Duffy Science Centre-1966, holds engineering, biology, and physics. On the main level is a 250 seat amphitheatre. Classrooms and labs, as well as offices are located on every level of the building. Duffy also contains a green house.

Women's Centre-is located in what used to be the planetarium. The centre is a spot for men and women to come and study or talk to people about problems they might be having on campus. The Women's Centre sponsors one or two self-defence courses during the year.

The Rink-Originally built in 1898, it was said to be the first indoor rink in Canada. It was replaced in 1926, and has been rebuilt several times since then. The rink is used by students in the winter for varsity hockey teams, and for skating. The UPEI Daycare can also be found in the rink laughing and skating the afternoon away.
