## THE ADVANCE ON KHARTOUM

### The Khalifa is Laying Torpedoes

IN THE WAY OF THE NILE GUNBOATS

The Fight Expected to Take Place Next Week.

[SPECIAL TO THE EXAMINER.]

CAIRO, Aug. 31.—The Khalifa, according to a despatch received yesterday from Wadey Obeid, has laid torpedoes in the Nile below Omdurman, and a large dervish force is issuing from Kereri, about 8 miles north of Omdurman to meet the Anglo-Egyptian advance. The first decisive engagement will take place on Wednesday or Thursday.

### INTERNATIONAL CRICKET.

[SPECIAL TO THE EXAMINER.]

PHILADELPHIA, Aug. 31.—The international cricket match resulted in a victory for the United States team by an innings and one run.

### SONS OF LORDS.

Unusual Number of Them Among General Kitchener's Forces.

LONDON, Aug. 30.—General Kitchener's force operating on the Nile contains an unusual number of sons and nephews of distinguished men. Lord Roberts, Lord Salisbury, General Sir Evelyn Wood, the Earl of Derby, Lord Medway, the Earl of Lauderdale, and Lord Loch of Drylaw have each a son in the Sudan's command, and the Duke of Teck has two. The Earl of Durham has two nephews there, and General Lord Wolseley, Commander-in-Chief of the army, has one.

### WEYLER'S POLICY.

[SPECIAL TO THE EXAMINER.]

LONDON, Aug. 31.—Gen. Weyler has outlined his future policy. He proposes to be independent both of the Government and of the Opposition, always aiming to preserve the country and to re-organize the army.

### SIR CHARLES TUPPER.

[SPECIAL TO THE EXAMINER]

HALIFAX, Aug. 31.—Sir Charles Tupper will be entertained here on Thursday by an excursion on the harbor, and will deliver an address on the picnic grounds.

### They Want Good Order.

LONDON, Aug. 30.—The Manila correspondent of the Times says: "The leading commercial men here have signed a memorial to Lord Salisbury urging him to use his influence to prevent the Spaniards from regaining supremacy in the Philippines. 'The conduct of the American troops is admirable. The town since their occupation has been wonderfully free from disturbance. General Green has been ordered to return to Washington. He will sail with General Merritt.'

### A Sparkling Brightening Drink.

The use of Abbey's Effervescent salt as a summer drink is becoming general on account of its unquestioned excellence. A teaspoonful of this standard English preparation, taken in a tumblerful of water, makes a sparkling drink, which brings rest and vigour to the wearied body. All druggists sell it.

### NEWS NOTES.

A writer in the London Times, commenting on the much more extensive use of the telephone in Canada than in England, finds the reason in the Government monopoly in the Old Country, which makes the charges, even for country districts, \$70 in England as against \$20 to \$30 in Canada.

Saint Swithun was an English ecclesiastic of the ninth century who was chaplain to King Egbert and tutor to his son Ethelwulf under whom, when the latter came to the throne, he held the office of chancellor. He had charge of the education of King Alfred, whom he accompanied to Rome. In 852 he was consecrated Bishop of Winchester. The tradition states that it rained forty days in consequence of the proposed removal of his remains from the churchyard to the cathedral.

### ESTEEMED EXCHANGES.

St John Sun: It is said that the government is trying to make a fast line contract with the Allans. This is another return to the policy of the late government.

Montreal Gazette: A sixteen knot service is now said to be contemplated by the Government for the Atlantic mails. It is only in their talk that the Laurier ministers get on a modern 20 knot gait.

Mail and Empire: It is estimated that Dan McGillivuddy will make \$20,000 out of his Goderich harbor contract. This, however, is small when compared with the \$1,200,000, that the Toronto Globe people roped in after advocating the enormous Crow's Nest Subsidy.

Mail and Empire: What does the Governor-General think of the Hardy trick? He reads the newspapers. He knows more than his advisers tell him. These characteristics of his are on record. Hence he must know that the Premier of Ontario, learning that there was danger that the courts would decide that he had been beaten at the polls, called a session of the Legislature, whose legality was in question and persuaded it to pass a tricky piece of legislation which would prevent the carrying out of the laws should the judges decide that a majority of Conservatives had been elected, but counted out by illegal constable votes.

Now, if the Governor General knows of this action, what does he think of it? Would he retain confidence in such a set of advisers if he were Lieut.-Governor of Ontario? What is he prepared to say to his Cabinet about a Lieut.-Governor who apparently did not lift his hand to stop such a proceeding?

—The Montreal Gazette remarks that Sir Wilfrid Laurier's triumph in obtaining the denunciation of the British trade treaties with Germany and Belgium has so far, in practical effect, resulted in a special impost being laid on Canadian grain that practically shuts it out of the German market. It is not making us rich.

## JUST WHY HE DID IT

### McInnes-Turner Correspondence Made Public.

AN INTERESTING CHAPTER.

Lieutenant-Governor States That His Late Advisers Attempted to Take Him Unawares—Turner's Dismissal.

VICTORIA, B. C., Aug. 29.—The whole of the correspondence between Lieut. Governor McInnes and ex-Premier Turner has been published in a special issue of the British Columbia Gazette, and has caused a sensation. It discloses the fact that the Lieutenant-Governor's objections commenced on July 13, four days after the general elections, when he declined to approve of appointments recommended by the Government to the change of date of polling in the Cassiar district, to the placing at the disposal of the Government agent in Cassiar of \$15,000 for the relief of men in that district by employing them on trails, and to the expenditure of other sums asked to be placed at the immediate disposal of agents in other parts of the province.

The Lieutenant-Governor refers to unpleasant interviews with the Premier and other members of the Government, and complains that warrants, which he had previously intimated that he would not approve, had been thrust in again among orders on routine matters in such a way that he was nearly led inadvertently to sign them, and in fact signed one warrant placing \$2,500 at the disposal of the chief commissioner for the construction of county school houses which he had previously refused to sign.

The Lieutenant-Governor also instances a case in which a batch of warrants was sent to him for signature fastened together in such a way that his signature on the last sheet would have indicated approval of all, but he inspected them all before signing, however, and to his surprise he says he found inserted in different places six or seven warrants in blank. He continues, "I did not propose to approve of blank warrants, and I cut them out."

The Lieutenant-Governor's letters of August 8th, which Mr. Turner said was not a dismissal, concludes as follows:—

"As I would not feel justified in granting you another dissolution and appeal to the electorate, and as after a careful study of the situation I am convinced that you could not command a majority in the Assembly, I shall not put the province to the delay or the expense of a special session of the Legislature merely for the purposes of formally demonstrating what has been already sufficiently demonstrated to me by the general elections. I deem it my duty to therefore ask, and I do hereby ask, that yourself and your colleague-hand in your resignations as advisers to me and as members of my executive council."

Mr. Turner, replying to the letter, says among other things that on June 8th, T. R. McInnes, the Lieut.-Governor's son and private secretary, told him that the way out of the difficulty was to give W. W. B. McInnes, M. P., a cabinet position, when he (W. W. B. McInnes) would resign from Parliament and bring over one or two Opposition members to join Turner's party, and that W. W. B. McInnes subsequently confirmed this proposition.

The Governor, in a subsequent letter, characterizes the suggestion as "impertinent."

The whole correspondence occupies eight columns.

### HOW THE FIELDING

#### TARIFF WORKS.

Last year our British purchases aggregated \$32,000,000; those from the United States, on the other hand, stood at \$78,000,000; an increase of \$17,000,000.

Of British goods \$22,000,000 worth were taxed, and \$9,929,000 worth were free.

The free goods were thirty per cent. of the whole.

Of goods from the United States \$37,674,000 worth were taxed, and \$40,558,000 worth were free.

The free goods were fifty-four per cent. of the whole.

It seems queer that the British preference should work this way; but the fact is that Mr. Fielding increased the British duties before giving the patriotic discount, and made a direct cut on the United States goods.—Mail and Empire.

### Situation at Manila.

LONDON, Aug. 30.—The Hong Kong correspondent of the Daily Mail says: "The relations between the Americans and Filipinos are much strained in consequence of the collision at Cavite last Wednesday. The insurgent general at Cavite has been ordered to evacuate the place and remove his troops two miles into the country in order to prevent further disturbances. 'Gen. Aguinaldo says his chief purpose in maintaining his army near the city was to be prepared to cope with Spain in case America left Manila to the Spanish.'"

### A Lady to the Front.
