

Commonwealth

policy—Western diplomats not the few of Prime Minister Churchill, said:

"The prime ministers gave anxious thought to the problems of nuclear energy. The latest discoveries confront humanity with a force which is almost beyond the capacity of man's brain to comprehend or measure. They present a choice and a challenge.

"Is this vast power to be developed for the benefit of man, or is it to be used to bring ruin upon the human race?"

Churchill presided over the meeting of 175,000 people—one fourth of the world's population.

EFFECTIVE DETERRENT

A separate communique on defence talks, which were not attended by India and Ceylon, said:

"They agreed that the overwhelming superiority of the Western powers in nuclear weapons at the present time the most effective and practical assurance that world peace will not be disturbed by any deliberate act of aggression.

"They agreed that their defence policies should be founded on the principle that war can be prevented if the free democracies are resolved to maintain in readiness forces sufficiently strong to deter any potential aggressor."

WORK FOR DISARMAMENT

The Commonwealth leaders pledged "to work for a disarmament agreement which includes forces and armaments of all kinds and is both comprehensive and effective."

New Zealand prime minister Sidney Holland in a separate statement said the discussions were overshadowed by the implications of thermonuclear warfare and the crisis off the China coast.

"The dangers and horrors of the one naturally colored our anxieties from the other and influenced all our thinking on security, defence and foreign policy," he said.

Holland added the ouster of Malenkov on top of the Formosa summit presaged the Commonwealth's present efforts to ease international tension. He did not elaborate.

New Emphasis

with particular interest that a man associated with the military had become the new prime minister. There was some speculation here that a new, stronger role for the armed forces in Soviet internal and external affairs, even though Bulganin is not a career military man but an old Communist administrator.

This current session of the Supreme Soviet approved a new 1955 budget, including a 12 per cent increase in military spending compared with last year and laid the heaviest of stress on heavy industry production.

NOT STRONG LEADER

The white-bearded, handsome Bulganin at 59 is six years older than Malenkov. During the Second World War he was the Communist official directly in charge of the armed services, immediately beneath Stalin. Khrushchev said Bulganin was the unanimous choice of the Communist party central committee and the

Offers To Sell Montreal Park To City

MONTREAL (CP)—E. J. (Buzze) Bava, vice-president of Brooklyn Dodgers, was prepared Tuesday to offer to the City of Montreal the Montreal Royals' baseball stadium for \$1,600,000.

The Dodgers, parent club of the triple-A International League Royals, are outright owners of the property and buildings.

Planning to meet Mayor Jean Drapeau, Bava said the \$1,600,000 figure is in line with the valuation set by real estate experts and takes into consideration present revenues derived from the property.

The sale proposal was seen as putting Montreal in a position to bid for a major league franchise should one become available.

Western Guardian

—SOUTH SHORE League, Bedeque Rink, Wednesday, Feb. 9th, 8:15 p.m. sharp. Wilmet Aces vs. Lot 16 B's. Skate after. Admission 25c and 35c. Note change in schedule.

—GRASS SEEDS.—Farmers requesting Seeds please send orders. There is a scarcity of some seeds, and we must have your orders now. Only those ordering now will be sure of getting requirements. John Myers.

W. M. S. MEETING

The president, Mrs. W. E. Forbes opened the February meeting of the W. M. S. of the Summerside Presbyterian Church yesterday afternoon in the church parlor by reading the hymn "Thy Way Not Mine, O Lord", in unison and offering prayer. The singing, "Lord, Thou My God," by Mrs. M. J. Cleve, followed by the reading of the scripture by Mrs. Wyman Birch. After the meditation entitled, "The Burning Bush" by Miss Jean MacKayden, prayer was offered by Mrs. J. Donald MacKay and the hymn "My Faith Looks Up To Thee" Mrs. M. J. Cleve.

The study period was conducted by Mrs. Perry on the theme "Christ and Native Schools in India." The meeting closed with a benediction in unison.

A.Y.P.A. MEETING

At their regular meeting Monday evening in St. Mary's Hall the A.Y.P.A. finalized plans for the Valentine dance to be held on Monday, Feb. 14. Lorna Lawson, chief of the prize committee, reported that prizes had been purchased for three dance numbers. Betty Lou Trednick and Doreen Dennis mentioned that some decorating material would be provided by a local firm and that the remainder necessary had been ordered. Beverly Birch gave her report from the re-treatment committee, stating that 200 people would be provided for according to plans. After some discussion it was decided to leave this as it was and that should more refreshments be required notice should be secured at a very short notice. Some time was devoted to discussion regarding the Valentine party. It is hoped that 7/12 Christmas of the R.I.A.P. Station, Summerside will be able to attend the ground break was served by Donald Sales and Jimmy Norton. The meeting closed with prayers led by the president.

TRINITY Y.P.U.

The highlights of the regular weekly meeting of Trinity Y.P.U. held last evening was the group's receding at C.R.V. of the hymn selections to be heard over the local radio station this evening at 7:45 in conjunction with Christian Youth Week. The meeting in Epworth Hall opened with the regular Bible study conducted by Rev. C. D. Matheson. Representing the commission on faith and evangelism, Elmer MacLeann, assisted by Hazel Jewell, conducted a very inspiring worship service. Mary MacLure was the pianist. A short routine was presented, in which it was announced by president Evelyn Underhay that next week's meeting would be in the form of a Valentine social, was conducted. Secretary-treasurer Bridges gave a favorable report on union finances. Another interesting feature of the meeting was a Bible quiz prepared and conducted by convenor Earnest Murphy. Lunch was served by the committee.

Dupas Gets

terms in the early rounds, Dupas split Howard's right eyebrow and the 24-year-old Canadian's attack was slowed by the flow of blood.

USED EARLY ADVANTAGE

Three inches shorter than Dupas, Howard used his lack of height to advantage in the early rounds, rushing Dupas to the ropes and scoring with a left-handed attack to the head. But Dupas found himself in the fifth and began to fight at long range, his stinging left hook making Howard's face bloody.

Dupas' fast two-handed attack brought cheers from the crowd of 3,004, who made up a gross gate of \$7,300.

Says Textile Industry Needs Greater Push

HAMILTON, Ont., (CP)—A textile industry spokesman says Canadian manufacturers are trying to improve and maintain their position, rather than relying chiefly on tariffs to protect their domestic market, but could do more.

William King of Montreal, editor of the Canadian Textile Journal, spoke Saturday at the 20th anniversary dinner of the Ontario section of the Canadian Association of Textile Colorists and Chemists.

He said that, while tariffs on imports of textiles are "obviously inadequate," the industry "through its own efforts as well as through a more realistic policy on tariffs by the government could achieve a greater distinction."

He urged the technical associations to increase their technological programs and command of textile schools in Hamilton and St. Hyacinthe, Que., for their contributions of trained technicians to the industry in Canada.

council of ministers for the premiers. The central committee met Jan. 25.

It was not clear whether Bulganin retains the defence ministry. Some diplomatic quarters speculated that Bulganin would be a sort of chairman of the board—a co-ordinator—and not a strong personal leader.

There was little question about the influential role of the 60-year-old Khrushchev, personally identified with all the most important events in Soviet life in the last year. He had charge of the new agricultural program with its exploitation of mechanization and Siberia and central Asia. He directed the drive for concentration of heavy industry.

Malenkov had been associated since August, 1953, with a drive to increase light industry production for consumer goods—a program which Khrushchev personally disapproved before last month's central committee meeting.

COLLECTIVE RULE ENDED?

Khrushchev's role in foreign affairs, through the emphasis on heavy industry, was detected by observers here in the budget statement of Finance Minister Arseny Zverev before Parliament. Zverev said emphasis on money for armaments was necessary because there had been lessening of international tensions.

Malenkov's resignation climaxed months of speculation concerning his role in the party and government leadership. Some Western diplomats saw in it the end of the "collective leadership" or committee rule which took over after Stalin's death.

Malenkov's statement said he saw the necessity "of strengthening the leadership of the council of ministers and the need to have at the post of the chairman of the council of ministers another comrade with greater experience in state work."

Offers To Sell Montreal Park To City

MONTREAL (CP)—E. J. (Buzze) Bava, vice-president of Brooklyn Dodgers, was prepared Tuesday to offer to the City of Montreal the Montreal Royals' baseball stadium for \$1,600,000.

The Dodgers, parent club of the triple-A International League Royals, are outright owners of the property and buildings.

Planning to meet Mayor Jean Drapeau, Bava said the \$1,600,000 figure is in line with the valuation set by real estate experts and takes into consideration present revenues derived from the property.

The sale proposal was seen as putting Montreal in a position to bid for a major league franchise should one become available.

FREETOWN SCHOOL

Following is the school report of Upper Freetown School for the month of January:

Grade X.—1. Carlyle MacEachern; 2. Helen Rowe.

Grade IX.—1. Sandra Jardine; 2. Sheila Warren.

Grade VIII.—1. Dianne Mallett; 2. Marina Deighan; 3. Allan Andrews.

Grade VII.—Nora Scates; 2. Wave Reeves; 3. Shirley Hatfield.

Grade VI.—1. Marjorie Reeves and Allan Handrhan, equal; 2. Bill Andrews; 3. Byron Burns.

Teacher—Miss Phyllis S. Drummond.

Junior Department

Grade V.—1. Doreen Mallett; 2. Lowell Reeves and Sheldon Riley equal; 3. Leo Deighan.

Grade IV.—1. Maurice Perry; 2. Billy Perry; 3. Farrell Reeves.

Grade III.—1. Eva Paynter; 2. Donna Deighan; 3. Elizabeth Reeves.

Grade II.—1. Rhonda Reeves; 2. Carol Paynter; 3. Melinda Murphy.

Grade I.—1. Charles Rowe; 2. David Perry; 3. Dwayne Paynter and Linda Bigelow, equal.

Teacher — Miss Orville McCarville.

Duke Volunteers To Help Magician

LONDON (AP)—"And now," said the magician, "if some volunteer will kindly come forward to help me with the next trick..."

Up stepped the Duke of Edinburgh, and for 10 minutes he was stooge to Tommy Cooper, known as Britain's "mad magician." Between them the duke and Tommy made a glass beaker disappear most mysteriously and pulled off half-a-dozen other tricks.

It happened in London Tuesday at a luncheon of the Variety Club, members of which are known as "barkers." The duke of Edinburgh is an "honorary life barker." He wore the club tie—a snappy blue number ornamented with a red heart.

Denies Theft of Shell Design

OTTAWA (CP)—Dr. E. W. Steacie, national research council president, denied Tuesday that the council stole a design for an anti-aircraft shell during the Second World War.

Thomas Nixon, Saanich, B.C., was a veteran, was quoted by the Victoria Colonist as saying he sent plans for the shell to the council in 1940 but that he was never given credit for the invention.

Dr. Steacie said the council received plans from Mr. Nixon in 1940 and replied that year that a careful examination showed they contained nothing new and did not contribute further to development work then under way.

"Thousands of suggestions were received from inventors during the war years," Dr. Steacie said. "Most of them were not practicable. In most other cases we already were working on other inimitable ideas submitted."

Test Zinc Ore Samples From Cape Breton

SYDNEY (CP)—Bulk samples of zinc ore from the newly discovered deposits at nearby Meat Cove have been delivered to United States research laboratories for determination of germanium content.

Officials of Mineral Exploration Corporation, holder of the Meat Cove concession, said today the ore would also be studied for recovery methods.

It was taken from the surface pits during 1954. Underground work at the property is reported continuing on schedule.

Germanium and cadmium have been consistently reported in Meat Cove assays since the deposit was discovered last year.

Current United States quotations on pure germanium is \$295 a pound.

It is reported that the federal government has been studying possible sources of germanium for more than two years because of the metal's importance to the electronics industry.

Germanium is essential in the manufacture of tiny metal amplifiers called transistors, important in defence electronics and expected to eventually replace vacuum tubes to a large degree.

North Bedeque School

The following is the January report of North Bedeque School.

Grade VIII.—1. Joyce Birch; 2. Herbert MacDonald.

Grade VII.—1. Ernest Stavert; 2. Joan Carruthers; 3. Doreen Baker.

Grade VI.—1. Vivian Waugh; 2. Donna Carruthers; 3. Elaine Waugh.

Grade V.—1. Adele MacCaul; 2. Marilyn Carruthers; 3. Mary MacDonald.

Perfect Attendance — Joyce Birch, Lorna Campbell, Ernest Stavert, Donna Carruthers, Marilyn Carruthers, Adele MacCaul, Principal—Jean Reeves.

CAPE TRAVERSE SCHOOL

Primary Department

Grade 6 — 1. Jackie Waddell; 2. Donna Cutcliffe; 3. Gerald Noonan; Grade 5 — 1. Ruth O'Holloran; 2. Audrey Sturdy; Grade 4 — 1. Roy Irving; 2. Billy MacDonald and Elizabeth Cutcliffe, (equal); 3. Gerald Cutcliffe; Grade 3 — 1. Dianne Sturdy; 2. Paul MacDougall; 3. Lynda Cutcliffe; Grade 2 — 1. Lena Hansen; 2. Margaret MacDonald; 3. Gerald Arsenault; Grade 1 — 1. Linda Darrach and Ronnie Hansen, (equal); 2. Connie Muttart; 3. Edrie Quigley.

St. Laurent Honored At Ceremony In London

Prime Minister St. Laurent (right) is presented with the honorary freedom of the City of London in a ceremony at the Guildhall. The Chamberlain of London presents Mr. St. Laurent with a copy of the Freedom in a silver-gilt casket. (CP from AP).

Ladies' Rinks Visit Ch'town

Two rinks from the Summerside Ladies Curling Club and two from the Montague Club visited Charlottetown for friendly games on Tuesday afternoon. Following the matches they were entertained at a banquet in the Winchester Banquet Hall, presided over by the president, Marion Dockendorff. The banquet was convened by Helen MacKenzie and Valentine decorations arranged by Margaret Worth added a gay note and were carried out in the flower arrangement of white chrysanthemums and red carnations, and red and white candles.

The winning rink from Summerside was as follows: Skip, Willa Somers. Ret. Silliphant, Shirley Simpson, Elm. Morrison. Montague took second place with Henrietta Clair skip, Leona Sinclair, mate, Hal Inman, second stone and Edith Clay, first. Third Summerside — Skip, Marion Smallman, Marion Hinton, Fran Henthorn, Irene Dickie.

S'ide Aces In 11-5 Win Over The Alberton Regals

The Summerside Aces continued their unbeaten streak by defeating the Alberton Regals at the Raceway Stadium last night by the score of 11-5. The visitors were down 6-0 in the first period, and from then until the end of the game scored goal for goal with the powerful Summerside team. The game was terminated 2 minutes and 52 seconds before the end of regular play when Perley Hardy got a gash on his forehead, presumably from a flying stick, and it was thought the wound would require three or four stitches.

Bonnie Howatt scored four goals for the Aces, and added an assist. He won the Holmen's Men's Wear award for the most valuable player on the home team. Joe Bernard had a goal and three assists. Gay scored two goals, and McArthur, Harris and Taylor each collected two assists. Claude Gaudet and Baird each had one marker, and one helper. Cannon had a goal and Kelly and Benny Grady an assist each.

For Alberton Mike Kinch scored the hat trick getting three counters while R. Fraser and McRae shot the other Regal tallies. Millman and three helpers, and K. Fraser, and MacDonald chipped in with an assist apiece. Referee Joe Hunter and Ralph Pettit handed out five minor penalties, three going to Aces and two to Regals. Howatt and MacDonald got the only major penalties for fighting.

See 650,000 Unemployed

OTTAWA (CP)—Canada's two largest labor congresses predict this winter's unemployment will reach a post-war high of more than 650,000.

In a joint letter to their provincial affiliates made public on Tuesday, the Trades and Labor Congress and the Canadian Congress of Labor say unemployment is the country's most serious domestic problem.

The congresses, with a combined membership of 855,000, state:

"On the basis of reliable information it is estimated that there are in excess of 550,000 unemployed persons in Canada at the moment. From every indication, there will be at least an additional 100,000 unemployed at the peak period this winter."

The high point of winter joblessness usually strikes in March. In that month last year, the government reported a post-war record 570,000 persons looking for work through National Employment Service and a bureau of statistics estimate of 318,000 actually out of work and looking for jobs.

The last government figures, issued Dec. 10 last, had 363,000 persons seeking employment through NES and the statistics bureau estimated 247,000 were out of work.

The rival congresses, in one of their occasional joint actions, urge their provincial bodies to get together to put pressure on federal, provincial and municipal governments to take action to provide jobs.

The letter to T.C.L.-C.C.L. affiliates suggests that provincial labor federations make representations to their governments to have them accept the principle that the cost of relief for able unemployed people be divided "equitably" between federal and provincial governments.

Test Zinc Ore Samples From Cape Breton

SYDNEY (CP)—Bulk samples of zinc ore from the newly discovered deposits at nearby Meat Cove have been delivered to United States research laboratories for determination of germanium content.

Officials of Mineral Exploration Corporation, holder of the Meat Cove concession, said today the ore would also be studied for recovery methods.

It was taken from the surface pits during 1954. Underground work at the property is reported continuing on schedule.

Germanium and cadmium have been consistently reported in Meat Cove assays since the deposit was discovered last year.

Germanium is essential in the manufacture of tiny metal amplifiers called transistors, important in defence electronics and expected to eventually replace vacuum tubes to a large degree.

New Paint Is Creating Stir

TORONTO (CP)—Paint is a household word. Thixotropic is not—but it is creating quite a stir in paint circles.

The thixotropic paint is being exhibited by a Brantford company at the Canadian hardware and housewares exhibition here.

Salesmen say it doesn't require stirring of thinning, won't drip from the brush and remains wet enough to work with 30 minutes after the first brush. They claim it's also fast-drying, smooth and economical.

"Thixotropic" incidentally means a property of reversible alteration of plasticity of colloidal material under mechanical stress.

Denies Theft of Shell Design

OTTAWA (CP)—Dr. E. W. Steacie, national research council president, denied Tuesday that the council stole a design for an anti-aircraft shell during the Second World War.

Thomas Nixon, Saanich, B.C., was a veteran, was quoted by the Victoria Colonist as saying he sent plans for the shell to the council in 1940 but that he was never given credit for the invention.

Dr. Steacie said the council received plans from Mr. Nixon in 1940 and replied that year that a careful examination showed they contained nothing new and did not contribute further to development work then under way.

Rotary Film Is Shown At S'ide Meeting

"The Great Adventure," a sound film depicting the aims and ideals of Rotary was the highlight of the program yesterday at the Summerside Rotary luncheon meeting. Produced by Rotary International and starring Edward Arnold, Hollywood star, the film traced the history of Rotary since its beginning in 1905 down through the years as it spread to various parts of the world and its doctrine of service above self to almost every part of the globe. Scenes of the Rotary International conventions held in the principal cities of the world, showed how International the organization really is as delegates, representative of almost every race and creed met to renew old friendships and plan for the future service of rotary to mankind.

Guests present yesterday were J. Elmer Murphy, editor of the Journal Pioneer, C. Ross MacKenzie, J. Lloyd Gorrill and Geo. Clow president, J. C. (Bud) Mountain, president.

Last Civilian

Interfere in the withdrawal, which was moving in such high gear that some authorities expected it to be completed by Monday or before.

The residents of the North and South Tachens, 200 miles north of Formosa, crowded aboard Chinese landing craft and U. S. transports while carrier fighter planes flashed overhead on patrol.

Late reports from the Tachens said only one civilian had decided to remain on North or Upper Tachen.

Most of the 15,000 civilians are on South or Lower Tachen. Most of the 15,000 Nationalists regulars and guerrillas are on North Tachen.

Winsloe And Hampshire Win

In competition for the R. R. Bell Trophy at the North River rink last night, the Hampshire rink defeated the Winsloe rink 12-3 while the Winsloe team defeated North River 9-2.

Former Sports Editor Dies

CALGARY (CP)—Ralph B. Wilson, 57, a former sports editor of the Calgary Herald and a veteran of the First and Second World Wars died Monday night in hospital. He had been in ill health for more than a year and retired from The Herald July 1953.

In 1941 he was appointed public relations officer for military district No. 13, serving until 1945 when he went overseas as managing editor of The Maple Leaf, Canadian Army newspaper overseas.

Fox Too Smart For 16 Hounds

NEWTON ABBOT, Eng. (AP)—The South Devon foxhounds chased a fox through a cop's backyard — then failed to look before they leaped a five foot wall.

The hounds cleared the wall all right but landed smack in the river Leman. The fox, meanwhile, was foxy in a bramble patch beneath the wall.

Even one of the 16 hounds might have drowned in the swift flowing river except for some girls who helped pull them out. The master of the hunt had to buy new nylon stockings for the rescuers, who tore their fishing hounds from the drink.

Princess Pays

mauve silk dress, was welcomed by an islander masquerading as "Bligh of the Bounty"—Capt. William Bligh, the famous British sea captain, who introduced breadfruit to the West Indies in 1791 not long after the crew of the Bounty staged their famous mutiny and set him adrift in the open sea.

The mock Bligh, dressed in an old naval uniform and carrying a telescope, waved to the princess from a 24-foot boat with an antique cannon at the bow. His crew were nine beaming Caribs, descendants of the original inhabitants of the island.

Only hitch in the gay ceremony came when the cannon jammed as it was about to fire a salute.

The islanders presented the princess with a hand-embroidered parasol of St. Vincent's famous cotton. The handle was fashioned from a baby's tooth.
