

LOCAL AND OTHER ITEMS.

MASTERS & SPECIALTY.—Hear Bros. For Drill.—No. 1 Company, Garrison Artillery, will meet for drill this evening at 8 o'clock.

GOOD WORK.—The front of the London House building has been artistically painted by Mr. P. H. Trainor.

C. M. B. A.—The Catholic Mutual Benefit Association of Summerside, are holding rooms situated in the Crabbe Brick Building.

HOUSE AND GARDEN PLANTS, from the Acacia Nursery, by auction on Friday morning at TEN o'clock.—Robert Bearist, auctioneer.

GOOD CATTLE.—Several fat cattle were weighed on the city scales to-day for Blake Bros., as follows: 1 E. McLeod, 1 ox, 122 lbs, 1 cow, 117 lbs, 1 cow, 117 lbs, 1 cow, 107 lbs.

PRINCE OF WALES COLLEGE.—The commencement exercises of Prince of Wales College and Normal School will take place at the Masonic Opera House, on the evening of Friday, the 8th June, at 8 o'clock.

LADY TO REST.—The remains of Joseph Gallant, drowned on Friday at Fifteen Point, were committed to the earth on Saturday in the presence of a large gathering of all denominations. Great sympathy is felt for the bereaved widow and orphans.

ISLANDERS RETURNING.—The Moncton Times says a large number of young men and women passed through here yesterday morning en route from Uncle Sam's county to their homes in P. E. Island. The morning express was delayed a few minutes at Paines, transferring the baggage.

WHEAT EXPORTATION.—The opening of navigation on the lake is influencing a lively movement in the wheat world, and elevators at western points are beginning to ship out their surplus in large quantities. For the week ending Saturday night 90 cars were inspected at Winnipeg.

MASONIC FUNERAL.—The funeral of the late Rodrick Morrison took place this afternoon from the Masonic Temple to Eton, Belfast, via the Jacques Cartier. The funeral was under the auspices of the Masonic fraternity, and there was a good attendance of the brethren and citizens generally.

THE FLORIDA.—Owing to a proposed change in the sailing days of the steamer Florida, there will be no sailing from Charlottetown on June 22, but the steamer will leave on the following Tuesday (the 25th) and every Tuesday thereafter during the season. Her sailing days from Boston will be on Saturdays at 10 a. m.

NO DELAY NOW.—New arrangements having been made by the immigration officials at Boston, no delay is experienced whatever in landing passengers from the steamers, as an officer boards each one in the harbor, and the examination is virtually over by the time the vessel reaches her dock. There was no wait whatever on the Florida last trip.

DEED FROM BLOOD POISONING.—Bert Mery, from the district of St. John's, aged 40 years, son of Alexander McKay, of Harcourt, Kent County, N. B., accidentally cut his finger a day or two ago, and in some unaccountable manner got poison, supposed to be from the sea, on the wound. He suddenly took sick and died in great agony about one and a half hours later.

A GOOD MOVE.—At the regular monthly meeting of the Women's Christian Temperance Union of Summerside, to be held this evening, the subject for consideration is "How shall we keep our children off the streets in the evening?" The subject is one well worthy the serious consideration of many mothers not connected with the Women's Christian Temperance Union.

MORSES RUN AWAY.—The Woolen Mills horse took fright and ran away yesterday afternoon about 10 o'clock. The driver, part of the sloven was dropped at the corner of Grafton and Pownall streets, and the horse with the rest of the vehicle attached was captured on Market Square. Another horse starting in front of the Fish Market was frightened by the runaway animal and also started off, but was stopped in the vicinity of the jail one the worse for his sport.

SEE STOOD UP HER RIGHTS.—The pernicious principle of socialism and anarchism seems to be gaining a foothold here. A few evenings ago a citizen caught a little girl picking flowers in his garden. He told her to stop and leave at once. "But," said she, "you have plenty and I have none, and I want some of these flowers." She had evidently been reading the Guardian, and reasoned that if the land is common property so also is that which grows upon it.

STEAMERS MOVEMENTS.—The City of Ghent arrived from Halifax this morning with a full cargo made up mostly of English goods for our merchants, and it is likely passengers. She will leave for Halifax, via Souris, this afternoon at four o'clock with a cargo of lobsters, oysters, pork and eggs, the shippers being Walter Matheson, J. A. Farquharson, N. B. & M. Rattenbury, G. D. Longbrun, Carrell Brown, Geo. H. Toombs, Archibald Melrose, Wallace, Prowse & Sons, Murray Harbor. The Fastnet will be due here to-morrow morning.

The Florida left Port Hawkesbury to-day at 11:30, and will be due here about 8 o'clock this evening.

MODERN SCIENCE.—The old nursery rhyme which tells the doleful story of the servant girl who "went into the garden to hang up the clothes, when down came a blackbird and took her nose," finds a retributive sequel in a modern triumph of science. It appears that an extraordinary experiment was recently made at the London Royal Free Hospital, in which a servant was brought in with her nose smashed. The consulting surgeon sent out for a blackbird, took out its breastbone, and managed to place it where the broken cartilage had been. This certainly is placing blackbirds to a better use than setting them in a pie before the king!

The Manufacturers Are Not Alone Responsible for the large number of attractive novelties produced each season in Cotton Goods. They only supply the demand. We are showing many of these beautiful novelties this season, and ask your attention to our

COTTON CREPONS, STRIPPED SEERSUCKERS, CHALLIES, etc., etc. They are especially suitable for Summer Suitings and for Children's wear.

BEER BROS. At 10 cents a yard we show an extra good quality of fine Prints. They are well worth seeing.

Weather Bulletin. Toronto, June 7, 10 a. m. Fair weather; stationary; a little higher temperature; light showers in a few places.

THE MOORE-DAVIES RACE.

From New Perth to Southport.—Moore Wins in Splendid Time. About three weeks ago The Examiner contained a paragraph of two or three lines stating in effect, that on a certain day Mr. W. W. Moore, of this city, rode from New Perth to Charlottetown, a distance of twenty-two miles, in two hours. This innocent-looking paragraph occasioned a good deal of talk among wheelmen, and gave rise to considerable correspondence of a more or less personal character through the press. Finally a race was arranged between Mr. Moore and Mr. Fred DeC. Davies for the long distance championship of the Province and the silver cup held by Mr. Davies. The race was set for yesterday afternoon, the course being along the post road from New Perth to Southport, a distance of twenty-two miles.

Mr. Moore went down to New Perth a day or two before Mr. Davies remained in Charlottetown until yesterday. At five minutes to four o'clock yesterday afternoon the rival wheelmen "lined up" on the road at New Perth, near the cheese factory, and the word "go" was given by Mr. McMillan, teacher at Alberry Plains. The start was standing, and Moore was first to move, and in two hours he had the lead for about a mile. He kept the lead for about a mile. He kept the lead for about a mile. He kept the lead for about a mile.

At five minutes to four o'clock yesterday afternoon the rival wheelmen "lined up" on the road at New Perth, near the cheese factory, and the word "go" was given by Mr. McMillan, teacher at Alberry Plains. The start was standing, and Moore was first to move, and in two hours he had the lead for about a mile. He kept the lead for about a mile. He kept the lead for about a mile.

NEWS NOTES.

It is said that Patti made \$150,000 by singing "The Last Rose of Summer," "Coming Through the Rye" and "Home Sweet Home" to the dear Americans, and that her manager made nothing.

Lady Victor Blackwood, the youngest daughter of the British Ambassador, the Marquis of Dufferin, was married on the first inst. to the Hon. William Lee Plunkett, eldest son of Lord Plunkett, Archbishop of Dublin.

The Spanish peasant works every day and dances half the night, and yet eats only his black bread, onion and water-melon. The Spanish porter eats only a little fruit and some olives, yet he carries with ease his load of 200 pounds.

The Vienna police have general charge of all newspapers, and keep records of all success and publications, maintain a censorship over all theatres and plays, issue licenses for the publication and sale of all books, magazines and periodicals.

The exodus of Scandinavians this spring from New York to their homes across the sea has been nearly twice as large as in any preceding year. Most of them are from farms in New England and the West. The hard times have driven from their old homes, where they can live about twice as cheaply as they live in America.

It is stated that the title of Archbishop will shortly be given to the Most Rev. Dr. Smith, Bishop of Sydney and Primate of the Church of England in Australia. He will be the seventh Anglican Bishop holding that title. It is expected that other Archbishops will soon be created in New Zealand, Africa, India, the West Indies and other places.

Prussian soldiers here from Myslowitz, Prussia, Siberia, say that the number of cases of cholera has so increased that the lazaretto is overcrowded, and that temporary huts have been erected for the accommodation of the sufferers. Three deaths among the fishermen at Sienolow are reported, near the Russian frontier. The government has declared the Vistula to be infected, and the baths have been closed.

Sir George Williams, whom Queen Victoria has just knighted, seems to have been honored by royalty because he is so good. He is president of fully thirty religious and philanthropic societies and a director in many more. He is about twenty years old, and not wealthy, and the distinction implied in the honor is shown in the fact that he is a retail storekeeper—one of a class who most rarely received royal reward.

The attempt to stop the sale of explosives in Paris as a precaution against the plots of the anarchists has been pronounced all wrong, as recent developments seem to prove that the chances are about two to one in favor of the anarchist blowing himself up. It is suggested that explosives be, therefore, sold freely to all who are in need of them, and in a short time the anarchists will have been destroyed by their works or scared to death.

Few cities in the United States have suffered more severely from the depression in mining and general business than has Denver. Its population of 105,000 one year ago has been reduced to about 65,000, and a writer says few of those who have left the city will return. Mortgage foreclosures have reached frightful proportions, and, besides, numerous tenements, single stores and entire blocks are tenanted by a sad picture of suffering in a once prosperous and enterprising city.

The late eclipse of the sun in India was earnestly explained by the natives. Some held that the sun was dimmed by the rays of the people, and was bathed in darkness to wash away the guilt, while others supposed that it was in the grasp of some black demon, from which it could be rescued by some being bestowed on Brahmins. But the prevailing idea among the peasantry was that the sun and the moon got into debt like earthly beings, and that their creditors attacked them at certain times clamoring for payment. The creditors shadows obscure the rays of the heavenly bodies, thus an eclipse.

A Prof. A. G. Bell is said to be engaged in a series of investigations which may have important results. It has been suggested that electricity to light, as it has been harnessed to sound, so that people may be able to see a great distance, just as the telephone enables them to write and the telegraph enables them to speak at a great distance. Prof. Bell firmly believes that it will be possible some day to see from Washington to New York as easily as one can convey the sound of the voice that distance. He is confident that he will soon be able to discover a diaphragm sufficiently sensitive to receive the vibrations of light and to produce the effect necessary to convey the impression in the human voice.

DIED. At Liverpool, England, on the 26th of May, Robert P. Hodgson, aged 84 years, for some years a resident of this Province.

At Grenfell, Northwest Territory, on June 6th, of typhoid fever, Elliot Frank, eldest son of Richard Vessey, of Little York, aged 26 years.

THE LADIES. The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

USE SKIN'S DISCOVERY the great Blood and Nerve Remedy. 'D' you get an account from the Bazaar Store? You could help them by prompt payment.—Bazaar Co.

Important Notice.—The extensive auction sale of superior furniture, carriages, &c., at the late residence of the Hon. Judge Hensley, will take place on Wednesday and Thursday, the 27th and 28th June inst. Instant of which due notice will be given.—K. Bearist, auctioneer

The Best Results

from feeding are shown if your animal does well. It is a thing for you to feed good, nourishing food, and another for the animal to thrive on it. If the food is not properly digested and assimilated you might as well feed sawdust. It gives you per dose of Peet's Condition Food with regular feed it will aid digestion, so that one-half the quantity goes further and does the animal more good. Each bag is guaranteed or money refunded. Price \$1.00. Call or write for circular giving full particulars.

THE NO. 4 YOST.

In presenting to the public our No. 4 Machine, we feel that we have combined all the latest and best improvements of most successful inventors and experienced mechanics.

The Carriage of this Machine contains many practical improvements, the usefulness of which will at once be apparent. Among those specially worthy of mention are the following:—

The new and improved Release Key, whereby the carriage can be released as well when raised as when lowered, and can be positively stopped at a given point without the allowance of a single space for momentum. This instantaneous stopping will undoubtedly be much appreciated by rapid operators.

A new arrangement for making Single, Double and Triple spaces. A new and improved Paper Feed, which is elasticable both for its simplicity and the impossibility of getting out of adjustment. A line can be written clear to the bottom of the paper.

Still another feature is the new Space Key, which has a Perpendicular Drop, the same as the rest of the keys. Besides the improvements, this Machine and size all the good points of our No. 2 and No. 3 Machines.

The speed of the Yost can be limited only by the ability of the operator to find and properly strike the keys. This we guarantee.

In other words, its mechanism is contrived to respond instantly to the touch of the operator by the adoption of certain expedients, by the use of which—

1st. The touch is soft and even, and the depression slight.

2nd. The carriage feeds immediately after the type leaves the paper.

3rd. The escapement is so arranged as to be perfect and uniform.

4th. There is no ribbon movement to require attention or consume power.

5th. The arrangement of the keyboard conforms to great speed.

6th. Rapidity does not affect the alignment of the Yost is by far the cheapest Writing Machine, because it is the most economical in respect to Inking, Supplies, Repairs, Durability, Ease of Learning, Ease of Action, Size, Weight, Beauty of Work, Speed.

Second-hand Ribbon and Shift Key Machines for sale cheap.
