### "REVELATION ON CAMPUS"

Starting Sunday, November 9th at 5:00 p.m. Chaplain Tony Ouwehand will be starting a series of discussions on the Book of Revelation. This comes in context with the general increasing interest on the subject dealing with the "End of Time."

Recently, movies and television programs have dealt with these themes; and in some churches and groups of believers, there are expectations which lead them to believe that the end of the world would be in 1981. Some groups peg the end of time to be 1983.

Tony has studied under Professor Wilkinson of Geelong Seminary on this subject and has, in previous congregations, preached on the Book of Revelation. He has led study groups on the subject.

All are invited to participate in these discussions
