

# S'ide Board Of Trade Meeting Held Last Night

—With president John Mungall presiding, the Summerside Board of Trade met in the Magistrate's court room on the second floor of the Court House, last evening.

President Mungall reported that since the previous meeting of the board much time had been spent in dealing with the matter of the Canadian National Railway's application to withdraw mixed train service in Prince Edward Island. He stated that a brief had been prepared by the marine and transportation committee for presentation to the Legislative committee and that the said brief had been presented yesterday morning. On motion it was agreed that the action of the committee in preparing the brief be approved and the matter was left in the hands of this committee for further action.

Under reports of committees Edgar Cannon reported that Miss MacMurdo had been reappointed as supervisor of the Tourist Bureau at Read's Corner for the coming season.

H. K. Stright, reporting for the retail merchants committee stated that a meeting had been held of this committee at which such matters as store closing hours and store doing business on Sundays had been taken up and discussed.

Dr. Gilbert Gallant was admitted to the board as an individual member and Amalgamated Dairies as a corporation member.

In the report of the unemployment

committee of the board it was announced that plans are presently under way to hold a panel discussion on the air in the near future at which this very important matter will be discussed for the benefit of the public.

## Let's Talk It Over

—The members of the Town Council are in an unenviable position at the present time. They are faced with more than their share of momentous decisions as spring looms up on the horizon of 1955. They are between the Scylla of Niggardiness and inadequate town service and the Charybdis of reckless expenditure, and they must choose carefully a middle path, with the certain knowledge that they will be blamed if they do and damned if they don't by different sections of the citizens.

Last year the Council faced the problem of an extensive repair program to the Town's streets, which involved a considerable outlay of taxpayers' money. Fortunately just about everybody agreed that this was a necessary undertaking, and a job well done on the part of the town fathers. Now they have their major problems to face. They have been rendered homeless by a sudden and amazingly rapid fire, and have to consider whether they will build new civic administration quarters, or renovate an existing structure and make it do. They have extra High School classrooms and a new auditorium to consider, and out on Notre Dame Street looms the "White Elephant" called "Raceway Stadium", in which they have a large stake, and therefore a considerable responsibility.

Who was the old general who when matters were at their worst always gave the order to attack? The Town fathers may have to adopt this bold attitude toward their difficult problems. Toward who have to pay the piper are never very good judges of the quality of the music played. It is the Summerside citizens of the 1950's who will best evaluate the forthcoming decisions of the Wedge municipal government. Whatever they decide to do, they can at least console themselves with the thought that many of their critics, if placed in the same predicament, would probably not do any better.

**SHIFTING SHORE**  
Ravenna, ancient Italian seaport on the Adriatic, now is six miles inland because of the sea's recession.

# Snow Blocked Highways In West Prince

—A large number of hockey fans from Alberton, Tignish and all sections west of Leary were greatly disappointed last evening when they were prevented from attending the final game of the Summerside Aces O'Leary Maroons playoffs by a heavy drift of snow which filled in the high cuttings in the area between Elmdale and Bloomfield Corner as quickly as they were ploughed out.

During the early part of the evening a Government plow opened up the road through to Alberton, being followed by fifteen motorists who had been stranded at various places along the highway. As far as could be learned, no plow dispatcher, plows would not be working last night but were expected to resume operations today.

# Y's Men's Club Meeting Held At Summerside

—The coming radio auction was the main topic under discussion at the weekly meeting of the Summerside Y's Men's Club. President Jim Murphy chaired the meeting with Harry Bishop as squire and Ralph MacFarlane acting as finesmaster. The treasurer, Keith Lapp, gave a report on club and service funds.

Four recommendations from the executive were brought before the meeting and passed as follows:

That Don Adams be publicity chairman for the club in regard to the Maritime regional convention being held in Saint John; That Murray Willet be appointed to make arrangements for a proposed church parade to be held in the near future; That George Meikle and Harold Rodd be placed in charge of Summerside's part in the Maritime regional convention program; That Ralph MacFarlane act as official delegate for the club to the international convention.

John Ellis reported that the radio auction town canvass had been completed. Roy Boates, chairman for this year's radio auction told the members that goods have been coming in extremely well, and that the quality of the items is the highest yet. He stated that some 600 regular and 40 special listings have been completed so far, and that there should eventually be from 700-800 items up for sale this year. He called for volunteers for every night up to next Wednesday when the auction will take place. In the course of his report, he stated that all members would be taking advance bids on the goods for sale, these bids to be in by Wednesday noon. Six volunteers for last night were asked to help in the radio auction display rooms.

George Clarke, for the radio auction rooms committee, said that the Y Centre rooms would be made ready on Friday and called for volunteers to prepare clipping boards on Sunday afternoon.

The president, Jim Murphy, appointed Bill Warwick to act as auditor for the treasurer's report. Ross MacKenzie, Fred Bingham and Harold Rodd were appointed as nominating committee to bring in a new slate of officers.

George Clarke, chairman of the building extension committee, told the club that the Y's Men, in sponsoring Boy Scouts and Cubs in Summerside had taken on a large job, involving a m.e. 250 boys. The Y Centre at this station, stated, is not large enough to carry on this work properly. An extension of some 40 feet to the building is necessary to provide room enough for all the activities carried on in it. This would have to be done between the months of June and September, so as not to interfere with youth work going on. He told the members that the proposed extension had been drawn up and that with the club's permission the building committee would call for cost estimates from contractors for the job.

Proposed changes in the club constitution and by-laws were given to the members for study. These will be brought in at the annual business meeting in three weeks time.

# Foresees Good Demand For P.E.I. Yorkshires This Year

A good demand for Island Yorkshires throughout 1955 is anticipated by the Federal Department of Agriculture, Mr. H. W. Clay, senior fieldman for the department here, reported yesterday to the annual meeting of the P.E.I. Swine Breeders Association.

Mr. Clay said that in February one boar was shipped to Alberta, five to Ontario, and eight to New Brunswick. A number of sows were shipped to Ontario.

"We have been advised," he added, "that a breeder from Alberta will be here in May to select a carload of 70 head. We have an inquiry from Newfoundland for fifty head to be shipped next spring. In the face of these orders, we may have difficulty to find the required number of animals from sows scoring 85 or over. If such sales maintain this rate or if they increase we will have to enter more sows in the Advanced Registry, otherwise we will not have the stock to sell. I would advise all breeders to test those young sows and keep only those which score 85 or over."

"A year or more ago, we found a number of deformities showing up in some of our key breeding stock. Fortunately, we were able to pinpoint this trouble with the result that now we are confident that we are well on the way to eliminating the difficulty. In this respect, I would suggest that when an irregularity of conformation is found, the sow and the boar respectively should be removed from our breeding program. Strict adherence to this suggestion will go a long way to keep our herds clean."

"Recently, I received a report of all the sows entered in Advanced Registry in Ontario during the past year. 325 sows failed to qualify for testing for small litters and other reasons. The surprising fact is that over 92 per cent of these failed to go on test due to disqualifications such as ruptures, ridgings, hermaphrodites, and other deformities. In P. E. I., we had 103 sows which failed to qualify for test, and of these only 5 per cent were disqualified because of deformities."

## BREEDING STOCK SALES

"Sales of breeding stock during the past year have shown a great increase over the preceding years. Carlot shipments to Quebec and Saskatchewan have been made to breeders in Ontario. Upwards of thirty boars were shipped to New Brunswick, with smaller numbers to Nova Scotia. These sales have been so heavy during the last half of 1954 that some orders could not be filled.

"Both N.S. and N.B. now have a Bonus Policy, somewhat similar to that effectuated in the province. This means that a boar must be out of a sow scoring 85 or over to qualify for the top bonus. Even in the sales of sows to outside points, the buyers insist on stock from such high scoring sows.

"In the discussion of sales, we should note that all outside inquiries insist on straight Island breeding. Buyers from the West, Ontario and Quebec do not want stock from this Province if it carries breeding which is inferior to their own. In fact, we have breeders in Ontario who have their third Island boar. Many of the orders from the West, Ontario, and Quebec are repeat orders."

Year	Hogs	per capita consumption
1946	55,119	145
1952	107,495	134
1953	77,992	133
1954	82,413	140

"It is interesting to note" that variation in annual hog production shows little relation to the annual meat consumption.

"The most outstanding feature of Island swine production has been the steady annual increase in the percentage of Grade 'A' hogs as the following statement will testify:

Year	Grade A P.E.I.	Grade A Canada
1941	25.0	31.5
1944	41.1	32.2
1947	48.9	32.6
1950	51.6	32.1
1953	51.4	27.3
1954	53.8	25.9

"In fourteen years, the percentage of Grade 'A' hogs in P.E.I. has increased from 25.0 percent to 53.8 while in the same period the Canadian percentage has dropped from 31.5 to 25.9. The credit for this showing is due to our Island breeders who have demonstrated what can be accomplished when everyone works together for a common purpose.

"This present high standard of quality underlines the responsibility which rests on the shoulders of these same breeders to avoid any possibility of undermining the structure which has been built so well. It takes a good carpenter to erect a building but it does not require much ability to tear it down.

"If in the near future the quality of Island hogs should drop, our commercial producers will look for the cause and point an accusing finger at any responsible factors.

## ADVANCED REGISTRY

"In the recent annual report on Advanced Registry dated April, 1954, we find figures which are difficult to believe considering the size of this province. The following statement covers all the sows tested in that twelve month period:

Score	P.E.I.	All other provinces
85, over	9	7
85-89	25	37
80-84	25	52
75-79	25	75
70-74	12	74
65-69	3	61
60-64	1	38

Qualifying sows scoring 85, over 34 34  
75-84 26 141

Sows failing to qualify to 74, under 18 178

## METHODIST FOUNDERS

The name "Methodist" was originally given to Charles and John Wesley and some other Oxford students in 1729.

# Farm Federation

and also to Maritime members of Parliament at Ottawa. Mr. Shaw felt that some favorable arrangement is possible with the United States authorities on this matter.

**FARM FEDERATION**

Mr. D. A. MacDonald speaking on "Potato Matters" said that Canada was being treated unfairly in that we would have received 23 cents per bushel more for our potatoes last year if we had been given the same protection as the farmers of the United States.

"Unless something is done to correct this situation, Canada should be dependent on the United States for vegetables," Mr. MacDonald said. "We are now buying 27 million dollars worth of these products from that country and selling them three million dollars worth."

He said that without restrictions on potatoes this year about the same quantity had been shipped from this province as the previous year. There are about 3,000 cars left on the Island and there should be no difficulty in moving the balance of the crop before mid-June. Frost in Florida had put back the crop there two to three weeks which would bring their new potatoes on the market late in April which possibly might strengthen the market late in the season.

"13,000 new acres of good soil have been put under potato cultivation this year in California and increases elsewhere were noted. Any acreage increase for marketing next year, may make conditions very disagreeable," he said.

**PROVINCIAL STANDPOINT**

"Speaking from a provincial standpoint, the Department of Agriculture has been advising farmers to grow only seed. The board office is at your disposal in directing you to seed available in or near your district, in any variety.

"Marketing potatoes is like marketing any other commodity," Mr. MacDonald said, "and should be backed up by a strong program of advertising." The results of such a program were described as he told of the superior position obtained by potatoes in Idaho where five dollars per car had been levied on the farmers to be used in advertising, and they are going to use more money for this purpose next year.

"No other industry in this province has such an impact on the economy of our community and money should be available for advertising and disease control, which is a menace, for which we could apply measures much easier than in other areas," Mr. MacDonald said.

Mr. B. Graham Rogers, who had been requested by the Federation to explain some of the

casual service of, say, once a week, the economy of that end of the Island would greatly suffer. As an example he said that the fishing druggers used in the vicinity of six tank cars of fuel oil each week and that the siding for these cars will hold only one car at a time. "If a train did not come out at least once a day to shunt these cars, it would be disastrous," he said.

Mr. Bell: "I understand that many stations cannot accommodate an accumulation of cars?"

Mr. Acorn said that this was quite correct. He said that a train crew in Souris spent over two hours a day shunting. Referring to livestock, Mr. Acorn said, "such a service would not only be inconvenient but detrimental."

Mr. F. Bingham, Summerside, speaking as a potato shipper, said that if shippers could not be guaranteed a daily service it would be impossible to quote prices to buyers in other cities because the price might change during the time elapsed waiting for a car. He said that the same inconvenience could be anticipated in waiting for refrigerated cars.

Mr. B. N. Hooley of Montague said he was a member of the Junior Board of Trade but that his organization had not had time to prepare a brief. He told the committee that he wanted to go on record for his organization as opposing the reduction in service.

## Briefs Presented

Mr. Pate admitted that the passenger service on the Island was not paying but said the train between Tignish and Summerside was the best paying on the Island from a passenger standpoint. It was only a few years ago that the Federal Government had paid off the deficit of the C.N.R. "Are we going to pay for deficits in other parts of Canada while our own service is eliminated?"

When questioned whether he was able to obtain some figures to freight revenue on the Island for the past year, Mr. Pate said that from a reasonably correct source he was informed that the revenue was a \$14,000,000. Asked whether the proposed curtailment would effect the mail service in the western part of the Island, Mr. Pate said that a letter now mailed at Charlottetown at 3:00 p.m. would reach O'Leary at 8:30 the same evening but if this service were taken off a delay of 24 hours could be expected.

The Canadian Legion briefly called attention to the fact that a large number of railway employees are veterans. It also claimed that this move was against the Island's agreement under the terms of Confederation. In case of a national emergency, it was pointed out, the defence position of the Province would be seriously affected if the railway lines were allowed to get into a state of disrepair.

Mr. William Acorn, M.L.A., said he was representing the Souris Board of Trade but had no prepared brief. In answer to questions by Mr. Bell, he said that if the service were reduced to a

# Conway

—Mr. and Mrs. William H. Burns, Malpeque, were visitors at the home of Mr. and Mrs. John D. Palmer, on Monday, February 28th.

Mrs. James C. Palmer was visiting friends at Freeland and Conway on Monday, February 28th. Mrs. Palmer is leaving on Thursday morning for a trip to Toronto, where she will spend some time with her family.

Mr. John J. Murphy was a business visitor to Summerside, on Monday, February 28th.

Mr. Wendell MacKay, Freeland, and Mr. George Morrison were in Summerside, Monday, February 28th on business.

Mr. Walter MacKenna, Freeland, was a business visitor to Summerside on Monday, February 28th.

Mrs. Mark Coughlin has returned to her home after spending a few days at the home of Mr. and Mrs. Russell Coughlin, Summerside.

The many friends of Miss Jean Adams will be glad to learn she has returned to her home after being a patient in the Prince County Hospital, Summerside.

Mr. and Mrs. Wilfred Hamby and children, Charlottetown were visitors at the home of Mr. and Mrs. Arthur Adams and Mr. and Mrs. Roland Adams on Sunday, February 27th.

Mr. Bill MacNeill, bank employee, Summerside, spent a few days recently at Halifax.

Mrs. Cecil MacKinnon was visiting at the home of Mr. and Mrs. Edward Sonier, Summerside, on Tuesday, March 1st.

Mrs. Leo Lynch, Foxley River, was visiting at the home of Mr. and Mrs. Robert Fraser, Summerside on Tuesday, March 1st.

Mr. and Mrs. Murdoch Stewart and son, Eric, were business visitors to Summerside on Monday, February 28th.

The many friends of Master Wilfred Winn will regret to learn he is confined to bed for ten days with bronchial infection and wish him a speedy recovery. He is the son of Mr. and Mrs. James Winn.

Mr. Russell Coughlin, Summerside, was a recent visitor at the home of Mr. and Mrs. Mark Coughlin.

Mr. George Morrison had the misfortune to give his finger a severe cut while cutting kindlings. Mr. George Thompson had his

finger smashed while working on the railroad and Mr. John Ramsay cut his foot with the axe while in the woods. Their many friends wish them speedy recoveries.

Mr. Lorne Riley accompanied by Miss Olive Tuplin, Murray Road, and Mr. and Mrs. Sterling Palmer, Conway, attended the hockey match at Summerside on Monday evening, February 28th.

phases of the proposed curtailment of rail services by the C. N. R., read extracts from the brief submitted by the Railway to the Board of Transport Commissions, and, in answer to questions, made clear any portions not readily understood.

Visitors and officials introduced, who spoke briefly on their duties included J. E. McIntyre, who explained the new formula of fertilizer, Mr. Chipswick, on cattle inspection, W. S. MacMurtry, agricultural engineer, I. L. Tuplin, director of field crop division, Winston Smith, horticulturist, George Wright, horticulturist, specializing in canning processing and freezing, Claude Painter and Richard Vessey, dairy check testers.

Mr. Wright said it was probable that a canning and freezing plant would be operating this summer in Charlottetown with peas and beans as the chief crop to be dealt with.

Hon. C. C. Baker, Minister of Agriculture expressed his pleasure at being present to hear the various discussions and extend his best wishes to the Federation members as they dealt with matters of great importance to the economy of the province.

Others taking part in the discussions, which followed the address were Roland MacDonald, Frank Myers, Jack Dawson, Elton Rayner and Earle Ings.

## Card of Thanks

I wish to say Thank You to Doctor Simpson, Nurses and Staff of the Prince County Hospital for their kindness to me while a patient. And to the many friends who sent gifts, treats, letters and cards.

Sincerely,  
Mrs. Earle Murray.

# S'ide Aces Win Way To Intermediate B Finals

—The Summerside Aces flogged the O'Leary Maroons 7-0 in O'Leary last night taking the round 11-5 and winning the right to meet the eastern winners for the intermediate "B" hockey championship.

The ice was lightning fast and the Aces took full advantage outplaying the O'Leary boys by a fairly large margin though the Maroons did not stop fighting till the final whistle. O'Leary controlled the play pretty well in the middle frame and but for the splendid saves of McInnis in the Summerside net would have scored some goals. The O'Leary net tended also to put up a good game. The largest crowd of the year was present in the O'Leary rink. Referees were Joe Hunter and Jerry Allard.

Lineups:  
O'Leary Maroons — Goal, G. Gaudet; defense, B. MacDon, L. Harris, A. Wedge; forwards, Smallman, W. Harris, G. Rodgers, J. Baglois, L. Bernard, G. Bernard, Ally Silliker, Alton Silliker, A. MacGregor.

Summerside Aces — Goal, B. McInnis; defense, Cannon, Wood side, Gay; forwards, B. Howatt, Bernard, B. Grady, E. Taylor, Pope, Gallant, Kelly, Baird, G. Gaudet.

Summary:  
First period: 1. Aces Gay (Howatt) 12:58; 2. Summerside Grady (Woodside) 19:45; Penalties, None.  
Second period: 1. Summerside, Howatt 2:07; 4. Summerside, B. Howatt 8:20; 5. Summerside Baird (Gay, Pope) 17:50; Penalties, Gay.  
Third period: 6. Summerside Gallant (Grady, Gaudet) 3:17; 7. Summerside, Grady (Gaudet, Gay) 17:05; Penalties, Smallman, minor and misconduct.

# Springfield Wins Opener

—In the first game of the semifinals of the Farmers League played last evening at the Kensington rink, Springfield edged out Graham's Road 5-4. Ellsworth Mann was top scorer in the contest with two for Springfield, while other Springfield goals were scored by Aeneas McEntee, Elmer Burt and Lee Bell. For Graham's Road, singletons went to Wayne Champion, George Brooks, Laurie Profit and Fred Bridges. Only three penalties were handed out by referee Jackie Bernard, two of them going to Springfield.

# Prince Co. Ice Meet Tonight

This evening at 7:30 in Raceway Stadium, Summerside, boys and girls from the various centres of Prince County will take to the ice to decide the fastest skaters in their respective classes and bath it out for the right to represent Prince County at the Provincial Interscholastic meet which will be held at the Charlottetown Forum Friday, March 18th. Boys and girls who placed 1st and 2nd at their respective school meet this year are entitled to compete in the County meet tonight, and those who placed 1st and 2nd tonight will qualify to skate at the 10th annual Provincial meet.

Tonight's meet is made possible by the co-operation of the Race way Stadium management and will be under the supervision of Mr. James Hogan, who is being made available to the Fitness Division for the evening by the kind co-operation of R. T. Holman Ltd. Mr. Hogan will be the Fitness Division's official representative at the meet, will direct it and will arrange a representative group of officials to run off the events.

the training received by the group and indicated in this delightful supper. The experience should fit all of you for the work which lies ahead. We are very fortunate indeed in having Miss Anderson in this province, whom we know could do much better financially in a broader field. I hope this is only the beginning of the course which will expand in the years to come."

Mr. Edward MacPhail, recently appointed supervisor of the Vocational School described the courses available which are open to everyone in the province. An academic course has recently been added to dovetail with the 22 courses in operation. 586 students are enrolled this year.

Mr. R. R. Bell expressed his pleasure at being able to relax from the strenuous activities of the House and for a brief period be transported into such delightful surroundings to enjoy an excellent supper.

Following the supper, Mr. MacPhail and his associates conducted the guests on a tour of the different departments of the school.
