The Guardian

"Covers Prince Edward Island Like The Dew"

Intermittent rain clearing in the evening; not much change in temperature. Low-high 48 and 60.

CHARLOTTETOWN, CANADA, FRIDAY, OCTOBER 5, 1956

LOADING PULPWOOD AT SUMMERSIDE

The "Roland Russ" docked at Summerside at noon yesterday to load approximately 2,000 cords of pulpwood completing a cargo begun at Quebec. Even as she docked, trucks began arriving at the wharf and work of loading (above) was commenced immediately. This ship, which took a cargo of pulp from Summerside about the first of August this year, is presently being loaded by A. H. Anderson and Co., with a salter part of the shipment being supplied by P. E. I. Produce Co.

Says Credit Tinkering Blocks Provincial, Municipal Jobs

TORONTO (CP)—Premier Frost said Thursday some persons have "grave misgivings about tinkering with Canada's credit rates." Commenting on remarks he made Monday about recent banking credit restrictions limiting provincial and municipal jobs, he said the credit restrictions hit indiscriminately at all levels. "They do not allow for certain provincial and municipal projects which are absolutely essential, he said. "Some of the most necessary ones are often the ones hardest to raise money for, and they're the first ones which have to fall by the wayside." Control of inflation was essential, especially to protect pensioners and others with a fixed low income, but restrictions should not be applied indiscriminately.

U.S. Displays Mystery Gun

ABERDEEN, Md. (AP)—The United States Army displayed Thursday a mystery gun which appeared intended as a new light-weight atomic artillery piece. Also displayed at the annual American Ordnance Association weapons show was the army's 300-

mile range redstone ballistic missile. The general who demonstrated the redstone, without actually firing it, called it a "high accuracy" weapon and said it is completely immune to any known method of diverting the missile from its flight to a target. It was announced that the redstone soon will take its place in the U.S. arsenal of operational weapons.

Will Launch New Icebreaker Oct. 23

LAUZON, Que. (CP)—The new federal government ice-breaker Montcalm will be launched Oct. 23, the Davie Shipbuilding Company announced Thursday. The Montcalm will replace the Lady Grey which sank near Quebec City last year after a collision with a ferryboat. The government will take over the Montcalm at the start of next year.

George T. Davis and Sons Ltd., another Lauzon shipbuilding firm, has announced that the lightship Sambre will be launched Oct. 20 and christened by Mrs. Alexander Watson, wife of the assistant director of marine services for the transport department. The Sambre will be used along the Nova Scotia coast, near Halifax.

Captain Of Andrea Doria Gives His Story Of Fatal Collision

NEW YORK (AP)—Capt. Piers Calamati of the Italian liner Andrea Doria Thursday gave his account of the ship's disastrous collision with the Swedish liner Stockholm. It was in direct opposition to that of the officer who was directing the Stockholm.

The veteran, 59-year-old skipper made these assertions during testimony being taken preparatory to a federal court trial of damage suits totaling more than \$40,000,000. The Andrea Doria encountered fog about 3 p.m. July 25, the date of the collision, and remained in it until the crash at 11:09 a.m. He ordered every precaution taken for proceeding in fog.

Dr. F. MacKinnon Addresses Ch'town Teachers Institute

"Individuals and Obligations" was the subject of a timely address by Dr. Frank MacKinnon, principal of Prince of Wales College, at the afternoon session yesterday of the Charlottetown Teachers' Institute convention.

Dealing with some of the fundamental characteristics of education in relation to the personal characteristics of pupils and teachers, Dr. MacKinnon remarked that "humans are better at telling other people what to do than they are in taking advice." This fact, he added, is bound to affect education which is concerned with telling others what to do. "Education," said the speaker, "also deals with the second-hand thought and emotions but these have little lasting value by themselves and are useful only if they provoke some original thought and emotions. This fact is a difficulty pupils depend only on getting facts and opinions from others and don't learn to think on their own.

Work On Exterior Of Police Barracks Has Been Completed

Work on the exterior of the Royal Canadian Police Barracks was completed yesterday and it is hoped by the Contractors, M. F. Schurman Ltd., that the building will be pretty well completed early in January. The contract calls for completion by April 1, 1957.

The two-story brick building with finished basement was started on May 2 and although there were 36 rainy days since that time, the project is well ahead of schedule. An average of 30 tons have been employed on the building since it was started. It will contain 33 rooms apart from the basement. There will be living accommodation in the barracks for 18 single men. Other space will be occupied by offices and photographic rooms.

Students Aid N. B. Potato Harvest

HARTLAND, N. B. (CP)—There's many a student along the upper St. John River taking the week off from school to help harvest New Brunswick's bumper potato crop.

Thirty students were given permission to leave classes here and in more northerly Grand Falls, town schools have been closed all week. School board secretary K. M. Baras said the number of students dismissed here for potato-picking was the largest in several years.

Little Hope Anyone Still On The Derelict Sailboat Orenda

SOUTHAMPTON (CP)—Officers of the United States liner America said Thursday night there is little hope anyone is still alive aboard the Canadian sailboat Orenda, spotted Sept. 22 drifting in mid-Atlantic.

"I am convinced it was a derelict when we sighted it," said one officer who declined to give his name. Frederick Fender, captain of the liner, reported earlier he had sighted the boat drifting about 1,000 miles due east of Newfoundland. There was no sign of its occupants, Al Battersby, 29, and Bert Smith, 32, both of Toronto.

Canada May Switch Salk Vaccine Source

OTTAWA (CP)—Canada's Salk polio vaccine supply may eventually be switched to commercial from university sources with significant portions coming from United States firms, federal health authorities said Thursday. They emphasized, however, that this may not happen for another two years or more. At the moment, all of Canada's supplies originate at the Toronto Connaught Laboratories, but fairly large commercial shipments are expected from the U.S. shortly.

Health Minister Martin announced that the Eli Lilly Company of Indianapolis has been licensed to ship the vaccine to Canada. Officials said import applications from other American firms are being studied.

John L. Lewis Signs Contract

CINCINNATI (AP)—John L. Lewis Thursday signed a new one-year soft coal contract with major producers which provides a \$2.40-a-day boost in miners' wages and holiday allowances.

The new agreement covers approximately 150,000 of 200,000 soft coal miners in the United States. Signers were Lewis, president of the United Mine Workers Union, and Edward G. Fox, president of the Bituminous Coal Operators Association, an organization of major northern mine owners and mines owned by steel firms and utilities.

Operations At Suez Delayed

PORT SAID, Egypt (Reuters)—Suez Canal operations were delayed again Thursday. The first southbound convoy was six hours late starting, twice as late as Wednesday's first southbound convoy.

Fog and mishaps to two ships were blamed for Wednesday's delays. Ali Daoud, transit chief of the Egyptian Suez Canal Authority, confirmed reports that the 4,800-ton Panamanian freighter Archon Michael was grounded in the canal for two hours and said the 11,110-ton Norwegian tanker Eli Knudsen was tied up for 20 minutes near Suez.

Howe Plans Early Visit To Japan

OTTAWA (CP)—Trade Minister Howe will fly to Japan later this month, it was learned Thursday. His associate deputy, Mitchell Sharp, likely will accompany the minister on his first trip to that country.

The tour may run about three weeks. It is being planned more in the nature of a goodwill mission than one for the purpose of formal trade negotiations.

British Labor Condemns South African Policy

By FRASER WIGHTON BLACKPOOL, Eng. (Reuters)—The Labor party Thursday condemned South Africa's racial segregation program but voted overwhelmingly against expelling the country from the Commonwealth.

Deputy leader James Griffiths told 1,300 delegates at the party's annual conference that Britain should first deal with racial discrimination at home. "Then we can speak to others with a clear conscience," he said. In the only card vote of the day, the delegates, balloting in accord with the strength of the members they represent, voted 5,217,000 to 1,582,000 against a motion demanding the "immediate end" to military conscription in Britain.

U.N. Council Convenes For Debate Today

UNITED NATIONS, N.Y. (AP)—The Western Big Three struggled Thursday for unity in the United Nations Security Council on the Suez Canal crisis—and criticism of the United States from abroad, especially from France.

The council convenes today to begin debate on the canal issue. For the first time in its history, foreign ministers of the United States, Britain, France and Soviet Union will sit in the council, plus foreign ministers from Belgium and Yugoslavia. As the West conferred on a common approach to the problem Andre Le Troquer, Socialist speaker of the French National Assembly denounced what he called the "near impotence" of U.S. Suez policy and blamed it on the election campaign.

FRENCHMAN DENOUNCES U. S. NEAR IMPOTENCE

Big 3 Struggle For Unity On Eve Of Suez Debate

WINSTON E. SMITH

Horticulturist Resigns Position

The resignation of Mr. Winston E. Smith, horticulturist with the Provincial Department of Agriculture was announced yesterday by Hon. Eugene Cullen following a meeting of the Executive Council. His resignation will become effective on October 15 at which time, it is understood he will become employed with the Fruit and Vegetable Branch, Federal Department of Agriculture. Mr. Smith is the son of Harold Smith, M. L. A. and Mrs. Smith, Pownal. He was married this summer to Miss Janet MacRae, Point Prim.

Iceland Is Determined All Yank Troops Must Leave

WASHINGTON (AP)—Two days of "frank and friendly" talks at the U.S. state department apparently haven't moved Iceland's foreign minister Emil Jonsson from his position that American troops must leave Iceland. "It is now, as always before, the traditional policy of Iceland to avoid the stationing of armed forces in Iceland," Jonsson told a press conference just before leaving today for Reykjavik, the Icelandic capital. He said Iceland still wants the 4,000-man American force withdrawn from Keflavik, leaving the giant NATO air base there to be maintained by Icelanders.
