conscientious opinions of others, men, however widely those sentiments, political or otherwise, may differ from my own; nevertheless, I deem the right, in any case, of "a small minority of the people" to make laws for, or rule the majority.

I shall, therefore, oppose any party, Liberal or Conservative, who will attempt to join this Island in a Federal Union with Canada. Who would deprive us of the inestimable privilege of making the laws that govern ourselves to the "gentle mercies" of a people whose inordinate selfishness and extravagance have already brought their own magnificent country to the very brink of bankruptcy, and whose sectional animosities are fully as malignant as were those which provoked the late calamitous war in the United States, and drenched that once prosperous country in the blood of a million of its own subjects.

It is time and other circumstances permit, I will call upon you severally before the election comes off, when we can enter more fully into any of the public questions of the day, than it is possible to do through a newspaper communication. In the meantime, I beg to subscribe myself

Your most obedient servant, EMANUEL McEACHEN. South Lake, Jan. 15, 1867.
