POLICE COURT.—This morning, Francis Kehoe, of Georgetown, was fined \$5 or 20 days for being drunk and incapable on Queen Street last evening. When Kehoe was searched in the station after being arrested a pair of head knickerbockers was found on his person, and for carrying them an extra fine of \$10 or 30 days was imposed.

COUNTY COURT.—The County Court is still in session. Judgment was given today in the suit of John A. Mann vs. Park and Francis Power. This was an action of trespass and trover for the value of two maple trees which the plaintiff lost off his farm at Irishtown, New London, last fall. The suit was tried in New London court and awakened considerable local interest. Judgment was given to-day in the plaintiff's favor for \$4 and cost.

To-night will be the last and best lecture on "Astronomy Illustrated," in Philharmonic Hall, at 8 o'clock, by Prof. Cox. That grand anthem, "Heavenly Vision," will be sung in connection with those wonderful glimpses by the Lick telescope of "worlds beyond ours in space profound." The "Storm at Sea and Ship on Fire," with song, "The White Squall," and other fine scenes will be repeated by request at the close of the lecture. Don't forget it.

A MILD REQUEST.—One afternoon last week, a crank whose identity has not yet been ascertained, entered the Clinton Place bank, on Astor Place New York City, and put down a check for \$1000 on the paying teller's window. The check was for \$1000, and was signed "Almighty God." The teller, in order to kill time till he could make the man's presence known to the bank detective, asked the caller to wait till he opened the safe and got the money. No sooner was the cashier's head turned than the man fired several shots at him. The man was promptly seized by the bank employees and locked up.

THE BOOBLER AGAIN.—The air is full of rumors regarding the steamer Boobler. It is said that she took fire during her East River trip yesterday and her West River trip on Monday, and collided with the Rocky Point wharf on Saturday.

The Examiner spoke to Captain McPherson and McDougall and Government Engineer McMillan regarding these rumors this forenoon, and was assured that so far as the first and last mentioned reports were concerned there was nothing in them. It was admitted, however, that there was something in the report of the fire during the West River trip.

The steamer not having been put on to the boiler, the wood work of the boiler room took fire from the heat of the boiler, but they say the fire was promptly extinguished and the boat went on her way to the bridge as if nothing had happened. The walls of the boiler room are of white pine and the sills of pitch-pine. The boiler is only a few inches from the sills.

FIRE THIS MORNING.—The building on Queen St. owned by Concellor Hughes and occupied as stores by Messrs. M. S. and J. Goodstein and the agency of the Singer Manufacturing Company, was somewhat damaged by fire about six o'clock this morning. It is thought that the fire was the result of a quantity of ashes which had been allowed to accumulate in the fire heating or igniting below the grate in Goodstein's store, and setting fire to the woodwork near by. Once started the flames crept up between the wall separating the stores and along the ceiling of the Singer establishment. It took about an hour's hard work on the part of the firemen to extinguish the fire. The Messrs. Goodstein had no insurance on their stock. The most damage their goods sustained was by water, and they will clear them out cheap. The bulk of the Singer Company's stock was removed to the street. The manager being absent from the city we cannot ascertain particulars regarding insurance. The loss to the building is covered by insurance.

COME DOWN TO DETAILS.—The Times this morning says: "Mr. M. Lodge, representing VanMeter, Butcher & Co., returned from a trip to P. E. Island on Saturday. Mr. Lodge says horses are very cheap on P. E. Island just now. Seventeen were brought over to Point du Caene on Saturday, the average price of which would not exceed \$35 or \$40." This statement is not questioned but circumstances alone give the impression conveyed. This can be easily understood when it is known that the seventeen horses in question were purchased by a man named Mr. Trask, of Gardiner, Me., who went to P. E. Island with the express purpose of purchasing old horses to be utilized in the ice business during the approaching winter, and advertised accordingly. Horses of this class can be bought in any city in the province for from \$25 to \$50, and a resident of Moncton is now the owner of a horse, weight 1,340, qualified to vote, which he would gladly get rid of for \$25 or a shot gun. P. E. Island as well as any other place naturally has cheap as well as costly articles.—Moncton Transcript.

THE WAR IN THE EAST.

The London Times publishes a despatch from its Tien-Tsin correspondent, who says that the Chinese fleet went on Monday with orders to attack the Japanese fleet. The Shanghai correspondent of the Times says Chinese officials report that a fight took place between the Chinese and the Japanese, near Wiju, on Monday, resulting in the retirement of the Japanese southward. Each side is said to have lost about 3,000 men.

The London Graphic has this despatch from Chemulpo: "Four hundred Japanese are quartered in the king's palace in Seoul in consequence, it is said, of the discovery that the king's father is in league with Tongkah rebels. The Chinese are mobilizing large forces in Kurene and Pow Ting Fu. The king's second son started for Hiroshima, Japan, Oct. 16th with a quantity of presents for the Mikado. Some 1,800 Japanese, wounded in battle, are under treatment here. Many more are in Seoul; 2,100 were sent to Japan. At Ping Yang 1,200 Chinese Chinese are in hospital.

A despatch to the Central News from Shanghai says the Chinese fleet, which recently sailed from Fort Arthur, after having undergone repairs there, reappeared at Wei Hai We. Taotai of Shanghai has requested foreign consuls to warn subjects of their governments to avoid the localities where large bodies of Chinese troops are stationed. The Taotai also requested that all Japanese residents of China, to whom he refers as "fawning pigmies," shall register at the city of Tien Tsin by the 20th prox. Reports have been received at Shanghai that two boats connected with the torpedo service have been blown up at Taku and that eight persons were killed and two wounded in the disaster.

The special session of the Japanese diet, which was recently convoked at Hiroshima to consider war measures, closed on Monday. Every measure presented to the diet was unanimously passed. A memorial was presented urging the Government to execute the desires of the Mikado with a view to the restoration of peace in the east, increase of the glory of Japan, the punishment of China, and the prevention of future outbreaks of eastern peace. The memorial concludes with declaration that Japan will not tolerate interference by any nation to prevent her obtaining the ultimate objects of the war which she has been making against China.
