PERSONAL

Mr. A. F. Larkins, of Tignish, is among
the guests at the Hotel Davies.

Mayor Warburton was a passenger to
town by the western train this morning.

James Clow, Esq., Murray Harbor
North, came to town today. He is at the
Queen.

Rev. A. E. Burke, Alberton, was a pas-
senger to town by the Georgetown train
this morning.

Mr. J. A. Mathieson and Mr. F. W.
Hyndman, were among the passengers to
town by the Souris train to-day.

Mrs. R. Maynard and son, Charles, left
yesterday to go on a visit to Horton, also
taking in Halifax and Windsor on way.—
New Glasgow Chronicle.

Mr. D. A. Sharp, well known in the
nursery business, is in town to-day. Now
is the time to correspond with him and
give orders for spring planting.

Miss May Collings, daughter of Mr. John
Collings, of the steamer Northumberland,
will leave to-morrow evening en route to
Boston to take a course of instruction in
nursing in the Boothby Surgical Hospital.

On Thursday last, at 47 Kempt road,
another of the old time residents of this
city passed away in the person of Mrs.
Mary A. Way, in her 91st year. Although
living a retired life with her son's family
for many years past, in her husband's life-
time no lady was better known than the de-
ceased, who had been a widow for over
40 years and a resident of Halifax for 70.
This worthy woman was a daughter of
the late James Pollard, of Charlottetown,
P. E. Island, who was well known in his
day. She leaves behind a numerous
progeny, 2 sons, 6 daughters, 56 grand-
children, and 33 great-grand-children.—
Halifax Chronicle.

News From Pinnetts.

Mr. Neil MacLean, for some time past
in the employ of Gillis Brothers, will
leave in a short time for New South Wales
where he has obtained a position with his
brothers. We wish Mr. MacLean a happy
and pleasant voyage. It is the intention of
his friends to give a banquet on the eve of
his departure.

Miss Mary McDonald, proprietress of
the cosy little store, deals in dry goods and
sundry merchandise. Albert Vickerson &
Son are proprietors of the Pinette Tannery,
and are more than doing a rushing busi-
ness. A. D. Gillis is proprietor of the
Riverside House and store. Mr. Gillis is,
we understand, about to take Mr. Simon
Murchison into partnership, and the busi-
ness will be hereafter known under the
name and style of Gillis & Murchison.
Our post office is presided over by Mr.
Alex. F. McDonald, who is an obliging and
careful official, and most worthy of an
office under any Government.

We are pleased to learn that Miss Mac-
Donald, of this place, has received the six
Black Spanish Miraca hens from
England. The hens in appearance resem-
ble a crow and are jet black; they have
a bill and neck like a turkey, but the
oddest thing about them is that their feet
are partly webbed. Mr. MacLean is the
right man and in the right place for
introducing such an important industry
into P. E. I.

In the Young Peoples Society of Chris-
tian Endeavorers of Belfast we have an
ever present exemplification of the Angelic
herald of our Saviour's advent, "Peace on
Earth Good will to Men." The emi-
nent good fellowship which characterizes
all the proceedings of the society is noted
far and near and tends to make the meet-
ings large enthusiastic and a blessing to
all who attend.

ST. DUNSTAN'S COLLEGE.

Description of the New Wing—The Contract Awarded.

The contract for building the new wing
to St. Dunstan's College has been let to
Duffy and Cocheran, of this city, for \$13,-
790. This price does not include the
plumbing and sewerage and other work
which will be carried out, it being the in-
tention to place the whole structure in first
class condition with modern plumbing,
sewerage, etc. The new wing will be
built to the eastern end of the present
building in the form of an L and will be
finished in all its five stories throughout.
The basement will contain refectory or
dining room, 37x52, kitchen, pantries,
bakery, laundry, scullery, etc., the floor of
the whole basement being laid with con-
crete. The first floor will contain the
chapel, 37x62, with sanctuary at south end
and stage at north end. The second floor
will be laid off into eight bedrooms, smok-
ing room, library and infirmary, also
lavatory and trunk rooms. The third
floor will be arranged for seven bed
rooms, priests' study, music rooms, class
room, 26x27, and chemical laboratory,
also trunk room and lavatory. The fourth
floor will be all in one, 36x91, and used as
a dormitory, with space for over 60 beds.
This flat also contains lavatory,
bath room, etc. Alterations are
included in contract to the eastern
half of present building mainly consisting
of new staircase from basement to fourth
floor and alteration to partition to suit new
building. Iron fire escapes are included,
leading from the dormitories in both old
and new buildings and third floor reaching
to ground at rear. The exterior of the
building will be treated to correspond with
the old work, finishing the same height
with mansard roof. When this wing is
completed together with other improve-
ments in view St. Dunstan's will be
one of the finest college buildings in the
provinces, the dimensions of the building
being 162 feet by 96 feet at the widest
part. The plans for the new wing were
made by Mr. C. B. Chappell.

THE DAVIDSONS

In Their Second Exhibition of
Fancy Skating Last Night.

Those who have missed seeing either of
the exhibitions of fancy skating by Mr.
John Davidson and Miss Fannie David-
son, the second of which was given in
Hillsborough rink last night, have missed
a rare treat—one which they may never
have an opportunity of seeing again.
There was a fair attendance. As on Mon-
day night, they at first came on the ice to-
gether then Mr. Davidson retired and
Miss Fannie went through a large number
of figures, introducing several new ones,
notably the skipping with a rope. Then
Mr. Davidson skated alone and then both
together again. After this Mr. Davidson
gave his exhibition of jumping. This was
truly wonderful. Those who find it hard
to jump even six inches off the ice with
skates on could scarcely comprehend how
anyone could so easily clear the bar, first
at 2ft 6 inches, then two inches higher and
lastly at 3ft 9 inches. Having given this
exhibition of high jumping he laid three
barrels down on their sides and went over
them with no apparent effort at all. Then
he stood one up on its end and went over
it. Then he stood another up be-
side it and went over both. Then
standing the third barrel up beside the
others he made a rush around the end of
the rink, came up to the barrels, gave a
monstrous leap and cleared them hand-
somerly. When this was over those specu-
lators who wished to were allowed an
ours skating.

Mr. and Miss Davidson left immediately
after their performance for the station and
went by the special to Cape Traverse and
crossed to Tormentine to-day, en route to
Halifax.

Things to Make a Note of.

the ice, there will be no band at the rink to-
night.

Those who have not yet heard Prof.
Watts on the clarinet will have have a
chance to do so this evening at the Engi-
neers' entertainment at the Lyceum. As
this entertainment is for the benefit of the
hospital a large audience should be pre-
sent.

is about 130 tons, and is partially insured.
She is owned by Mr. Matheson and Capt.
Benoit.

WASHINGTON'S BIRTHDAY.—Yesterday
was the anniversary of the birth of George
Washington, and the Stars and Stripes
and the Union Jack were much in evi-
dence at the United States Consulate.
The students from the United States at-
tending St. Dunstan's College—some
fourteen in number—were not unmindful
of the importance of the event, and cele-
brated the anniversary in good style.
After a sumptuous dinner at the College
they came to the city in a body, and, ac-
companied by Rev. Father Clarke, of
Boston, who has been a resident of Char-
lottetown for several months, paid their
respects to Consul Vail, where a most
enjoyable hour or so was passed in music
and social intercourse. In the evening
the students were entertained at supper by
Father Clarke, and the occasion was a
most enjoyable one.
