PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY.

MONDAY, April 8.

House in Committee of Supply.
On the Land Office appropriation.—
Hon. Mr. Ferguson explained the nature of the work now being done in that department of the public service, and explained that there was more work now on hand than could be attended to for some time to come. He submitted figures from the departmental returns for the years 1873, 1878 and 1880, and contrasted them with those of other and more recent years, showing the increase in receipts, etc. He also explained the nature of the work performed by himself as Commissioner since his appointment—work which he thought had been performed with satisfaction to all concerned and in the best interests of the people in general.

Mr. Farquharson expressed his pleasure at the remarks of the hon. member, and remarked that he had not changed his opinion as to the striking out of the item.

Mr. Sutherland moved that the \$1300 salary of the Commissioner be struck out.

Hon. Mr. Sullivan explained that the salary of the Commissioner was fixed by statute.

Mr. Sutherland said he thought the Government should change the statute.

Hon. Mr. Sullivan remarked that the hon. member should introduce a bill abolishing the office of Commissioner. He thought the present proceedings childish.

Mr. Sutherland's amendment was then put and lost, and the original resolution carried.

The items of \$1200 salary of Provincial Auditor and Clerk of the Executive Council, and \$200 for printing and stationery, were then submitted.

Mr. Sutherland thought that the offices of Provincial Auditor and Assistant Provincial Secretary should be amalgamated, and moved in amendment that the \$1200 be struck out and \$1000 substituted.

Hon. Mr. Sullivan took exception to the reduction. He explained that the Auditor already had more work to perform than he could attend to; indeed, he thought he should have an assistant. His work kept him in his office from ten o'clock in the morning, until six o'clock in the evening, and now while the House was in session he was obliged to work day and night. To his mind the work of the Auditor was never so well performed as it has been since the appointment of Mr. DeBlois, who was attending to the work for \$1200 which the Davies Government paid \$2500 to have performed. He thought that the Leader of the Opposition should look more closely after the inexperienced members of his party, and not allow them to be making motions for reducing the salaries of officials, the nature of whose duties they knew nothing at all about.

Mr. Farquharson moved that \$200 be deducted from the salary of the Secretary of Public Works. The motion was supported by Mr. Sutherland, Mr. Bell, Mr. J. R. McLean and Hon. Mr. Yeo; and opposed by Hon. Mr. Beantley, Hon. Mr. Sullivan, Hon. Mr. Ferguson, Hon. Mr. McLeod, and others, who agreed in saying that there was not a more efficient or faithful officer than Mr. Morrison in the public service.

The House continued to sit until after three o'clock this (Tuesday) morning, and all the resolutions in supply, with one exception, were passed.

House adjourned.

Obituary.

On the 3rd inst., at North Lake, passed peacefully away, after a brief illness of pneumonia, at the age of 72 years, Dougal Campbell, one of the early settlers of that neighborhood. The deceased was a man of more than ordinary intelligence. He was appointed elder of St. Columba Church during the pastorate of the late "Father John," which office he continued to fill with satisfaction to the parish until death called him away. He also filled various public offices, having been a Commissioner of the Small Debt Court for many years, and a leading Justice of the Peace for the greater part of his life. In whatever capacity he acted, whether as a public man or a private citizen, he commanded the confidence and esteem of all with whom he came in contact. Of a genial and hospitable disposition, he was a general favorite in the neighborhood; and many, both old and young, will cherish his memory in kindly remembrance in the years to come. His funeral was attended by Protestants and Catholics alike, all feeling that in his death the community had lost an upright and obliging neighbor whose place cannot easily be filled. In the absence of the pastor, who was unavoidably absent owing to the death of his father, the funeral services were conducted by Rev. Gregory McDonald, of St. Margaret's. To the bereaved family THE EXAMINER tenders its sympathy. "They that sow in tears shall reap in joy."

On Tuesday morning, April 2nd, after a tedious illness, which he bore with Christian resignation to the Divine Will, Mr. George Clark Sherrin, youngest son of Mr. John Sherrin, of Crapaud, passed peacefully away, in the 27th year of his age. He manifested great cheerfulness during his illness, and freely conversed with his relatives and friends about his future home in Heaven, where there is no pain or sorrow. The deceased was a very estimable young man, and will be much missed in the community. He was for many years connected with the Orange Society and was a shining light in that institution, giving good counsel and advice to his brethren.

The funeral took place on Thursday, the 4th inst., and the last sad rites were performed by Rev. Mr. Daniel, Rector of St. John's Church, and the brethren of the Orange Society. The funeral was one of

the largest seen here for years. Besides the Orangemen, who walked in procession, there were over seventy carriages and sleighs. The relatives and friends of the deceased have the sympathy of the whole community.

Souris as it is.

THE above rising village is located on the southern shore of Lot 45, King's Co., facing a beautiful sheet of water, extending to the Nova Scotia shore. It lies about 17 miles from the East point of the Island. Here, the celebrated breakwater, built in 1877, stands out majestically into the Gulf of St. Lawrence. The residents, having an eye to improvements, have placed plank sidewalks along the principal streets, with lamps at the most important points. A large and commodious skating rink, 105 feet long by 40 feet wide, is occupied every evening and well patronized. An elaborate dress carnival was held some weeks ago, which was repeated about a week later, when the writer had the pleasure of being present. Some of the costumes were very good and of great variety. The skating was fair, the ice being somewhat soft towards the close. The band discoursed sweet music, which added greatly to the enjoyment of the evening.

There are several well-furnished stores and handsome dwellings in this interesting town, also 4 churches, a Masonic Lodge, 4 hotels, 3 drug stores, a post office, 3 resident clergymen, 3 medical men, 1 dentist, no lawyer, American consular agent, high sheriff of the county, 1 representative to the House of Commons and 2 members to the Local House. A fine station house stands on the high land in rear of the village, where the railroad line terminates, which commands a grand view of the surrounding country for miles, where agriculture is successfully prosecuted. Extensive business in fishing is carried on along the shores, and large shipments are made from this port every spring and fall. The late closing and early opening of navigation here, with the facilities offered by our Railway, from one end of the Island to the other, makes Souris the natural outlet for all the surplus produce of land and water, until the Subway is opened across the Strait; and numbers of our business men are not slow in availing themselves of the advantages thus placed at their disposal.

The visitor to Souris cannot fail to observe the ruddy health manifested in the countenances of the inhabitants, as they walk along the streets, which is attributed to the fine sea breeze, wafted from the bosom of the magnificent body of water rolling at their feet, and the excellent quality of food produced from the soil every hand. The bathing, boating and aquatic sports, which can be enjoyed here, offer strong inducements to the invalid, the weary in body and mind, the lover of rural scenery, the man of leisure and pleasure and all who desire to withdraw from the noise and turmoil of city life, to pay a visit to the eastern or Orient town of our fair Island home.

The Rifle.

The annual prize shooting of No. 4 Co., took place on the local range, Little York, on Wednesday, the 3rd inst. The day was favorable and the shooting was above the average.

The medal presented to the Company by the Captain, on his return from Wimbledon, was won by Sergt. J. M. Crockett, with the handsome score of 70 points out of a possible 75. The medal is now the property of Sergt. Crockett, he having won it three times in succession.

A large number of friends assembled in the evening to assist in the presentation of the prizes. After the distribution three cheers were given for the friends who kindly contributed to the prize list, and three more for the Queen. The National Anthem was then sung, and the meeting dispersed, each feeling that he had spent one day at least on the sunny side of soldiering.

Following is the prize list—ranges, 200, 400 and 500 yards; 5 shots at each range:

Pt. Waldren Hardy, 50 cts., by a friend	0

A novel feature of the day was the introduction of a ladies' match, two prizes being offered, viz: 1st, a box of Toilet Soap; 2nd, a Brush. Each lady being allowed to choose a champion to enter the lists, a number of ardent youths stepped forward, eager to do battle for the

fair sex. The successful competitors were the Misses Elizabeth A., and Mary E. Crockett. The honor of winning these prizes fell to Privates K. Stewart and J. Dover.

John Roche, U. S. N.

The Boston Pilot of the 6th inst., gives the following particulars concerning the lamented Mr. John Roche, (son of Edward Roche, Esq., of this city), whose lamented death was announced a few days ago:—

"The Vandalia had a large amount of money on board, and it is supposed, in the absence of full details of the calamity, that Captain Shoemaker, Paymaster Arms, and Pay Clerk Roche, with the ship's yeoman, remained to guard or remove the treasure when they met their death. John Roche was born in Queen's County, Ireland, about forty-seven years ago. He was the eldest son of Edward Roche, Esq., Provincial Librarian, of Charlottetown, P. E. I., and brother of James Jeffrey Roche, of the Pilot editorial staff. From his earliest boyhood he was distinguished for his mental and physical endowments. In his sixteenth year he passed his examination and qualified as a teacher of the highest class. He was a natural mathematician of exceptional abilities. More than half a score of able sea captains learned the science of navigation from him while he was little more than a boy in years. Brave to rashness and excelling in every manly sport, he was yet as gentle as a woman, sunny-hearted, loving and lovable in all things. A fellow-officer writes of him: 'I can't tell you what a heartache this has given me. I had been mesmate and intimate friend of his for more than two years, during the recent cruise of the Vandalia, and had grown exceedingly fond of him, as anyone was sure to do who knew him. His was a noble, generous, manly heart, which never prompted an unkind act or had an unkind thought.'

Mr. A. Maurice Low, Washington correspondent of the Boston Globe, writes:—

"Pay Clerk John Roche, of the Vandalia, the brother of J. Jeffrey Roche of the Boston Pilot, was extremely popular with his associates. He was tall and handsome, six feet in height, and an athlete in strength. He was one of the most genial and witty men that ever trod a plank."

"While at the Sandwich Islands Roche was a great friend of King Kalakaua, who found in him a pleasant companion. He was a great favorite with everybody. Hewas forty-six years old, and had been pay clerk in the service for sixteen years. This was his fourth cruise on the Pacific, and once during the absence of one of the paymasters, he had acted in that officer's place for some months, which shows that he was trusted as well as beloved. He had never been to Washington, but was expecting to pay us a visit when his cruise on the Vandalia was concluded."

Mr. Roche was one of the most popular men in the service when he met the death which he would have chosen to die, at the post of duty and honor. May he rest in peace!"

Local and Other Items.

To restore, thicken and give you a luxuriant growth of hair, to keep its color natural, as in youth, and to remove dandruff, use only Hall's Hair Renewer.

B. I. S.—A regular meeting of the Benevolent Irish Society will be held in their hall tomorrow (Wednesday) evening, at 8 o'clock.—F. CURRIAN, Secretary.

IMPORTANT.—On and after Friday, the 19th inst., holders of tickets for the Lawn Tennis Club entertainment may select their seats from a plan of the Hall placed at Reddin's Drug Store.

In purchasing medicines, don't try experiments; the first and only consideration should be genuineness. Ayer's Sarsaparilla has stood the test of forty years, and to-day it is in greater demand than ever—a triumphant proof of popular approval.

TO THE LADIES.—The ladies who have been kindly selling tickets for the Lawn Tennis Club entertainment will please take notice that they have till Wednesday, the 17th inst., to sell any tickets they may still have on hand. All returns are requested to be made by that date.—D. B. Stewart, Sec'y.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is a sure cure for dandruff.—J. W. Bowen, editor Enquirer, McArthur, Ohio.

STEAMERS' MOVEMENTS.—The Princess of Wales and the Stanley left for Pictou at the usual hour this morning. They will return early this evening.
In accordance with a telegram received by A. Lord, Esq., this morning the mails will be transferred to the Steam Navigation Co's steamers to-morrow, and the Stanley will proceed to Pictou where she will be laid up and her crew discharged.

THEY WANT THE SPECIAL.—We learn from the Agriculturist that a petition has been signed by the M. P.'s for Prince County, and other prominent citizens of the western portion of the Province, to Superintendent Unsworth, asking that the steamboat special be run through to Tignish every other day until the summer time table is put into operation. As there are a great many who would be benefited by this move, it is hoped that Mr. Unsworth will see his way clear to grant the prayer of the petition.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. (April 1 '88)
