JAMES WARBURTON,
May 28 1869 Treasurer to the Fund

IN another column will be found the Prospectus of the Canadian Dominion Directory for 1870 71, to be published by John Lovell Esq., Montreal. This Directory will include the Provinces of Ontario, Quebec, Nova Scotia, and New Brunswick to which will be added the Provinces of Newfoundland and Prince Edward Island, to contain the names of Professional and Business men and the principal inhabitants in the Cities, towns and villages, and alphabetical directories of Post Offices and Postmasters, Banks, Governmental Departments and Employees, &c., &c. This work will be published in September, 1870, provided a sufficient number of subscribers and advertisers can be obtained to cover cost of publication. Mr Lovell published a Directory for 1857 58 of which the Dominion and American Press were loud in praise. We subjoin the following extract from one of the leading American papers on this valuable work:—

CANADA DIRECTORY.—This is a most valuable and comprehensive publication and will be indispensable in every counting-house having connections with the Canadas. It is accurately described in the preface as a "Directory for the man of business, and a guide-book for the man of pleasure; an index for the immigrant and an instructor for the settler; a gazetteer for the student, and an army list for the militia officer; while for the statesman, and others connected with official life, it is a statistical chronicle of the progress of the country in all departments of enterprise." Every city, town, village, and hamlet in the Province finds a place in the work: and their locality, population peculiar features, and principal inhabitants, professional and business men, are described and recorded.—*New York Herald.*

The City Fathers have imported a superior fire-bell which has been placed in the cupola of the City Hall. We trust it will be a long time before it will be called into practical use.—[Herald.

CARLTON'S CONDITION POWDERS.—The best medicine in existence to put a horse in good condition, giving him a coat, soft and bright as satin, purifying all the internal and seminary organs. They act directly on the Kidneys, give him a good appetite, Regulate the Bowels without purging and are the desideratum so long sought for.

No man who owns horses, or any kind of stock should be without them. Try

SCIENCE AND ART.—A striking instance of the immense value a small piece of steel may acquire by the great power of skilled mechanical labour is the balance spring of a watch. From its extreme fineness and delicacy 4 000 weigh not more than one ounce and exceed in value £1 000. A most interesting little work, describing the rise and progress of watchmaking has been published by J. W Benson 25 Old Bond Street and the City Steam Factory 58 and 60, Ludgate Hill. The book, which is profusely illustrated, gives a full description of the various kinds of watches and clocks, with their prices. Mr. Benson (who holds the appointment to the Prince of Wales) has also published a pamphlet on Artistic Gold Jewellery, illustrated with the most beautiful designs of Bracelets, Brooches, Earrings, Lockets &c &c., suitable for Wedding, Birthday, and other presents These pamphlets are sent post free for two stamps each, and they cannot be too strongly recommended to those contemplating a purchase, especially to residents in the country or abroad, who are thus enabled to select any article they may require, and have it forwarded with perfect safety

IN answer to several enquiries, Mrs. W. Stevenson begs to inform intending purchasers that she has nothing to do with the sale (or raffle of one) of the celebrated Metzler Pianos recently imported. They are merely on exhibition at her Academy of Music. All applications concerning them must be made to Mr. Sullivan, Solicitor. They are the Parisian model (Pleyel-) Pianos that took the prize at the Paris Exhibition, and being *Entire* Tricord, require no tuning.
